ALICE CLARK TELLS STORY OF TURK CAPTIVITY

Evanston Girl Helps "Tame" Bandits.

BY LARRY RUE.

[Chicago Tribune Foreign News Service.]
[By Special Cable.]

[Copyright: 1920: By the Tribune Company.]

CONSTANTINOPLE, July 7.—How three American women, virtually Turk prisoners for more than two months, prevented the murder of 300 Armenian orphans and refugees under their care, nursed the Turk wounded, blacked the eyes of hostile Turk officers, cooked delicacies and ground coffee for fierce Turk soldiers, and played the music to entertain irresponsible Turk bandit chiefs is told here by Miss Alice Clark of Evanston, who arrived Monday from Hadjin after a harrowing experience. Besides Miss Clark, Miss Edith Colds, a missionary of Cleveland; Miss Mary Super, American Red Cross nurse, South Bend, regularly attached to the Near East Relief at Hadjin; Mr. and Mrs. Eby, Canadians; Miss Katherine Bredemus, North Berth, Pa., regular missionaries, occupied the American buildings at Hadjin.

BY ALICE CLARK.

Although the region was shut off from communication with the outside world since March 9, the Turks did not descend on Hadjin, which is an Armenian village surrounded by mountains, until April 6, when they captured the Near East Relief compound in the outskirts, but were unable to take the city. We relied on the United States flag to save us.

When the Turk leader demanded to search the place, Miss Colds, who speaks Turkish fluently, explained the Americans were neutral. She told him we were depending upon Turk honor, which trust was emphasized by the fact we had only one gun, informing him further the compound contained 300 Armenians, mostly children, and but few unarmed men. She said if the Turks refused to take our word for these facts American honor would be injured.

Turks Drop Hostility.

This was effective, as were other appeals to Turk gallantry, although later the premises were searched painfully several times, the Turks suspecting the existence of underground communication. The Turk attitude was quite hostile at first, but changed from distrust to confidence. The change was due especially to Miss Super's nursing their sick and wounded, saving several lives, and Miss Colds' ability to jolly them along, keeping them always on honor and generally managing them like a primary teacher does her pupils.

In fact, the Turks tried hard to live up to the high standard Miss Colds set for them, she even winning over as a humble slave one of the evilest, fiercest creatures I have ever seen. The effectiveness of this will be realized when it is considered every one of the chiefs of the seven bands beleagering Hadjin, who were all at first hostile toward the United States, became our friends. Of course, at the beginning they took advantage of our position and made the United States entertain them with the talking machine, black their shoes—a job we wished on the Armenians—grind their coffee and cook something for them, but later the Turks were rather our slaves than we theirs.

[Although Miss Clark does not mention this, others say her cooking and cheerfulness did as much as anything else to put the Turk on good behavior.—Ruc.]

Armenians' Misguided Attack.

The Armenians at Hadjin through a misguided sense of chivalry began a siege for the compound on April 9, while the Turk guard unawares, took the Armenians to safety, offered the Americans protection, which was refused, and apologized for putting us in a position where we had no friends left either Turks or Armenians—the latter disapproving our neutrality. Had the Armenians left the orphans in our care we could have protected them indefinitely, but now they will surely suffer privation of food if they don't starve.

Nearby villagers used daily to sell us vegetables, eggs, and dairy products, even during the Turk occupation. Although the Armenians took considerable of our supplies, which we were glad to give them to feed the orphans, this daily fresh supply was not open to them, and we know the food question in Hadjin was serious even before the siege.

Following withdrawal of the orphans the compound became a no man's land filled with both Turk and Armenian bullets. Seven horses and all our cows were killed by stray shots. The

WILD LIFE IN LOOP MAKES 2 COWBOYS FLEE

Girl Whips Two Police and Husband.

Among those not present at the dansant at the municipal pier last night were Miss Mary Bishop, Mrs. Evelyn Youngblood of 1247 North Dearborn street, and two swell cowboys from Wyoming.

They started. They got as far as the Hotel Sherman. And then—There were Mrs. Youngblood's mamma, and Mrs. Youngblood's husband, William, a barber at the Hotel La Salle shop; and a couple of policemen, and a gallery that stopped loop traffic and everything.

To begin with, the Youngbloods have been separated since January. Their three-year-old son, Billie, is now at the home of Mrs. Marie Turnquist of 3059 Logan boulevard. Mrs. Youngblood, seeking an independent livelihood, has been working in the loop and living with Miss Bishop. But Mr. Youngblood wants her back.

The Loop Gets a Thrill.

Pedestrians at Randolph and Clark streets knew nothing of all this when they suddenly heard vehement language exchanged among three women and a man. It seems Mrs. Youngblood's mamma and the husband had overtaken her and Miss Bishop at the entrance of the Sherman. They were just bowing to the two cowboys.

"I've got you now," cried Mr. Youngblood. "I've spent $500 following you, but I've got you now."

"You bet you have, William," cried his mother-in-law.

"Say," said Mrs. Youngblood, "I wouldn't live with THAT if he had a million dollars."

"Police, police," cried the mother-in-law.

Policeman Al Bolsart and Patrick Daley of the Central detail responded.

"Arrest those two," cried the mother-in-law.

"Why?" queried Mr. Daley.

"Do your duty. Disorderly conduct. Running around with other men, to dances."

Three Strikes and Out.

Mr. Daley placed a brawny hand gently, but firmly, upon Mrs. Youngblood's left arm. She deftly swung with her right and planted a neat uppercut to his chin. Then she whacked him over the head with her steel beaded purse. His cap fell off. So did his spectacles.

Mrs. Youngblood next whirled upon her husband, knocking off a new summer hat.

By this time Mr. Bolsart had come up as a reserve force. Mrs. Youngblood kicked him on the shins. He backed away, but her purse caught him on the nose. He blinked.

Mr. Daley had now recovered. The two succeeded in holding Mrs. Youngblood and escorting her to the station. Lieut. Edward Conroy tried to act as peacemaker. He failed. But they were not held.

Too Wild for Wyoming.

Mrs. Youngblood went home with her mother and Miss Bishop walked back to the Hotel Sherman, where she waited vainly for the two gentlemen from Wyoming to reappear. They had packed their six shooters and ducked.

"And they were the swellest cowboys," she told a reporter. "Right from the wild and woolly west. But they got scared, I guess."

BRIDE OF SIX MONTHS TAKEN AS STORE THIEF

Although Mrs. Katherine Kerwin claims she is Katherine Kerwin—only that, and nothing more—the police of the detective bureau declare she is a thief extraordinary, despite her mere 25 years. They call her the girl with the million dollar wardrobe. They say she has robbed women of $10,000 to $15,000 besides jewelry in the last few years.

Sergts. McGuire and Corwin identified her yesterday as Anna O'Reilly, alias Anna Donevan, alias Nellie Waugh, who has a police record dating from 1914.

Mrs. Kerwin, who says she married Paul Kerwin, a teaming contractor of 2935 Ellis avenue, six months ago, was arrested in Marshall Field & Co.'s store yesterday by Sergts. Brophy and O'Donnell, on complaint of Mrs. W. A. Becker of 3424 Elaine place, who accuses her of stealing $120 and four checks in the store on July 1.

Ads in Vienna Papers Call for Chicago Cooks

VIENNA, July 8.—The Vienna newspapers are printing advertisements for a 2,000 Austrian woman cooks to go to Chicago. It is explained in the advertisements that Washington will authorize their admission.

PUZZLE GROWS OVER DEATH OF SOLDIER'S WIFE

Wanderer Quiz Only Adds to Mystery.

The case of Carl Wanderer—whose wife was shot and killed in the door way of their home some weeks ago and who in turn killed a ragged stranger alleged to have been the wife's slayer—has become a growing puzzle to the police.

Although the homicide squad announced two important developments yesterday in the case, it appears these but served to add to the complexity of what Detective Sergeant John Norton says is the greatest mystery he has encountered in his career.

It was disclosed that Mrs. Ruth Johnson Wanderer, approaching motherhood, had withdrawn $1,500 from the bank six hours before she was shot to death in the vestibule of the home at 4732 North Campbell avenue; second, that the revolver found beside the slain stranger, belonged to Wanderer. He had previously admitted owning the other gun used in the supposed "robber duel."

Tries to Protect Cousin.

Wanderer, admitting this at the conclusion of a day of interrogation, said he had disclaimed ownership of the second gun because he did not want to involve his cousin, Fred Wanderer. It was Fred's gun, he said, and he had obtained it the night of the shooting because Fred had asked him to repair it.

"It is the most baffling case of my career," said Sergt. Norton last night after he had had Wanderer locked up for the night. The inquest will be held today. This was determined upon when Attorney John Tyrrell threatened habeas corpus proceedings unless a formal charge was made against his client.

"There is a strong possibility that Wanderer did all the shooting," Chief Garrity said. "Sergt. Norton is working on that theory as well as a number of others."

Mother Discovers $1,500.

The withdrawal of the $1,500 was discovered by Ruth's mother, Mrs. Charles J. Johnson, the morning after the shooting. She found the money in a bureau drawer of the room occupied by the couple at her home.

She asked Carl about it, she said, and he said he did not know whose money it was. Then she visited the Lake View State bank, 3160 North Clark street, and was told about it. Ruth wished to have the money near her when she went to the hospital, Mrs. Johnson believes.

Story Told by Wanderer.

Wanderer's story is that he and Mrs. Wanderer were returning from a motion picture theater on the night of June 21; that at the door of the home he reached for the door key. It was in his left hip pocket. He had to remove the cousin's revolver to get it. As he did the stranger leaped at him, seized the revolver, and began firing. Wanderer then drew his own revolver and returned the fire. The stranger killed Mrs. Wanderer and he killed the stranger.

Chief of the many puzzling phases of the case is the character of Wanderer himself. The police have investigated thoroughly, and find that he is a man of exemplary habits. He has never smoked, chewed, drank, or swore. He was a consistent church member. He never had but one sweetheart—the girl he married. They had been keeping company since their school days.

Wife an Unusual Type.

She was an unusual type. She had never cared for dancing or the lighter amusements of life. For eight years she had been a member of Holy Trinity Lutheran church and sang in the choir. When Carl went to war she ceased singing because she would have had to attend evening services and she did not wish to be asked by other young men to accompany her home.

The fact that Mrs. Wanderer withdrew her money the day of the murder and that her husband obtained the second revolver a few hours before the shooting have caused the police much study, and yet they admit both circumstances may have been coincidental.

They ask why if ten shots were fired in the alleged duel between Wanderer and the stranger, Wanderer escaped unscathed. They also query why if the stranger were trailing them he did not accost them until they had reached the vestibule of the home.

One of the remarkable features of the case is the attitude of the dead woman's relatives and friends. All remain loyal to Wanderer and insist that not the slightest suspicion should attach to him; that his story, strange as it may seem, must be accepted verbatim, as "Carl wouldn't tell a lie."

MURATORE SIGNS WITH CHICAGO OPERA COMPANY

[Chicago Tribune Foreign News Service.]
[By Special Cable.]

PARIS, July 8.—Lucien Muratore signed today a two year contract to sing for the Chicago Opera company. He will start this season in Chicago either in "Manon" or "Monna Vanna," Jan. 3. He will sing there three weeks, six weeks in New York, and ten weeks in San Francisco. He said "I love Chicago as I love home. The Chicago habit grows on one as does Paris."

BUBONIC PLAGUE IN TEXAS CITIES; 5 DEAD REPORTED

Austin, Tex., July 8.—Eight cases of bubonic plague have developed and three of the victims have died to date at Beaumont, Tex., the state health officer announced today.

At Galveston there have been three cases of plague with two deaths resulting so far, he added.

The health director declared 20 per cent of all rats killed at Beaumont are infected with bubonic plague, which he considers "a decidedly heavy rate."

British Trap Turk Woman; Foil Escape by Airplane

[Chicago Tribune Foreign News Service.]
[By Special Cable.]

CONSTANTINOPLE, July 8.—The British today arrested Mediha Hamin, sister of Enver Pasha, while she was attempting to enter an airplane for escape to Bulgaria en route to Germany. She had in her possession $85,000 in cash and jewels of equal value. She is held for communicating with the Kemalists and other anti-government forces and also is believed to be the leader of the alleged powerful "secret Women's society."

Germs in "Lisle Bank" May Cost Woman a Leg

East Plymouth, Conn., July 8.—[Special.]—Miss Ella McWoodson of this town may have to submit to amputation of a leg, which is affected with blood poisoning because she had the "lisle bank" habit, keeping a big roll of money in her stocking. Physicians say her ailment is due to germs from frequently handled bank bills.

BROKEN ANKLE OF MODISTE IS SOCIETY PUZZLE

Police Take Up Case of Mme. Marguerite.

For a week the story has flitted on the wings of gossip in and out of the shops of the Michigan avenue modistes.

How did Mme. Marguerite, fashionable dressmaker, proprietress of three establishments and vivacious member of the Alliance Francaise, break her ankle?

Yesterday the story found its way to the office of Chief of Detectives Mooney. He summoned Detective Sergt Patrick Roche. His orders were:

"Find Mme. Marguerite. Find out whether she jumped or was thrown from a window of her home at 2841 South Michigan avenue. Find out if she is suffering from the effects of poison."

Chauffeur Tells Story.

Roche first questioned W. Williams, a Negro chauffeur, one of the drivers of madame's three cars.

"Madame slipped and fell while getting out of a bath tub in some house in the 4800 block on some street east of Dregel boulevard about two weeks ago," said Williams. "She broke her ankle. I drove her to some north side hospital. I can't remember the address of the place where the accident occurred or the name of the hospital."

Manager Sorrelli of Mme. Marguerite's recently opened retail shop at 616 South Michigan avenue said the modiste had gone away for the summer. He had heard of no accident.

Mrs. Pickering, manager of another Marguerite establishment, The Bandbox, 70 East Oak street, said her employer had fallen in the bathroom of her home and broken her ankle and had gone to the country.

Denies Ankle Is Broken.

Mrs. Gallagher, manager of the establishment at 2841 South Michigan avenue, denied that madame's ankle was broken.

"She is at her country home in Michigan resting," she said. "We cannot reach her there, as she has no phone. Aside from being a little worn out, she was in perfect health when she went away."

A buyer for the establishment told the police that Mme. Marguerite had booked passage on the La France and intended to sail for Europe on July 21.

A neighbor told of having seen an ambulance stop before the house one night about ten days ago. It went away empty. Neither the Cottage Grove nor the South Clark street station has a record of a call made at the Michigan avenue address.

MYSTERY SHOT HITS MAN AS HE CHATS IN STREET

While standing on the sidewalk talking to his sister, Mrs. Minnie Brown, and her husband, Abraham, in front of their home at 1572 Washburne avenue last evening, Isadore Futterman, 40 years old, 3447 South Marshfield avenue, was wounded in the left shoulder by a bullet.

At the hospital it was found that Futterman had been paralyzed by the bullet which entered his shoulder and went into his spine.

At the rear of the Goldman Dyeing and Cleaning company at 1525 Washburne avenue, a short distance away, the police found a revolver with one cartridge exploded.

When the shot was fired a well dressed man was seen on the sidewalk across the street from where Futterman was standing. Chief Garrity said it was possible that some boy found the revolver, which was rusty, and fired it while testing it.

Famous British Warship Shells Turks Far Ashore

CONSTANTINOPLE, July 7.—The Ironduke, the British dreadnaught which was the famous flagship of the Jutland battle, today off the shore of Belkos shelled the bandit positions ten to fifteen miles inland, which were discovered by airplane reconnaissance. Irregular bands of Nationalists last night approached the Bosporus shore, several rifle shots striking the British quarters on the European side.

British Miners May Strike for Irish, Soviets

LEAMINGTON, England, July 8.—The Miners' federation, in session here today, adopted a resolution providing that if the government does not withdraw the troops from Ireland and cease furnishing war materials to enemies of the bolsheviki a general strike of all unions shall be called. There was only one vote against the resolution, which will be presented to the special trades union congress which will meet in London Tuesday.

NEW TROUBLE IN ERIN

DUBLIN, July 8.—Ten of the main roads into Dublin have been occupied since last night by soldiers, who erected barriers of barbed wire, where they halt and question occupants of all passing motor cars.

It is understood the military believe the Sinn Feiners are about to change the place of detention of Gen. Lucas, who, with Cols. Danford and Tyrrell, was seized near Fermoy, County Cork, late in June. Gen. Lucas was taken to an unknown destination, but the other officers escaped.

Reports have reached Dublin that other roads around Irish towns also are being guarded.

Warn Against Paying Tax.

The Dublin county council has instructed its officials not to supply any information to the British income tax authorities nor to allow these authorities to examine books or documents. Such information as is demanded is to be given only by the Dail Eireann [the "Irish Republican parliament"].

The Sinn Fein executive in Cork has circulated among the Cork merchants a similar warning not to furnish income tax information, adding:

"Any breach of this order will be severely dealt with."

The situation in the west and south is so serious owing to the stoppage of trains that many towns are adopting a rationing system as a precaution.

Special "Boyne Day" Guard.

BELFAST, July 8.—In preparation for next week's Boyne celebrations three hundred troops have arrived and more are coming tomorrow. Every road into the city is being patrolled and drivers of motor cars are being held up. These precautions are the result of representations by the Ulster Unionists that, if the authorities are not prepared to keep order, the Ulster volunteers will undertake the task.

DIVORCED WIFE OF SNOW TELLS COURT OF PLOT

Relates Confession of Woman Sleuth.

Washington, D. C., July 8.—Presenting testimony to support her charge that her divorced husband, Chester A. Snow, wealthy patent attorney of this city, instigated a plot to end her life, Mrs. Addis Hubard Snow at a preliminary hearing today in federal police court outlined three methods she alleged he had considered.

Mrs. Snow told the court that Mrs. Edna P. Acker, private detective, who, with Snow and Hugh Milton Langdon, a chauffeur, was arrested on a charge of being implicated in the alleged conspiracy, had confessed to her that one plan was to bring about her fall from the top of a high building or cliff.

Tells of Poison Plan.

Another method discussed, she testified, was the administering of poison, but both schemes, she charged, were abandoned in favor of a plan to drug her during an automobile ride. The machine, Mrs. Snow declared Mrs. Acker had admitted, was then to be wrecked, making it appear that she had been killed in the accident. This was to have happened last Monday, according to Mrs. Snow. Langdon, it was charged, was to have driven the automobile.

Mrs. Snow testified that Mrs. Acker came to her home Monday and confessed that she had been hired by Snow to help cause her death. For months Mrs. Acker had posed as a friend, she said, and had dined with her on numerous occasions with government officials and members of the diplomatic set here.

Attorney Tells of Plot.

Henry E. Davis, attorney for Mrs. Snow, testified that he had been called to Mrs. Snow's home Monday while Mrs. Acker was there. Mrs. Acker, he said, called Snow by telephone and told him that "everything had been arranged." Davis testified that he had "listened in" and heard Snow say "Good!"

The hearing will be resumed tomorrow. Snow is being held on $50,000 bail.

CURT ORDER OF LLOYD GEORGE ALARMS ENVOYS

Allies Prepared to Cross Rhine.

BY HENRY WALES.

[Chicago Tribune Foreign News Service.]
[By Special Cable.]

[Copyright: 1920: By the Tribune Company.]

SPA, July 8.—Premier Lloyd George of Great Britain, speaking for the Allies, today gave the Germans until tomorrow noon to say whether they will accept the Franco-British plan of disarmament.

Occupation of German territory across the Rhine on Oct 1, if Germany cannot or does not meet the terms before that time is the alternative.

When the ultimatum of Lloyd George was delivered the Germans, through Foreign Minister Simon, verbally agreed, but this was not satisfactory to Lloyd George, who demanded that a convention be signed by the German envoys.

This Simon was not prepared to do and he immediately called a meeting of the cabinet—seven of the nine members are here—to discuss the matter. After three hours the cabinet had come to no decision, but it can be stated positively that German Chancellor Fehrenbach will sign the convention in the morning.

Means Disarmament.

By this action Germany will accept the allied demand for a reduction of the standing army to 150,000 men in three months and to 100,000 men, as provided by the treaty of Versailles, in six months.

Germany will agree to deliver all missing war material during the next six months.

Under the plan the allies reserve the right to occupy more German territory if the disarmaments are not carried out on schedule.

After Premier Lloyd George had read the allied ultimatum demanding the immediate acceptance or rejection of the terms, the German foreign minister, Herr Simon, replied:

"Yes, we accept that."

When Lloyd George asked Herr Simon if the Germans were prepared to sign a convention he explained that they would hesitate to accept the allied plans because they involved an increased occupation of Germany if the agreement was not completely carried out, and they wished time to ascertain if there were any drawbacks or flaws in the plan before committing themselves.

Disarming a Hard Job.

There was a meeting of the Germans and the allied military experts tonight to discuss the reduction of the Sicherheitswehr, which is a serious problem from a German viewpoint, although the allies regard it as a minor detail, because it is no part of the standing army.

The Germans declare that they will have to carry out a systematic house to house search through Germany to recover all of the missing rifles, machine guns, and trench mortars, and that therefore they could not reduce the reichswehr to 100,000 men in three months, as Mr. Lloyd George demanded. It was on this argument that they were given the additional three months to demobilize the last 50,000 and bring down the reichswehr to the 100,000 which the treaty provides.

Lloyd George Closes Ltd.

"We have spent three days discussing armaments," Mr. Lloyd George said on opening the session today. "The discussion is now closed. The Allies and Germany have reached an agreement that the treaty has not been executed. Instead of 100,000 rifles, Germany has 3,000,000 and five or six as many machine guns as the treaty provides. The Allies have not insisted on a precise execution of the pact for reasons stated by the Germans—internal conditions.

"These conditions must cease, however. The Allies realize Germany's difficulties and therefore will allow an extension of time under certain definite conditions, the acceptance of which is essential.

"There are certain discrepancies in the figures on deliveries. For instance 11,800 gun tubes have not been accounted for and recently certain aeronautical material has disappeared. This naturally has caused suspicion against Germany.

What Germany Must Do.

"The allies, therefore, offer the following conditions:

"First—Germany is to issue proclamations demanding the surrender of all army material held by private citizens.

"Second—The allies are to allow a certain number of troops to

operate in the neutral zone to carry out disarmament terms.

"Third—Germany to take measures to prevent arms being smuggled into the country.

"Fourth—If the allied military mission in Berlin report that Germany is not executing this convention, the allies will proceed to a further occupation of German territory in the Ruhr or elsewhere as they see fit and will not evacuate until the agreement is fulfilled."

Early Reply Necessary.

Foreign Minister Simons in his reply agreed that an immediate reply was necessary.

"I regret the absence of opportunity to give more detailed arguments in order that the allies could more fully understand the position of Germany," he said. "It is unreasonable to demand that we disband the einwohnerwehr and the sicherheitspolizei before the disarmament of the German people is complete, for in disarming these bodies the allies weaken the power of Germany to take away arms from the people. That is why Germany proposes disarming the German people first. As to the occupation of Germany, we agree to that yesterday.

"Premier Lloyd George is right when he said the apparent evasion has created suspicion. Germany wants an honest peace. The concealment is due either to overzealous officials or the action of private individuals. Laws exist to enforce the delivery of arms, but the late German government was not energetic enough in enforcing them. This government will do its utmost.

Takes Slap at Allies.

"Our proposals for concessions yesterday were not the first move in a bargaining process, but represented the utmost limit possible. The allies' proposal really is a one-sided modification of a one-sided treaty. It does not represent an agreement as a result of the 'round table' conference. At the same time Germany willingly admits there are certain modifications which favor Germany.

"Germany will make all possible efforts to execute the arrangements and we recognize if she fails—as I fear—that Germany will have to bear the consequences which are as serious for Germany as for the allies. I promise to accept the disarmament pact."

Must Have Formal Acceptance.

"It will be necessary to have a formal acceptance of our proposals and until this is done the conference cannot proceed," Lloyd-George broke in.

"We ask that time be allowed Germany to answer tomorrow, so the German delegates may communicate to the government in Berlin and lay the matter before them," Simon replied. It is intended to lay the matter before Ministers Koch and Raumer and all the chairmen of all the political parties. They will not be told that their opinions will determine the decision."

Premier Lloyd George then fixed noon tomorrow as the time, saying: "We must hear your 'yes' or 'no' then."

At 3:30 tomorrow the Germans and the supreme council will discuss the question of the trial of war criminals. Paul Huymans, Belgian premier, will act as the allied spokesman. The British lord chancellor, attorney general, and first minister of justice arrived this evening, as also did the German Minister of Justice Heinze.

Germany May Be Host to Allies Again

The allies have demanded that Germany give absolute pledges today that she will carry out the treaty terms in full. They have, however, extended the time for meeting the military terms to Oct. 1. If the terms are not met by that time, Premier Lloyd George said, the allies will occupy a large section of German territory.

For some time, according to reliable reports, the French have been concentrating troops in the Palatinate in the neighborhood of Mayence. These troops will advance, according to these reports, along the lines indicated by arrows in the map.

From Strassburg, according to plans already laid, the advance, if necessary, will go as far as Freiberg, on the edge of the Black forest, for the purpose of cutting off communications between Germany and Switzerland. From Mayence the troops were to advance as far as the frontier of Bavaria and also to occupy a large part of the railway line from Strassburg to Giessen and between Cassel and Berlin. The railroad is shown in the map by a dotted line.

any importance was then in the hotel, there was a report that Simons went to confer with Lloyd George, but this could not be verified.

The varied colored rumors that the German government is intending to resign, either one minister at a time or in a body, is denied emphatically. It is understood the cabinet is unanimous in its support of the disarmament plan and there was no expression of dissatisfaction.

Although Minister of Economics Scholz and Minister of Defense Gessler had previously indicated they might fight the plan, they stood firmly with their associates.

Prepare for Invasion.

In connection with the possible occupation of more German territory, it is learned from reliable sources that the French for some time have been concentrating troops in the Palatinate in the neighborhood of Mayence. Among them are engineers and other special units. Their officers are said to have talked openly of plans for big operations based on an advance from three points—Mayence, Ludwigshaven, and Strassburg.

From Strassburg, according to these reports, the advance was planned as far as Friberg, on the edge of the Black forest, for the purpose of cutting off communications between Germany and Switzerland. From Mayence the troops were to advance as far as the frontier of Bavaria and also to occupy a large part of the railway line from Strassburg to Giessen and between Cassel and Berlin. The whole operation was intended to destroy German unity with the aid of the Bavarian separatists and resurrection of the Rheinbund.

Close Touch with British.

The British and Germans have been keeping in close touch with each other since the second day of the conference. Mr. Lloyd George knew the plan for disarmament the Germans intended to offer long before the conference yesterday.

How thoroughly the British have been informed on the German plans during the last forty-eight hours is disclosed by the number of visits of the British military representatives to German headquarters. Aids of both Gen. Malcolm, head of the British military mission to Berlin, and Gen. Bingham, head of the interallied ordnance control commission, visited Hotel d'Annette et Le Bain during this period, and Gen. Malcolm personally called there and at Chancellor Fehrenbach's personal villa.

The last visit continued up to the moment the German delegates left for the conference.

Success for Lloyd George.

With the situation in this state every conference expert is crediting Mr. Lloyd George with one of his most successful maneuvers against French plans recorded at any European cure resort this year. One of his most trusted military advisers, it is said, has warned him consistently there is real danger of bolshevism in Germany and that this would be increased with the expected continuation of collapse of the Polish advance against Russia.

Herr Heinze, German minister of justice, arrived at Spa yesterday with Attorney General Richter of the Leipzig Supreme court to tell the allies it is impossible to proceed against the alleged war criminals unless Germany is furnished with evidence upon which the charges are to be made. A number of important German business men, headed by Hugo Stinnes, also arrived to discuss delivery of coal.

ADVANTAGE FOR FRENCH

SPA, July 8.—Members of the German cabinet here held a two hours' meeting tonight, but refused to disclose any decision they may have reached regarding the ultimatum of Lloyd George. In the event the Germans are unable to fulfill the terms of the agreement by Oct 1 it means to the Germans handing the French carte blanche in taking possession of the Ruhr district upon their showing any technical violation of the extremely difficult conditions imposed.

"The personality of a certain French military advisor identified with the interallied control commission should be sufficient to indicate what this would mean," said a member of the German delegation.

"Upon a day's notice he could produce evidence of the apparent failure of Germany to keep faith. That is all the French want."

Simons Confers with Lloyd George.

Tonight's session of the cabinet was broken up unexpectedly by the sudden departure of Simons. The door burst open and Simons rushed out to a waiting automobile.

"I am called to a conference and must go at once," was all he would say.

As every German representative of

POLISH WOMEN SHOULDER ARMS TO FIGHT REDS

Exempted Men Join Up as Disaster Looms.

WARSAW, July 8.—[By the Associated Press.]—Owing to the critical condition of the country, volunteers for active service in the army are offering themselves from every side.

They include school and university teachers, students, Boy Scouts, civil servants, and ministerial employés whose occupations excuse them from military service. The students are enlisting in such numbers that the Warsaw universities have been closed.

Stirred by the appeal of the national council of defense for volunteers, hundreds of girls and women have taken initial steps to join the army.

Yesterday uniformed women soldiers, with women officers, paraded the streets singing, and for the first time Warsaw saw detachments of female recruits under the guidance of women officers marching to the barracks.

Many of the recruits were strong girls in short skirts and shirtwaists, with braided hair hanging down their backs.

Reds Continue Successes.

The bolsheviki in their advance in Volhynia have reached the Kiewan railroad junction northwest of Rovno. The Poles are withdrawing before the northwesterly drive of Budenny's cavalry, in some places reaching the old Russo-German fighting line.

Squadrons of the Polish second army, including the Kosciuszko aerial squadron, commanded by Americans, are taking a prominent part in fighting Budenny's cavalry from the air on the Ukraine front.

The American flyers repeatedly attacked the horsemen, dropping bombs and using machine guns in the effort to stem the westward sweep of the bolsheviki.

Poles Driven Back.

LONDON, July 8.—Russian bolshevik forces have smashed their way forward on the southern flank of the Polish front and soviet military authorities claim success in a series of battles near Staro-Konstantinov, toward which town they are driving the Poles, according to a bolshevik official statement.

Soviet forces have reached Litichev, twenty-four miles east of Proskirov, and have occupied Mohilev-Podolsk in their drive along the Dniester river.

Heavy fighting is going on between the bolsheviki and forces commanded by Gen. Wrangel on the southern front, the struggle being particularly intense in the region of Orlekhov, the statement says.

POLAND ASKS YANKS TO VOLUNTEER FOR WAR AGAINST REDS

[Chicago Tribune Foreign News Service.]

[By Special Cable.]

SPA, July 8.—Through the medium of THE CHICAGO TRIBUNE, Premier Grabsky of Poland has issued an appeal to the United States for American youths to volunteer in aviation tanks, armored cars, and artillery in the Polish army. Premier Grabsky said he would ask the allies if they would send help to Poland, but that he was not optimistic that they would consent to send troops.

"We have some American aviators," he said, "and we hold the air supremacy against the bolsheviki, but we want more Americans to volunteer in our army.

"The military situation in Poland is not good, but it has been exaggerated. There is no danger that the bolsheviki will overwhelm Poland. The Reds outnumber us, have plenty of artillery, shells, and possess more tanks and armored cars than the Polish army—all of which they captured from Denikin. We want more material, experienced officers and noncommissioned officers."

BUSINESS DONE, 200,000 ELKS GO ON JOY RAMPAGE

Want Million Members for Los Angeles Meeting.

ELKS PROGRAM TODAY

1 P. M.—Municipal pier, Central A. A. U. woman's senior outdoor swimming championships; 440 yard, free style; 100 yard back stroke.

3 P. M.—World's championship contest of cowboy sports.

7:30 P. M.—Central states annual amateur rowing regatta at Municipal pier.

8 P. M.—Baseball, Cubs vs. New York (National league).

8 P. M.—World's championship contests of cowboy sports.

The official work of the convention finished, the sessions of the grand lodge ended, and the parade a joyful memory, the 200,000 visiting members of the B. P. O. E. opened up last night for one big frolic.

A dazzling ball at the municipal pier, a rip-roaring vaudeville show at the Auditorium theater, and a formal dance in the Congress hotel were the features. Events not on the program were staged by thousands of wandering herds of Elks. The latter were probably the most interesting.

Big Crowd at Pier.

Two bands played snappy jazz music for the complimentary ball on the municipal pier. One thousand couples danced. Mrs. Bill from Kenosha, Wis., swung around the glistening floor with Mr. Bill from Seattle.

Three features brought applause from the audience which crowded the Auditorium theater. One was the Detroit, Mich., Dodge Brothers band, which won first prize as the "best playing band." Another was the Jackson, Mich., zouaves. The other feature was Charlie Grakelow of Philadelphia.

The Philadelphia team won second prize, a $350 check, in the competitive drill Wednesday. It was presented to Charlie Grakelow last night.

Give Prize to Hospital.

"I'm sorry, but I can't take this," Charlie said. "We didn't come to Chicago for anything but a good time. When we drilled we did it to please the spectators. Here is the check. The Philadelphia lodge desires that some worthy Chicago hospital have the money."

The formal dance in the Congress hotel was attended by officers of the grand lodge and Chicago society people. Miss Maryland Mathison was hostess.

When Exalted Ruler William Martin Abbott, San Francisco's most popular Elk, calls the grand lodge to order in Los Angeles, Cal., a year from now, one million of the best men in America will be members of the fraternity. A membership drive for that number of "Bills" was planned yesterday at the final session of 1920 grand lodge meeting.

The convention will be held the first week of July, 1921, in Los Angeles.

Los Angeles Begins Welcome.

Members of the Los Angeles lodge who are visiting in Chicago started their welcome yesterday. A corps of "Bills" visited every state headquarters and spread oranges and advance welcomes about with an abandon that made their brothers long for the day when they will enter the Pacific city. It had been reported that San Francisco had been chosen, and Los Angeles Elks did not want one Elk to get the wrong address.

During the day the Elks' most important business of having a good time went on along with the official entertainments. The executive board of the grand lodge witnessed the butchering of an elk in the stockyards at noon, and afterwards was treated to real elk steak at luncheon in the Morris plant.

The band contest during the morning in Grant park drew a great crowd. Seven gayly garbed bands took part. The prizes were awarded upon musical performances only, and were as follows:

Detroit, Dodge Brothers band, composed of employés of the automobile factory who are Elks; Milwaukee, Wis., Atlanta, Ga.; Philadelphia, Pa.; San Antonio, Tex.; Camden, N. J., and Minneapolis, Minn.

A few of the Elks started home last night. Not many, but a few hundred who live farthest from Chicago. The convention will close officially at midnight tonight.

Riding Along with the Elks

Col. Charlie Baker of Taylorville—oldest Elk in Illinois and a boyhood pal of Abe Lincoln—presented A. B. Hildreth with a purple and white skullcap yesterday. The latter, who claims to be dean of all the Bills, is 97 years old. He belongs to the Rawlins, Wyo., lodge.

"It's warranted to fit. It's got to fit," observed the colonel, as he pressed the headpiece upon his elder's bald cranium. Then, as an afterthought, he added, "Good material, too. It's not shoddy."

The colonel had been driven down to the Congress hotel by J. Thorning of the Chicago lodge to get acquainted. They discovered they had served in the same corps during the civil war.

"How do you manage to keep in such good health?" inquired a lady several generations younger.

"By eating plenty and drinking good whisky," replied the colonel, sans hesitation. His recipe received the immediate O. K. of Brother Hildreth, who remarked also that cigars were efficacious. The 92 year old colonel took the hint, but as he handed over a clear Habana he directed a solicitous query: "How's your teeth?"

"O, what a pippin!" chorused observant males during a concert at the municipal pier. Their eyes were focused on a wonderful brunette in a fancy green bathing suit, who persisted in dancing to the tunes played by the Philadelphia lodge band. So entranced was she with the music that she cavorted before them all the way down Michigan avenue to the Congress. There she changed to her masculine habiliments, lighted a cigar, and once more became Bert Hamilton, member in good standing of the Philadelphia Elks.

But California was not downhearted. With Hardy C. Hutchinson, E. C. Wilson, and Jack McKee, Jim was telling little stories in his room. He says a woman from Salt Lake City had been trying to convert him to Mormonism.

"I told her I was too old," he said.

Orange peels adorned the lobby floor at the Congress yesterday. Los Angeleans were distributing twenty boxes of the golden propaganda which was to have adorned that ill fated float.

Joy Reiney, who admits she is just 3, arrived from Memphis too late to see the parade. There are plenty of bands still on the job, however, and she is satisfied.

"My daddie's going to be an Elk and I'm going to have a doddie," she stated in an exclusive interview.

COYOTE, OUTLAW BRONCO, EXPECTS BIG DOIN'S TODAY

Coyote, the outlaw bronco that has thrown every cowboy who ever attempted to ride him, was taking a few practice sommersaults early this morning in the Grant park coral.

"Just tunin' up fer the big doin's today," he explained, throwing a wicked pair of heels into the welkin. "This is mayor's day at the cowboy contests, you know, an' 'Big Bill' Thompson will be on hand to watch me an' my pals thrill things up a bit.

"Bill will deal out the belts and money prizes to the guys that is lucky enough to keep their saddle. There'll be a lotta fancy work pulled off, including an attempt to bulldog a buffalo. Person'ly I'm bettin' on the buffalo."

The Elks' arrangement committee has also declared this children's day, according to Coyote.

WASHINGTON NEWS —IN BRIEF—

WASHINGTON, D. C., July 8.

FEARS of a coal shortage are unwarranted, George H. Cushing, managing director of the American Wholesale Coal association, declared. He blamed high prices on governmental agitation for the situation.

W. H. DUVAL, representing the highway department of Cook county, and S. E. Bradt, superintendent of highways of Illinois, were among the witnesses at a hearing before the interstate commerce commission on the question of modifying car service orders.

GOVERNMENT officials expect little actual trading as a result of the lifting of the embargo on Russian trade. There is no possibility of any aid by the government toward the furnishing of credits.

"DOCTORS' UNION" MERELY AIMED AT CORPORATIONS

The formation of a union by the physicians and surgeons of Chicago is only a remote possibility, according to Dr. John V. Fowler, retiring president of Chicago Medical society.

"We do propose to form an organization, however, along semi-union lines," Dr. Fowler said, "similar to lawyers' associations and other bodies of professional men. Such an organization would not be aimed at the public, but at corporations. It would force them to increase their salary scale for physicians and surgeons.

"Hitherto medical men have lost thousands of dollars through the refusal of insurance companies to pay them. Rather than go to law the physician has scratched the account off his books."

"There must be coöperation between professional men if they are to win their rights," he asserted.

National Hunting Lodge for Elks Seems Assured

A national hunting lodge and playground for the Elks was virtually assured yesterday when the committee on good of the order voted to recommend the acquiring of 20,000 acres of virgin land in the Cascade mountains, near Bend, Ore.

Final action on the recommendation will be taken next year at the convention of the grand lodge in Los Angeles. In the interim the projected site will be inspected and reported upon by Irvin Cobb. He will make a thirty-five mile day trip through it this summer in company with Archibald Whisnant, editor of the Bend Press.

Mr. Whisnant brought the project to Chicago along with E. P. Mahaffey, vice president of the Central Oregon bank, and Wilson George.

MOTHER'S LOVE UPSETS "WHAT'S BEST FOR BABY"

Philadelphia, Pa., July 8.—[Special.]—On June 18, in Camden, N. J., a foundling with a note—"the parents will claim this baby in three years"—pinned to its clothing was picked up. Every day since well to do folk have visited the child in the West Jersey Homeopathic hospital. Women in costly furs—hands bedecked with diamonds—fondled it and talked of adoption. Each day a shabbily dressed couple, the man in apparent ill health, held hands beside the child's cot and watched. Now and then the woman would embrace the child, pet it, and talk "baby talk" to it.

"She loves the child more than all the rest," said the nurses. "Pity she's so poor."

Yesterday a woman rolled up to the hospital in a big limousine. She wanted to adopt the baby.

"It's ours, give it back to us," cried the shabby pair in unison.

They told a story of bad luck, poverty, sickness, and abandonment of the child that it might fare better in the care of others.

"But we can't give it up," they said.

It was restored to them. They gave the names of Henry J. and Helen Brettsnyder of Norfolk, Va.

George Tuckbrieter, 2911 West Madison street, also was arrested, charged with disorderly conduct and resisting an officer.

GARRITY 'FIASCO' AT ELKS PARADE AROUSES MAYOR

Rips Into Chief for Bad Handling of Crowds.

Mayor Thompson is disgusted with the manner in which the police, under Chief Garrity's personal direction, handled the 500,000 persons who jammed the loop Wednesday night to catch a glimpse of the Elks' parade.

The mayor's dissatisfaction did not stop with words of criticism. Yesterday afternoon he sent his secretary to Chief Garrity with an order that the department immediately equip itself with not less than 5,000 feet of rope.

"There would have been little trouble if the parade way had been roped off as it should have been," the mayor said in commensing on his order to the chief. "I expect no further trouble from this source."

Calls Garrity Down.

Friends of the mayor who sat with him in the reviewing stand said he was outspoken in his criticism of the police work during the parade.

When the dearth of policemen permitted the crowds to surge out to the safety islands in Michigan boulevard Chief Garrity called on the mounted police to drive the throngs back to the curb lines. There were screams and a few minor accidents when the mounted men went into action and forced the spectators to retire.

The evident lack of preparation was too much for the mayor. He beckoned Chief Garrity to his box for an explanation, after which he told the chief he should have seen to it that the boulevard was roped off.

Chief to Go? Mayor Evasive.

The city hall fairly shook with rumors yesterday to the effect the chief is to pay for the police work at the parade with his job. Asked to verify or deny these reports, the mayor evaded the question, saying:

"I was interested in getting the department supplied with rope and I think it will have that in a day or two."

The incident also brought to light the fact that two of the mayor's most influential political lieutenants called on the chief a week ago and told him vice and gambling are so prevalent in the Twenty-first and Eighteenth wards that anti-Thompson leaders are planning to make this an issue in the fall campaign.

Passes Buck to Costello.

Chief Garrity blamed Capt. Thomas Costello, in partial charge of the police lines, for the parade conditions of which the mayor complains. He asserted Costello "acted like an inexperienced school boy," and lacked control of his men.

Chief Garrity's brother Elks did not concur with Mayor Thompson.

William J. Sinek, exalted ruler of the Chicago Elks, and Harry Bachrach, grand esquire, joined in a letter to Chief Garrity declaring "the public was most efficiently handled" during the parade. Mr. Sinek referred to Chief Garrity's management of the crowds as "splendid."

"The police department should be commended for the way it handled the crowd," said David S. Rose, former mayor of Milwaukee.

"The police did the best they could under the circumstances," said Henry J. Walters, who served some years as mayor of Philadelphia.

ONE reason you pay MORE for Diamonds at other establishments than you are asked to pay at the Roberts Stores is that you are being charged an EXTRA PROFIT which we eliminate. We are a cut-rate Diamond concern only in the sense that we cut the profit which the Middleman ordinarily makes. We do away with him entirely by buying from the Cutting Mills of Amsterdam and Antwerp, and selling direct to you. That extra profit stays in the customer's pocket where it belongs; and it's a sum well worth saving. Roberts' ONE PROFIT PRICES are as LOW as Diamonds can be sold for. You have only to see these rare Diamond Bargains to appreciate what remarkable VALUES they really are.

HATRED, UNREST, EATING HEART OUT OF EUROPE

Plotting Royalists Welcome Reds in Germany.

The following letter, written by Col. Reilly after a searching tour of the trouble areas of Germany and Poland, gives a remarkable bird's-eye view of north and east Europe and clears up many events which have happened since it was written. Col. Reilly points out the real menace in Germany and Poland.

BY COL. HENRY J. REILLY.

[Chicago Tribune Foreign News Service.]
[Special Correspondence of The Tribune.]
[Copyright: 1920: By the Tribune Company.]

PARIS, June 20.—Poland is the only bulwark between western Europe and bolshevism, which, only maintaining itself through terror in Russia, sees that unless it can take advantage of the discontent which exists everywhere today it is bound to collapse at home. The Russian efforts to trade with England or any other country are really efforts to get food and supplies into Russia and propaganda out.

From what I saw in the country retaken by the Poles, Russia is in a pitiful economic condition. The club being used on England is the threat in Central Asia, which England, unable to meet by force of arms, must buy off. Of course, no one believes that any promise made by the bolsheviki will be kept.

French Centered on Africa.

To add to its difficulties, the African colonial school of thought in France seems to be winning, with the result that French abandonment of Syria, etc., is probably only a question of time, thus leaving England alone in central Asia with such help as it can get around the edges from Greece and Italy.

Due to England's dallying with the bolsheviki, Mr. Churchill's efforts to buy Germany's help against them by cutting up the Versailles treaty, the way in which they suckred the French out of Constantinople, and the discovery that the British "did" Clemenceau on the oil field and other spoils in old Turkey and Asia, the bad feeling between England and France has been increasing.

Italy is having her own troubles with the Albanians and also with Italian bolshevik sympathizers, who are quite strong.

Suspicion of Giolitti.

The formation of the Giolitti ministry in Italy is looked on with a certain amount of anxiety here, as it foreshadows dealings with the bolsheviki and perhaps a leaning away from the allies and towards Germany.

I have heard that Italy already has treated with Kemal Pasha, the leader of the Turk Nationalist party in Asia Minor. It is even accused of furnishing arms and supplies to be used against the Greek forces based on Smyrna.

The German elections show the weakening of the center or moderate groups, which was expected, and a consequent strengthening of the right and left parties. The right parties, however they may disguise it, are monarchistic. They are armed and will seize any opportunity to come into power.

Seek War of Revenge.

There is no doubt that they are looking forward to a war of revenge, though I doubt if they would attempt it immediately, knowing very well that they are not strong enough.

I believe they would be willing to have bolshevism in Germany as a last resource, considering that it would spread throughout Europe and that they would recover first, as the German people are essentially orderly and soon would react from the consequent chaos and inefficiency, thus giving the royalists a chance.

Trend to Communism.

The left really begins with the Independent Socialist party, which gained enormously during the elections. While this is a different party from the Communists, it only differs in the means to be employed to establish communism. Also, should it get in power, its moderate leaders soon would be swept away by those more in a hurry. They openly say that if the center forms a cabinet by an alliance with the right, they will declare a general strike and will resist by force any effort to put it down.

Incidentally, the Socialists are well armed. They are accused by their enemies of playing into the hands of the French. From what I saw I am inclined to believe that the right and left will use arms before submitting one to the other. Nothing can save individualism and real democracy in Germany today unless some means immediately is devised of putting Germany on her feet economically and financially.

How Will It Be Done?

As all of Europe is in more or less of a desperate shape in these two directions, I do not know how it is to be done. One thing which has strengthened the Independent Socialists in their campaign to bring down the majority Socialists is the way in which prices have gone up since the armistice. The workingmen's council established by law in each factory have combined with the owners to send up prices, getting their share of the profits in larger wages.

Along with this has come the establishment of large trusts, thus doing away with competition between concerns of the same kind. The haste to get as much as possible has resulted in prices being sent so far above the head of the average consumer that purchasing has stopped.

A good example of this is the shoe industry, where the retailers, being unable to sell, are not taking the stocks the factories have already produced, much less giving them orders. The factories with large quantities of supplies they are unable to get rid of are closing down and throwing people out of work. In addition is the fact of there being millions of shoes stored in warehouses, while millions of people are badly in need of them, but have not the possibility of buying them.

I can tell from following the news that the facts have not been published or have been concealed, due to the influence of propaganda, as was the case when it was insisted upon that there was no Red army in the Ruhr.

Mystery of the Wires.

We are trying to find out the reason why such telegrams as I sent to THE TRIBUNE, dealing with bolshevik activities in Germany, were not received or were received in a mutilated condition, while others sent under similar, or the same circumstances, but not referring to bolshevism, came through without trouble.

My trip to Poland was essential to get the Polish side of the various plebiscites and also to find out more about bolshevism which I am more and more convinced has an efficient world-wide organization.

My route through Europe has been: from Switzerland into Germany, Augsburg, Munich, Frankfort on the Main, the Ruhr district, Frankfort on the Main, Magdebourg, Leipsic, Plauen, Adorf, Klingenthal, Falkenstein, Plauen, Leipsic, Berlin, Breslau, Kattowitz, Boyden, Ostrow and Teschen (the Teschen plebiscite area which the Poles and Czecho-Slovaks fought over once and are ready to fight over again); Cracow, Warsaw, the front advancing through Zitomir to Kiev, Warsaw, Danzig, Berlin, Cologne, Paris.

Covers "Sore Spots."

On some occasions due to strikes I had to use a motor car. I flew from Munich to Franfort in three and one-half hours with a German aviator, who served as such throughout the war. This trip covered all the really "sore spots," except Hamburg. I was in the Ruhr when the Reichwehr were cleaning it up. All the talk about there being no Red army was propaganda emanating from those sympathetic with the Communist cause on the one hand and on the other from those who like the French were so obsessed with the royalist danger—which was very real to begin with—that they could see nothing else.

I was in the Saxon industrial district when the Reichwehr were rounding up Mr. Hoeltz, the former soldier who established a Communist government of his own. While in the upper Silesian plebiscite area I saw a number of Polish demonstrations which almost caused riots at that time. In Danzig it is soon apparent to the most casual observer that the town is neither a German port nor a Polish one, but a British port, the league of nations providing the necessary camouflage.

ZIONISTS REVIVE TITHE LAW TO REBUILD ISRAEL

Nation to Be Given Tenth of Wealth.

LONDON, July 8.—An attempt by a number of delegates to force their way into the Zionist conference today after an attendant had denied them admission interrupted the conference for a short time and precipitated a struggle which continued for several minutes.

The clamor for admission arose outside the hall and the president, Louis D. Brandeis, associate justice of the Supreme court of the United States, suspended the business of the conference until order was restored.

It is reported that the disturbance arose out of "a confusion of tongues." The delegates speak various languages.

Tithe Plan Discussed.

A report by J. A. Naiditch of the national executive suggesting that all Jews be taxed 10 per cent of their annual incomes for the foundation fund for public works in Palestine resulted in animated discussion. The general opinion of the delegates appeared favorable to it. Mr. Naiditch proposed that the money be collected in proportion to capital in the case of propertied classes and in proportion to annual income in the case of others. The collections will begin throughout the world on an appointed day.

The money collected would be applied to institutions, shelters, immigrant dwellings, medical help, and the relief and maintenance of existing schools and the building of new schools, including agricultural, industrial, research, and experimental stations. It was urged that special tithe committees be appointed immediately with wide authority for making collections.

Policy Committee Named.

The conference this afternoon appointed a policy committee consisting of twenty-one members to frame a political program for observance in Palestine, in accordance with a suggestion by Dr. Weizman, a member of the Palestine committee appointed by King George, who urged the necessity of a common method of procedure by all races there to avoid conflicts of faiths and peoples.

The educational committee reported that preparations were progressing for the establishment of a Jewish university in Jerusalem.

Owing to the tendency of the delegates to make their discussions too long, a time limit for all speeches has been put into effect.

MOOSE STRAIN ON COLLARS TO PULL HARDING CHARIOT

Old Roosevelt Leaders in Forefront of Roundup.

BY PHILIP KINSLEY.

Marion, O., July 8.—[Special.]—Walter F. Brown of Toledo, Bull Moose chairman in Ohio in 1912, and now a candidate for United States senator in the August primaries on the Republican ticket, assured Senator Warren G. Harding today that the former Roosevelt men all over the country would support the Republican national ticket next fall. Mr. Brown and Senator Harding held an hour's conference over the national situation and the senator seemed greatly pleased at the outlook.

In proof of his claim that the Roosevelt strength would go to Harding and Coolidge, Mr. Brown told of a private dinner which was given at the Harvard club in New York a week ago tonight. This dinner, he said, was arranged by Thomas Chadbourne of New York and himself. About twenty-five men were present and resolutions were passed pledging support to the Republican nominee.

Roosevelt Support Pledged.

Mr. Brown gave these names as among "those present": Will H. Hays, William Hamlin Childs of New York, E. A. Van Valkenburg of Philadelphia, Lawrence Abbott of New York, Maj. S. H. Hooker, David C. Goodrich of New York, Alexander Moore of Pittsburg, Porter Emerson Browne of New York, James R. Garfield of Cleveland, and Theodore Roosevelt.

Messages pledging support, he said, were received from E. H. Hooker of New York, former Senator Albert J. Beveridge, Gov. Henry Allen of Kansas, William Allen White, and Irwin R. Kirkland of Kansas City.

Mr. Brown said that the third party movement would not change a single electoral vote.

"I know something of the difficulty of getting an electoral ticket nominated in all the states," he said, "and I see no chance except possibly in Wisconsin if La Follette should be nominated. And I would be amazed if he should accept that nomination. In Ohio such a movement, I think, would draw more votes from the men who might vote for Cox than those who would support Harding. I have talked with a good many of the leaders of the old Bull Moose party, and have come in touch with the rank and file and I believe they will all support Harding. I have told the senator that today."

Mr. Brown said that Charles S. Hatfield of Bowling Green would manage his campaign for the senatorial nomination.

Newton B. Miller of Columbus, manager of the senatorial campaign of former Gov. Frank B. Willis, was another Harding caller. He said he considered Cox a weak candidate in Ohio for the presidency. The nomination of Cox was a disappointment to Willis, Mr. Miller said, as Willis had expected to cross swords with Cox this fall for the senatorship.

"Will Carry Missouri."

E. Mont Reily of Kansas City told Senator Harding that he would carry Missouri and Nebraska.

Senator Albert B. Cummins wired from Des Moines today that he would arrive here Saturday evening for conference.

Senator Harding wired Senator Johnson today a message of appreciation of his act in coming out in support of the Republican ticket. He did not make the message public. This is the twenty-ninth anniversary of the wedding of Senator and Mrs. Harding. He spent it in work.

Johnson Gets "Cordial" Message.

San Francisco, Cal., July 8.—United States Senator Hiram W. Johnson said he had received a "very cordial" telegram from United States Senator Warren G. Harding, Republican presidential nominee.

Here's the Harding Front Porch

[Photograph Copyright, By Underwood & Underwood.]

Home folks visit senator's home in Marion, O., to hear him make a speech on his return from Washington. Similar scenes will be repeated many times during the next few months if Candidate Harding adheres to his present program of "porch" speeches instead of a "swing around the circle."

'I'LL GO THE ROUTE FOR HARDING,' IS WORD OF WOOD

Maj. Gen. Leonard Wood, defeated by Senator Warren G. Harding for the Republican presidential nomination, will "go the distance" to bring about the election of his rival.

Assurance of this was given yesterday following a series of conferences between Gen. Wood, several of his former lieutenants, and Will H. Hays, chairman of the Republican national committee.

Gen. Wood then left for Marion, O., where he will confer today with Senator Harding. The exact nature of Gen. Wood's activities during the campaign will be determined at this conference between the former rivals, and a statement from Gen. Wood will be issued telling his plans for the campaign.

Senator James A. Reed of Missouri, ousted as a delegate to the Democratic national convention because of the opposition to him by the Wilson forces, was a visitor at Republican headquarters. His appearance created a flurry among those who were not aware Senator Reed had already issued a statement announcing his support of Gov. Cox and his satisfaction with his nomination.

"Is there any significance in the visit?" he was asked.

"Just the same significance there was when Sullivan shook hands with Corbett when they entered the ring at New Orleans," was the reply.

HARRISON BALKS AT MAKING RACE FOR GOVERNOR

Democratic Leaders Favor Ex-Mayor.

BY E. O. PHILLIPS.

Colfax, Cal., July 8.—[Special.]—Carter H. Harrison can have the Democratic nomination for governor of Illinois by simply saying he will take it. This is the official statement from George E. Brennan, Dennis J. Egan, Robert M. Sweitzer and other Chicago organization leaders who are hitting the homeward trail expecting to reach Chicago Sunday noon.

Before leaving San Francisco former Mayor Harrison, through Congressman Sabath, informed the slate makers that he preferred to stay out of the governorship race.

Kersten Second Choice.

If Mr. Harrison stays out the name of Judge George Kersten is to be considered. Downstate gubernatorial possibilities include Judge Norman L. Jones of Carrollton, Bruce A. Campbell of East St. Louis, and Former Congressman W. E. Williams of Pittsfield.

The tentative decision is to have a round up of the Illinois national delegates at Springfield during the next two weeks, to make a state slate. There will be no hurry about filing a ticket for the state nominations on the first day of filing, one week from tomorrow.

To Construct Ticket Monday.

Actual construction of the Cook county organization slate will begin Monday afternoon in Chicago and will not be ended before Wednesday at the earliest. The names officially listed as being under consideration for the county offices follow:

State's attorney, M. L. McKinley and M. L. Igoe; County judge, Thomas J. Lynch and Colin C. H. Fyffe; recorder, Senator Edward J. Hughes; coroner, Anton J. Cermak and John E. Traeger; board of review, M. K. Sheridan; board of assessors, M. Rosenberg; clerk, Superior court, Clayton F. Smith; clerk Circuit court, James M. Whalen; sanitary district trustees, P. J. Carr, J. M. Dailey, Joseph Mendel, Matt Franz, and W. R. O'Toole.

Circuit court judges—Joseph O. Kostner, Otto Kerner, D. J. Normyle, W. F. Munhall, Thomas D. Nash. For places on the state ticket these names have been suggested: Congressman at large, Walter W. Williams of Benton; Lieutenant governor, Gen. James B. Campbell of McLeansboro; secretary of state, Johnson of East Moline; attorney general, Arthur Roe of Vandalia; auditor, Edgar E. Fyke of Centralia, or James J. Brady of Chicago.

THREE YANK FLYERS WILL CONTEST FOR THE BENNETT TROPHY

New York, July 8.—According to the Aero Club of America, there will be three American contestants for the James Gordon Bennett trophy at the airplane races in France during the week of Sept. 27. The only pilot thus far named is Maj. R. W. Schroeder, air service, United States army. The Aero Club of Texas will enter a plane and so will the Dayton-Wright division of the General Motors corporation. The trophy is held by France.

CITY HALL SLATE TO BE TOLD AT RALLY TOMORROW

Program Gives Hint of Candidates.

Identity of the Republican candidates who will receive the support of the city hall organization will be made known tomorrow at the organization's demonstration at Riverview park. It is the plan of the Thompson leaders to have as speakers the candidates who will receive their support at the September primaries.

JUDGE ROBERT E. CROWE.

A partial list of the speakers already made public reveals a part of the Thompson slate. Those on the list are: Len Small, candidate for governor; Frank L. Smith, candidate for United States senator; Judge Robert E. Crowe, candidate for state's attorney; Coroner Peter M. Hoffman, candidate for re-election; Assessor William H. Weber, also a candidate for reelection, and Charles V. Barrett, member of the board of review and candidate for re-election. William H. Reid, city hall candidate for secretary of state, will act as chairman of the meeting.

Judge Crowe announced his candidacy for the Republican nomination for state's attorney yesterday.

PRIMARY LAW TO END ALL "SLUSH" FUNDS LOOMING

Nation-Wide Statute May Come from Senate Quiz.

That the subcommittee of the senate committee on privileges and elections, investigating presidential campaign expenses, will recommend a nation-wide primary law so drawn as to put an end to large campaign expenditures, became practically a certainty yesterday.

HENRY LINCOLN JOHNSON.

The contemplated action was rumored after the subcommittee had concluded its hearing of the evidence of Henry Lincoln Johnson, Negro, Republican national committeeman from Georgia, on expenditures of Gen. Wood and Gov. Lowden in that state.

Senator Kenyon, chairman of the committee, asked about the rumor, said he personally favored such a law, and believed the findings of the investigators warranted the committee in recommending it. It was learned that the other members of the committee share Senator Kenyon's views.

Palmer's Case Considered.

Another development of the day was a report that the committee was considering recommending the impeachment of Attorney General A. Mitchell Palmer, provided charges made by Attorney William Armstrong of Chicago regarding the attorney general's use of his position to further his political fortunes are substantiated.

Senator Reed declined to comment on the rumor. Senator Kenyon stated that Armstrong would be given opportunity to substantiate his charges.

"The committee will give him every opportunity to substantiate the charges if they admit of substantiation," Senator Kenyon said. "If they do not, in plain justice the committee would be obliged to state that fact."

"If they were substantiated would an impeachment be asked?"

"If a man were convicted of murder would there be any question as to whether or not he'd be arrested?" countered the senator.

Senator Kenyon, however, admitted that the Armstrong charges were being investigated because of evidence already in the records of the investigation. On page 137, part 1, of the testimony appears the name of C. C. Carlin, Washington attorney who was Palmer's national campaign manager.

Carlin, the record shows, admitted that he was counsel for Herbert Du Puy, former president of the Crucible Steel company, which after conviction of violation of the income and excess profits tax laws, returned to the government $9,000,000. There was no criminal prosecution. Du Puy, Carlin's testimony at that time stated, was also under fire for failure to pay full income taxes.

Senator Reed questioning Carlin, sought to bring out an admission that some relation existed between his connection with Palmer's campaign and the failure of the attorney general to bring criminal prosecutions in the Crucible Steel cases.

Another witness in the same hearing was J. Harry Covington, treasurer of the Palmer campaign fund. Covington it was brought out, had been counsel for chemical companies which eventually were taken over by Palmer as alien property custodian. Covington said he had not acted as counsel for the alien property custodian, but had acted for the companies at the request of Palmer.

Bruce Sterling, Palmer's Pennsylvania campaign manager, also figured in some cases against the government, testimony already in the records shows.

His attention called to these Senator Kenyon admitted that they "had weight in influencing our decision to give Armstrong an opportunity to offer any proofs he may have."

Inquiry Nearing An End.

Aside from the Palmer inquiry's Armstrong end, the investigation is practically concluded," except a few odds and ends," Senator Kenyon said. Gen. Wood, he stated, has practically been exonerated from any misuse of funds. It is expected Gov. Lowden also will be declared the victim of circumstances over which he had no control.

The committee left Chicago last night and will wind up its work with the hearings in St. Louis, starting today. The St. Louis hearing is expected to clean up the Lowden and Palmer ends—with possibly one witness from New York to tell who contributed the Wood money as yet unaccounted for.

The St. Louis hearing will center on Palmer—an attempt will be made to learn how many federal officeholders were delegates to the national Democratic convention and what promises of jobs were made by Palmer lieutenants. Edward F. Goltra, Democratic national committeeman, and Joseph T. Davis of St. Louis have been subpoenaed.

Georgia Expenditures Up.

Yesterday's hearing centered on Georgia, Henry Lincoln Johnson testifying. Johnson said the Wood forces had spent between $60,000 and $65,000 in Georgia, and that the Lowden forces expended about $20,000. He said he got $9,000 from "one Lowden man," $2,000 from another, and contributed $7,000 of his own money. Most of it went for publicity and office expenses, he said.

Senator Kenyon asked about the disfranchisement of the southern Negro. Johnson said 85 per cent of the Georgia blacks were not permitted to vote.

"How come?" asked Senator Reed.

"Georgia is honeycombed with blood lust," Johnson explained. "Negroes are lynched for no greater offense than disputing the word of a white man. If a colored man wants to vote, the whites have to be certain he votes right."

"They wouldn't lynch a man for voting the Republican ticket, would they?" asked Reed, indicating by a grin at Senator Kenyon that he considered lynching a fitting end for a Republican, but doubted that one would get it.

Johnson exploded:

"Why, way back in Harrison's time a Negro was foolish enough to tell some one that he voted for Harrison. Nobody's ever heard of him nor seen him since."

SENATOR REED—But you don't hold the Democrats responsible for that, do you?

JOHNSON—Yes, sir. The Democrats are as responsible for the disfranchisement of colored voters in the south as they are for the disfranchisement of a certain Missouri district.

Johnson then said the Democrats spent much more money in Georgia than did the Republicans, and intimated that they always did so.

"Why, then, is the colored vote so solidly Republican?" asked Kenyon.

It was Reed's chance. Johnson had aroused his disapproval in several verbal tilts in which the Missouri senator came out second best.

"I'll tell you," Reed broke in as Johnson started to answer. "A colored fellow I know got $10 to vote for one fellow and $5 to vote for another. He voted for the $5 man. When I asked him why, he said he'd 'voted for the least corrupt party.'"

Laughter drowned Johnson's attempt to reply and the hearing adjourned.

M'ADOO URGES LAW.

New York, July 8.—[Special.]—William Gibbs McAdoo, who made a speech before the League of Masonic clubs tonight, urged the enactment by congress of legislation which would make it a crime to subscribe or use a cent of private funds in a presidential primary or election. He would provide for the furnishing of money for legitimate expenses out of the national treasury.

"There is one thing that Americans never will stand for," he said, "and that is the purchase of the presidency of the United States. They never will let the time come when the dollar sign will become everything."

Harding's Platform

The High Cost of Food

This would seem to be a most fitting time to declare where I stand upon the

most vital question before the American people today

Some have thought that to avoid the high prices of food it is necessary to accept less than the best the market affords—this is a fallacy.

The true solution lies in taking breakfast, luncheon and evening dinner where the very choicest food may be had at moderate cost—*one of Harding's four places.*

The delicious—not too crisp—breakfast bacon and the sizzling, savory slice of ham served at Hotel Planters Cafeteria bear the well known brands of Swift, Armour, Cudahy, Morris, Wilson. The fresh meats served in the most expensive restaurants in Chicago have hung alongside the meats that are cooked for the patrons of Planters Cafeteria. No expert could tell the difference—for there is none. In our own bakery is produced the pastry which has become so widely known, including pies of tender, flaky crust and fresh fruit filling, layer cakes, French pastry and fancy cakes of all varieties. As for coffee—is there, anywhere, coffee of greater excellence than Thomas J. Webb's best, served with cream of great richness?

Here are a few specimens from our Menu. When noting the prices please bear in mind that they represent the best obtainable quality.

Let me call especial attention to Harding's Famous Corned Beef

And, speaking of Harding's Corned Beef—have you ever had a corned beef sandwich in our place in Postal Telegraph Building—La Salle and Van Buren Streets, or in Harding's Coffee Shop for Men—known as "Planters Number One," in the Planters Hotel, or in "Planters Number Two," entrance under the canopy of Palace Theater, formerly known as Reigheimer's Place?

An efficient ventilating system changes the air in Planters Cafeteria every 3 minutes—and keeps it very cool and comfortable on the hottest day—"73 degrees cool, always."

Elks who are not staying at Hotel Planters should inquire of brother Elks who are—that they may know where to find hotel satisfaction when next they visit Chicago. Travelers, tourists, as well as those who come to Chicago on business, will find in Hotel Planters accommodations to suit the most exacting. Cheerful, sun-lit, well furnished rooms and the most courteous and considerate attention. The location is as central as that of any hotel in the city and the Planters' rates are very moderate.

NATION ASKS, ARE YOU WET OR DRY? HOBSON TO COX

Governor Is Pleased by Wire from Reed.

Dayton, O., July 8.—Richmond P. Hobson, Anti-Saloon League leader in Alabama, today in a message to Gov. James M. Cox, Frisco nominee for the presidency, put the wet and dry issue up to the Ohio executive and asked for a statement of his position.

The Santiago hero urged that the governor make a strong statement opposing any effort of congress to modify the Volstead act to permit a greater alcoholic content in liquors.

Gov. Cox left at noon for Jacksonburg, O., his boyhood home, for a little rest and intimated he would make an early reply to the Hobson telegram.

Text of Hobson Message.

The Hobson telegram follows:

"Dry forces are restive and Republicans amongst them are applying to Senator Harding for a strong statement. Do not let these forces have cause to crystallize on the highest Republican candidates. The Democratic convention declared nearly two to one against a plank favoring even home manufacture of the mildest alcoholic beverages. Ninety-five per cent of the population of America live in states that have ratified the eighteenth amendment without reservation. They are jealous of its integrity. The Supreme court in a unanimous decision warned congress against authorizing an increase in alcoholic content.

"National officers of the Anti-Saloon league here have asked me to get a statement from you. They cite that Senator Harding voted for the Volstead act. Could you give me a clear statement of your being opposed to federal authorization of increasing the alcoholic content? This would save to Democracy millions of voters who hold this question above party success."

Good Wishes from Reed.

Among the many telegrams of congratulation received by the governor was one which greatly pleased him. It was from Senator James A. Reed of Missouri, ousted as a delegate at the recent national convention.

"I send my sincerest and heartiest congratulations to you upon your great victory against what seemed to be overwhelming odds," Senator Reed wired. "I congratulate the country because I am firmly convinced that you will always maintain and defend our nation and will never consent to surrender any part of its sovereignty or the abandonment of those great international policies of the fathers under which we have achieved unexampled greatness and power."

Campaign Conference Soon.

It now is expected that when Franklin D. Roosevelt, Gov. Cox's running mate, arrives from San Francisco, there will be conferences in which Homer S. Cummings, chairman of the Democratic national committee, and E. H. Moore of Youngstown, the governor's pre-convention campaign manager, will have a part.

The governor intimated that he may go to Washington soon for a conference with President Wilson. Telephone conversations between Secretary Tumulty and the governor have been held during the last few days, it was said.

COAL SHORTAGE REPORTS IN U. S. UNWARRANTED

Washington, D. C., July 8.—[Special.]—Governmental agitation of the coal situation has caused a scare which has boosted prices sky high, George H. Cushing, managing director of the American Wholesale Coal association, declared today in a statement that fears of a serious shortage are entirely unwarranted.

"In the matter of both coal supply and prices the people are in real need of protection from their friends," said Mr. Cushing. "The people have been told practically every day for eight months that the worst shortage of coal in history is imminent. Those who need coal have been thrown into a panic. Today they are frantically bidding against each other in every market. Of course, prices have risen—in the open market—to the highest level in peace times in history.

"However, there is no shortage of coal. There is no danger of any such shortage. Therefore there is a reason but no excuse for the current high prices—in the open market. The reason is that we have had too much governmental agitation of the danger of a famine."

U. S. NEEDS THIRD PARTY, ILLINOIS PROFESSOR SAYS

Urbana, Ill., July 8.—[Special.]—Prof. E. C. Hayes of the department of sociology of the University of Illinois in a lecture today declared it as his belief that the nation needed a party "which desires an administration of liberals."

"What we need in this country is a new party of progress," he declared. "The conservatives are too successful for their own good and the radicals, as we interpret the term, are too radical."

SINGLE TAXERS THROW WRENCH IN '48' MACHINE

Won't Stand for Third Party Picking La Follette.

"Fourth" and "fifth" parties loomed as possibilities yesterday as the radical groups out of which it is proposed to build a new "third party" continued to arrive in the city.

The single taxers started the trouble. The Single Tax party had called a convention at the Auditorium hotel for the same days that the committee of forty-eight called the convention at Hotel Morrison. It was the plan of leaders of both the committee and the single taxers that the two conventions should get together.

This plan was made difficult of accomplishment by the announced intention of the committee of forty-eight leaders to offer their presidential nomination to Senator Robert M. La Follette.

Pinchot Visits La Follette.

Amos Pinchot and George L. Record of the committee of forty-eight were guests all day at the La Follette farm at Madison, Wis., and were expected to return today with the senator's answer to the proposal that he become the "third party" candidate. It is reported he informed his visitors that he is willing to hed a third party if he is assured there is sufficient public demand for such a party to insure its life after the next election. He is said to want a permanent, aggressive organization that will never merge with one of the old parties.

If Senator La Follette is to be the committee of forty-eight choice, the single taxers will play a lone hand, they announced.

The single tax "fourth party" that is in prospect will force the Prohibitionists to become the "fifth party." The Prohibitionist national convention has been called for Lincoln, Neb., July 21, and Virgil G. Hinshaw, chairman of the national committee, announced that there would be a Prohibitionist ticket in the field again.

Prohibitionists to Have Entry.

The Prohibitionists have hopes that William J. Bryan might accept the presidential candidacy of their party, but they have nothing upon which to base their hopes.

Meantime the "third party" convention, which opens tomorrow, faces a fight similar to the ones waged in the Republican and Democratic parties over the "Irish plank." Frank P. Walsh, who is one of those mentioned as a possibility for the "third party" presidential nomination, is bringing to the convention the plank that was rejected by the other parties.

It was announced that early in June the committee of forty-eight sent out 30,000 questionnaires on the Irish plank and that the replies to them indicated sentiment against the Irish plank.

Charles H. Ingersoll of Orange, N. J., millionaire watch manufacturer, was added to the list of possible candidates for president.

BOYS JAILED FOR AUTO THEFT.

Milford Fingal 17, turned over by his father, Charles Fingal, 5636 Drexel avenue, for the theft of an automobile, yesterday was given three months in the house of correction. Gratio Bush, a soldier and companion of Fingal, was given three months on a similar charge.

PRIVATE STABBED BY DRUNKEN SOLDIER DIES OF HIS WOUNDS

SAMUEL CHESSLER.

Private Sam Chessler, a member of the medical corps, Fort Sheridan, died yesterday from a wound inflicted by William Pike, a fellow soldier, who wielded a German trench dagger while under the influence of alcohol.

Testimony at an army board of inquiry was that the attack was unprovoked and was caused by Chessler's refusal to give Pike a basket which contained fruits for patients, but which the intoxicated man believed held whisky.

According to Private Ivan E. Fox, who was with Pike at the time of the assault, the latter had been drinking alcohol. Pike threw the trench knife away after the stabbing.

According to Col. W. N. Bispham, the commandant, two medical detachment privates, Gilbert H. Stembol and John Butcher, will be recommended for promotion as a result of their prompt action in following Cox and Pike and causing their arrest by Frank Healey, acting corporal of the guard.

The investigation was in charge of Majs. Benjamin Norris, Phillip J. Lukens, and Phillip L. Coulter.

Anti-Saloon League to Decide Stand on July 22

Westerville, O., July 8.—The attitude of the Anti-Saloon League of America in the coming campaign will be decided in Columbus on July 22 at a meeting of the organization's executive committee, it was announced here today. The league has not yet issued any statement with reference to its attitude toward the candidacies of Gov. Cox and Senator Harding.

J. BARLEYCORN FIGHTS FOR LIFE IN ARGENTINA

Workmen Refuse to Unload Booze.

BUENOS AIRES, July 8.—In consequence of the recent introduction of a prohibition bill in the chamber of deputies and the announcement that the administration would not support it, the question of prohibition has come to the fore front as a subject of discussion.

The "secos," meaning drys, and the "mojados," meanings the wets, are engaged in stern controversy.

The prohibition agitation here follows similar agitation in Brazil, Uruguay, Paraguay, and Chile, one of the oddities of the situation occuring at Punta Arenas, where the labor element, having been unable to get prohibition legally adopted, has refused to unload alcoholic liquors from ships.

It is understood that President Irigoyen is in sympathy with restriction of the liquor traffic, but believes that the country is not ready for total prohibition, such as the bill proposes. His attitude is to be seen in the terms of the commercial travelers' treaty recently negotiated with the United States, a clause of which excludes from the benefits of the treaty alcoholic beverage salesmen from the United States which the Associated Press learns was inserted at President Irigoyen's request.

Government Not to Help in Trading with Russians

Washington, D. C., July 8.—[Special.]—Government officials will refuse to do anything toward facilitating credit arrangements to promote trade with Russia. This was stated emphatically today. Officials said frankly that yesterday's state department order lifting restrictions in trading with Russia except as to war materials was not expected to result in much activity. The order was issued, it was declared, more for the purpose of demonstrating that the spread of the bolshevik movement is not being hindered by trade embargoes.

WHAT ELSE CAN AN AMERICAN DO?

Senator Johnson of California did not care much for the nominations made by the Republican convention, and for several weeks was silent. An active candidate for nomination cannot be completely satisfied by the nomination of some one else. Johnson was an active candidate and naturally he thought that the convention in not taking him made a poor choice. A candidate begins his campaign by thinking that he is the best man. Johnson, displeased as he was, has announced that he will support the Republican ticket because of the Republican platform. The Republican party is a national party and the Democratic an international party—the one concerned with American rights and the other with American obligations.

The Democratic party represents itself as a bad debt collector and the United States as a poor account; Europe as a moral creditor and the United States as a moral delinquent.

This is offensive to Johnson, as it is to every American, who knows that the United States is clean and has paid in full. With European victors still scheming for profits the Democratic party asserts that the United States has failed to pay its score.

The Democrats cannot evade that declaration by saying that their candidates do not mean it. The party declared and then nominated. If Harding and Cox were so alike that they could not be told apart the principles which the two parties announced would compel an American to support the Republican ticket.

PICTURE BRIDES AND THEIR CHILDREN.

Representative Etsujiro Uehara arose in the Japanese house on Wednesday, according to a cable dispatch from Tokio, and indignantly demanded to know why the government did not insist upon the lawful rights of the Japanese instead of prohibiting the sending of picture brides to America.

It would appear that Mr. Uehara's idea of "the lawful rights of the Japanese" includes the circumventing of the laws which prohibit the holding of land in California by Japanese immigrants. It became the custom there for several years for Japanese parents to buy lands in the names of their children born on American soil. The more picture brides the more children. The more children the greater acquisition of land under Japanese control. It was a practical system, worthy of Japanese enterprise.

It goes far toward accounting for the anti-Japanese agitation which Foreign Minister Uchida told Mr. Uehara he regarded with utmost anxiety. So long as Japanese statesmen publicly resent an anti-Japanese sentiment inspired by such tactics they may be sure the sentiment will not only continue but will grow. It is growing in California. The makeshift settlement reached there a few years ago to prevent a serious breach between the two countries has failed to settle. But the Japanese have settled—in great numbers.

As these numbers increase the irritation increases. The two races are incompatible in the same community. They cannot amalgamate. Minister Uchida has done well to recognize that fact and to tell Representative Uehara that the prohibition upon picture brides was quite inevitable. He will do better if he informs such indignant statesmen as Uehara that "the lawful rights of the Japanese" in America will be granted and interpreted entirely by America. We are not bound by the league of nations.

Incidentally California should remember the same thing. In the unwished for event of trouble with Japan it would be trouble between the United States and Japan, not between California and Japan. Therefore it behooves California to take the rest of the country into careful consideration in its dealings with the Japanese.

LENIN HELPS US OUT.

John Clayton's cables to THE TRIBUNE on the Russian situation continue to shed a light upon soviet government and communism which, we believe, eventually will illuminate even the darkest ignorance of radical nests in other parts of the world. The quoted statements of Lenin before the third conference of trades unions at Moscow go to the root of the science of soviet economics with a directness which commands our admiration.

"Not only must capitalism be done away with but class position between the peasants and the industrial workers must be destroyed," said Lenin. "The peasant cannot fail to acknowledge that he has been liberated by the industrial workman. But the peasants have remained owners of goods, and so every case of a sale of bread on the free market, bag carrying, and speculation is a restoration of 'goods economics,' and therefore a phase of capitalism. All talk of equal rights is nonsense. We are not carrying on the class struggle on a basis of equal rights."

What could be more simple than that? The peasants are freed, but in their freedom they retain a loaf of bread and try to sell it. Therefore they are capitalists. Therefore they must be destroyed, or deprived of their bread, which means the same thing. Lenin, as head and personification of the soviet government, goes to the root of things. He is right. Possession of a loaf of bread is capitalism, just as possession of two loaves, or a thousand loaves, or a flour mill is capitalism. "All talk of equal rights is nonsense." It is.

The industrial workers who freed the peasants will now confiscate the peasants' bread. Then the industrial workers will be capitalists and the peasants will not. That is the way communism works. It is very simple. Eventually Russia will make even the most stupid of us understand it much more clearly than our few radical agitators are trying to make us understand it now. Perhaps Russia will make even the aforesaid agitators understand it. Then we will have to seek a new form of bogey.

STATE AND CITY.

Before the constitutional convention took its recess until September it reconsidered the vote by which it had limited Chicago's representation in the general assembly, unjustly, and when the delegates reassemble they will be in position to approach this question in a different fashion.

The tendency thus far has been to regard Chicago as something dangerous and alien in the state, sufficient in its evils unto itself, to be checked in its influence in state affairs.

Chicago cannot be made an independent state. It cannot be made a dependent and delinquent ward of the state. It is not an alien in the state and it is not a state in itself. It has a right to fair representation in the legislature. It ought not to have overpowering control there. It is merely but necessarily a part of the state.

Chicago cannot be immune to what happens in the state. The state cannot be immune to what happens in Chicago. Chicago cannot be permitted to mismanage its local affairs under any doctrine of home sovereignty. City republics, states, and empires have been failures in all history. A city is not a unit. It is part of a unit, economically and politically.

If Illinois endeavored to divorce Chicago and set it up to run itself both city and state would suffer. Home rule is a byword and has no substance.

The state needs the concentrated energy of the city, its markets, its products, and its activity. The city needs the products of the country and its steadying influence. These two parts of a political unit cannot be set against each other or removed from each other. They belong together.

DEMOCRATS VIEW THEMSELVES WITH ALARM.

Some supporters of the altruistic Democracy reveal a quaver of uneasiness. The noble platform, which is a bosom for the weary head of the whole world, contains a mining and oil plank which they fear was slipped in by a son of Anak. We did not know there was one in the convention, but there is a fear in the Democracy.

It is a Democratic principle that Mexican disorder and suffering should repel American sympathy and activity and Armenian disorder should attract it. It is a Democratic accusation that there are Republicans who plan to enter Mexico, give it order and peace, and put a stop to brigandage and murder, make it safe to raise cattle, sheep, and crops, make it safe to run mines, and oil wells, and railroads, and give the country the status of Cuba.

Cuba is the pride of the Republicans in its order, prosperity, and freedom. Mexico is the pride of the Democracy in its squalor, crime, and destructiveness.

This pride was set forth in the platform. There was an admonitory note—probably it was more a plea, that the Mexicans ought not to murder Americans—but the plank generally pointed with pride to Mexico as the achievement of a Democratic administration.

Following the Mexican plank is the mining and oil plank which many ardent Democrats deplore, and which, they think, needs an explanatory note from the candidate. The oil plank urges that action, legislative and executive, be taken to secure for American citizens the same rights in mining and oil in foreign countries as are enjoyed by the citizens or subjects of other countries.

This might mean that the Democratic administration was to compete with Japan in exploiting Shantung or with Great Britain in exploiting Asia Minor, but it is held to mean that the United States would look with favor upon Mexican mineral and oil properties.

The line of least resistance in exploitation would lead across the Mexican border. It might be much harder to dispute with the Japanese in China and the British in Asia. The Republicans have been urging action in Mexico for the good of the continent, particularly of the Mexicans, and, upon the most generous ground, for the Americans.

The Democrats seemed to have committed themselves against anything which would operate for the general betterment of mankind but for action which might get some rich plums in a land disordered.

DEPRAVITY PLUS SENTIMENTALITY.

The sentence of life imprisonment pronounced by Judge Hugo Pam upon Henry Felhofer, a 20 year old youth who admitted a calmly premeditated attack upon a woman in her own home, was the maximum penalty under the law. To us, as to Judge Pam, it seems none too severe. It might well be the minimum.

The offense deserves the punishment. The sentimental appeals for leniency but served to emphasize the atrocity. The prisoner actually requested to be put on probation, declaring he was the only support of his mother, and insisting he would be a good citizen if released. That he could make such a request was ample proof of his utter inability to appreciate the foulness of his crime. That others could seek to induce the state's attorney to agree to a light sentence, as they did seek to do, furnishes similar proof of their inability to understand the magnitude of the offense.

Judge Pam evidently appreciated these proofs with the others. Only by such sentences as he imposed can such crimes be put in their proper class and such perverted criminals be restrained. Sentimentalism in such cases only adds to the depravity exhibited by the offender.

Editorial of the Day

BACK TO BARTER.

[Edmonton Journal.]

The demoralization of the currency of many European countries has led to the revival of the system of barter on a large scale. The negotiations conducted in London with Krassin, the soviet trade commissioner, have been on this basis. It is now announced that the Baldwin Locomotive company has completed a transaction by which Roumania and Serbia will get locomotives in exchange for oil and grain. One result of the extension of the system should be to drive home the fact that money has no value in itself, that it provides simply the counters for transactions in goods. A large proportion of our economic troubles is due to false ideas which have sprung up because of imperfect recognition of this fact.

THE OLD SINGER.

I've sailed the sea of Rhyme
A goodly bit of time,
And touched at many a shore,
But I shall sail no more:
The hour has come to be
A sailor home from sea,
A dreamer by the fire,
A listener to the lyre
By other minstrels played,
Drowning the songs I made—
Until along the coast
I wander but a ghost,
A shoreward-wafted weed
That clutches at a reed,
Yet knows, at morn and night,
The lifting tides of light!

WHEN KIDS SWALLOW PINS.

If a child swallows a button, what is to be done about it? The department of health of New York devotes a bulletin to answering this and similar questions.

The first question to decide is whether the object has been swallowed. The child's testimony on this point is not always reliable. Information as to the size and nature of the foreign body should be secured. Next an X-ray examination made to locate the object. This picture should include the entire abdomen, since objects sometimes pass the stomach readily, but catch somewhere else in the digestive tract.

If the object swallowed is a pin or bone it is important thoroughly to examine the back part of the throat, because bones and pins lodge there occasionally. To do this wrap a towel around a finger and use this finger to keep the teeth apart. With the index finger of the other hand explore the back of the mouth thoroughly. It is important not to give purgatives to dislodge pins, bones, and other sharp pointed objects. On the other hand, give plenty of such dry foods as bread, cereals, corn, potatoes, and wheat bran. The popular custom of giving cornbread made from unbolted cornmeal is a good one.

If the foreign body has passed into the windpipe the rule is that violent coughing and strangling will reveal the fact. The following devices are sometimes effective: Holding the person by the heels with head hanging down, slapping him between the shoulders, tickling the back of the throat to induce vomiting. However, a foreign body may pass into the windpipe without causing great irritation.

I have in mind a man who swallowed a chicken bone down his windpipe and did not recognize the fact. It lodged in his lungs and he was treated a long time for consumption. Eventually he coughed up the bone and his consumption got well.

Lerche reports many cases of bones in the windpipe, lungs, and œsophagus, some of which did not cause an excessive amount of coughing or strangling. Surgeons now succeed fairly well in locating foreign bodies in the windpipe and œsophagus, using X-ray and other instruments, and in extracting them.

The bulletin advise that slight cuts be covered with a clean bandage; that no antiseptic be used. That slight burns be dressed with sterile vaseline.

When a person faints he is to be allowed to lie quietly in a horizontal position.

LEAD POISONING SYMPTOMS.

Mrs. L. M. writes: "Will you advise me about lead poisoning, or what we think it is? My husband has been working in a press room for the last year. It is poorly ventilated and dark, and lead is melted in the same room, and he has been inhaling it. He has been feeling miserable and the last two months broke out with large itchy eruptions, which do not seem to heal up fast. He quit and went to Arizona, where he is working in a high, dry climate. What would you recommend to drive the poison out? Is he in any immediate danger? He does heavy work, digging concrete, and does not feel bad, only healthily tired. He has a good appetite and sleeps soundly. Would iodide of potassium be a good remedy to drive it out of his system? One doctor told him it was cirrhosis and was very serious. What does that mean?"

REPLY.

Harris has shown that a moderate number of printers suffer from some degree of lead poisoning. He was able to find the metal in their arms. Assuming that your husband had lead poisoning, he has hit upon about the best cure. The way to get rid of the mineral is to sweat it out, and doing heavy work in Arizona in summer fills the bill. Sweating in the Arrowhead hot springs or hot sulphur baths at Glenwood Springs would not be much more beneficial. Sometimes lead stays in the system a long time. Iodide of potassium taken internally helps to get rid of it. The dose should be small. Large doses have been known to cause symptoms of lead poisoning by plowing up too much of the metal.

STOP GIVING PURGATIVES.

Mrs. C. C. F. writes: "I have a baby 2 months old, who is very constipated. He is breastfed at regular hours. He is growing, but at times is cross. His bowels never move without medicine, usually an enema. Should he cry as if in awful pain when I give him an injection? I have given him castoria, cascara aromatic, and a few doses of castor oil. Is there anything I could give him, or anything I could eat? I give him water three times daily. He has had eczema on his face."

REPLY.

You should eat vegetables and fruit freely. Drink plenty of water. Give the baby some orange, prune, or strained canned tomato juice. If you must give him medicine internally, give a little milk of magnesia. If necessary, use a soap stick. Do not give castor oil, castoria, cascara aromatic, or other purgatives.

MIND SOMETIMES HELPS.

A. F. writes: "Is there any cure for finger nail biting? I try to stop biting them, but cannot."

REPLY.

Send stamped addressed envelope and repeat your request. Use a remedy that will make finger nail biting unpleasant. The habit is the result of lack of poise and bad training. The real cure consists in developing poise.

FRIEND OF THE SOLDIER

THANKS.

THE TRIBUNE has received the following letter, date of July 8, from the local office of the bureau of war risk insurance:

"Friend of the Soldier, CHICAGO TRIBUNE: I desire to express my hearty thanks for the splendid cooperation that I received from your department during the campaign for reinstatement of war risk insurance, by the ex-service men, which closed June 30. I consider that in a great measure the success of this campaign was due largely to the splendid articles which appeared in your column.

"During the month of June this office handled $11,709,000 in reinstatement and conversions, handling nearly $3,000,000 on June 30 alone.

"The campaign was a complete success in every way and I appreciate fully that a great deal of the credit belongs to the Friend of the Soldier of THE CHICAGO TRIBUNE. Yours sincerely,

"E. V. DICKSON,
"Special Representative."

INSURANCE PAYABLE TO DESIGNATED BENEFICIARY.

Chicago, July 6.—[Friend of the Soldier.]—While home on a furlough my brother met and married a girl. This was in the early part of the war. He returned to camp and was killed in action in February, 1918. The government wrote to his wife that he had taken out $10,000 insurance and that it was payable to her. Now he only married her two days before leaving for camp and he wasn't dead a year when she was married again. Isn't there some way this insurance can be transferred to his mother, who is absolutely without any means of support? I know that this woman was not true to my brother but still she claims the insurance. While in the service he made an allotment of his pay to my mother. W. R. T.

There is no way the insurance benefits can be transferred to the mother. The soldier bought and paid for this insurance and had the right to name any beneficiary in a permitted class of beneficiaries. The insurance benefits of the war risk insurance are always paid to the beneficiary designated by the insured, provided, of course, that the person designated was in the permitted class.

UNFIT FOR SERVICE.

Chicago, July 5.—[Friend of the Soldier.]—I served two months in the navy and was discharged in September, 1917, for physical disability. I tried every branch of the service but was rejected and after being called in the draft they, too, rejected me, so you see I tried to do my bit. I have my medical discharge from the navy and drew pay for the time I served. I have been under the impression right along that a man with a medical discharge could not collect the bonus or join the American Legion. Have been informed differently recently. Can I do either or both? P. A.

You may collect the bonus and join the American Legion if your service was honorable, regardless of your discharge for physical reasons.

To collect the bonus apply to the bureau of supplies and accounts, navy department, bureau of navigation, Washington, D. C.

Join the American Legion post in your community.

GOING BACK TO FRANCE.

Chicago, July 5.—[Friend of the Soldier.]—While in France I married a girl and she was going to return with me, but shortly before I was ordered to leave her mother took ill and she was forced to stay behind. About six weeks ago the mother died and my wife now wishes to join me in this country. Where do I have to go to get some papers they tell me I will have to have to try to get her over here? You see I intend to go over after her. F. D. S.

All you will need to have from this side is a passport to go to France. As you live in Chicago, you may get this passport by calling at room 600 Federal building.

LOST DISCHARGE.

Thomas D. Keating of 3741 Osgood street, Chicago, while returning from Kankakee, Ill., last Tuesday morning, had the misfortune to lose his discharge. He was formerly with Company F, 18th infantry, as the discharge shows. The papers of Frank Kelly of the 8th cavalry were also with Mr. Keating's discharge. Finder please return to his Chicago address.

No attention will be given to anonymous letters. To insure a personal reply inclose a stamped, addressed envelope.

AUSTIN BOULEVARD.

Chicago, July 9.—[To the Friend of the People.]—Will you kindly let me know if Austin-blvd., between North avenue and Twelfth street is going to be paved this year? L. L. B.

Austin boulevard between North avenue and Twelfth street, which is under the control of the West Chicago park commissioners, will not be paved this year.
JOHN A. PELKA,
Clerk of the Board.

NO LIQUOR SIGNS.

Chicago, July 9.—[To the Legal Friend of the People.]—1. Please state the law prohibiting the display of whisky and beer signs; also kindly inform me where complaints regarding liquor signs should be filed. ANTI-BARLEYCORN.

Sec. 17—It shall be unlawful to advertise anywhere, or by any means or method, liquor or the manufacture, sale, keeping for sale or furnishing of the same, or where, how, from whom, or at what price the same may be obtained. No one shall permit any sign or billboard containing such advertisement to remain upon one's premises. But nothing herein shall prohibit manufacturers or wholesale druggists holding permits to sell liquor from furnishing price lists, with description of liquor for sale to persons permitted to purchase liquor, or from advertising alcohol in business publications or trade journals circulating generally among manufacturers of lawful alcoholic perfumes, toilet preparations, flavoring extracts, medicinal preparations, and like articles. Provided, however, that nothing in this act or in the act making appropriations for the pension department, approved March 3, 1917 (thirty-ninth statutes at large, Part 1, page 1021 et seq.), shall apply to newspapers published in foreign countries when mailed to this country.

REPLYING TO THE NEAR EAST RELIEF.

Chicago, July 6.—[Editor of The Tribune.]—"Who is Paul Williams?" Ask the members of the old 341st infantry, 86th division. They will tell you the kind of a man Paul Williams is. "This upstart of a reporter, who is looking for notoriety," as your recent correspondent charitably calls him, won an enviable reputation as a newspaper man of character and reliability in Chicago long before the near east relief committee was heard of in this section.

Mr. Williams' honorable career as a newspaper man can be vouched for by many associates during his years of faithful service with THE CHICAGO TRIBUNE, Chicago Herald, and Associated Press. Then came the great war, and, strange to relate, he did not "look for notoriety" by joining a relief committee. He went to France as first lieutenant, of L company, 341st infantry. That his service overseas was creditable can be personally certified by this writer. After hostilities had ceased Lieut. Williams obtained an honorable discharge in France and immediately joined the foreign staff of THE CHICAGO TRIBUNE.

The near relief person probably started something when he picked on plucky little Paul. Of course, Paul is always ready to fight his own battles, but in case he needs support there is a tidy bunch of ex-service men ready to come to his aid.

For the benefit of the indignant near-relief person allow me to state that there is nothing "near" about Paul. A 100 per cent American, a square newspaper man, and a true soldier—that's Paul Williams. E. E. MORGAN,
Ex-Captain 341st Infantry.

FEMINIST VS. ANTI-FEMINIST.

Chicago, June 30.—[Editor of The Tribune.]—The letter of Anna L. Dwyer against married women in business is a very good presentation of the old and anti-feminist viewpoint on this subject. The argument proceeds, with undisputed logic, from the assumption that the ideal condition for a wife is to be a "kept woman"—that is, dependent on her husband for support. Once this is admitted it naturally follows that any "real woman" would be "ashamed to work out after marriage, and that for her to accept in payment for her keep any lesser price than "the right to be supported" is indeed "cheapening love." Undue price cutting always enrages competitors. Any woman, therefore, who regards her love for her husband as the price she pays for his support will do her duty by staying out of business.

But there are more and more of us who feel that love should be a thing beyond price; that the noblest woman is not the "kept woman"; that the truest love is given freely, not in return for needed support. We welcome the advent of the comparatively independent married woman, whose husband regards her as a partner, not as a personal servant. Our hope is that a woman may some day be in truth a "person"; that she can employ her talents to best advantage without being subject to the taunts of small brained men to the effect that she "ought to be at home washing dishes."

The wife, or anybody else, who, having other means of support, goes to work to earn spending money is a different problem; the means may consist of a rich husband or wife, father or mother, or a bank account. The person's occupation is just as demoralizing to the unendowed worker, no matter what the source of the additional means. The question has no proper connection with the one of the "woman in business." FEMINIST.

"A PECULIAR MENTAL SLANT."

Danville, Ill., June 24.—[Editor of The Tribune.]—Your articles on Russia are indeed a revelation—not of the conditions there (for the spirit that animates the articles is one of plain hatred and invective) but of a peculiar mental slant which can only be properly analyzed in a psychopathic clinic. Your purblind hatred of soviet Russia so twists facts and draws so heavily upon the imagination of any reasonable human that you would be laughed out of court before any fair minded body of men.

You attempt to substitute hysteria for truth and prejudice for fact. This is clearly in line with THE TRIBUNE'S policy of rank "standpatism" dark age reaction, and a servile attitude towards $ $.

I believe honestly and sincerely that you are stone deaf to all appeals to higher idealism, uplifting reform, or the betterment of humanity, and an excellent example of what is called the "kept" press. MARIUS SONNENSCHEIN, A. M.

THE RACE PROBLEM.

Chicago, June 30.—[Editor of The Tribune.]—The Appomattox club desires to thank you for the tactful method in which you have recently been handling news relative to race clashes in Chicago. The better classes of colored citizens are doing all they can to restrain the lawless element of their group, and indications point to an effort on your part to cooperate and accomplish the same thing relative to the lawless element in the white group.

We believe that a very large part of social friction has come from unfortunate and tactless press reports; we are very pleased to note that you are giving the matter your attention and compliment you for it.

In conclusion may we suggest that you urge that officers of the law make it a point to arrest at least a few of any mob which causes trouble in addition to making efforts to arrest the intended victim of the mob. We believe that the mob spirit, which in its nature is very cowardly, can be easily broken by a little firmness on the part of the officers of the law.

Pancho's Offer Stirs Foe to Bitter Rage.

BY SIDNEY M. SUTHERLAND.

Torreon, Coahuila, Mex., July 8.—[Special.]—Elias L. Torres, President De La Huerta's peace envoy to "Pancho" Villa, returned last night en route to Mexico City with a letter from the bandit to the provisional president.

Torres called on Gen. Joaquin Amaro, who is here organizing the deserters from Gen. Guajardo's rebel forces.

Villa wants to be left in military, political and financial possession of the state of Chihuahua. Also he demands that Gen. Amaro be retired from the army and that Gen. Eugenio Martinez be appointed federal commander in the state under Villa's orders. Torres told Amaro Washington's price on recognition of the De La Huerta régime was acceptance of Villa's terms by De La Huerta.

Amaro Far From Pleased.

"Get me straight, Senor Torres," said Gen. Amaro, pounding a table in his ear, "You tell Adolfo De La Huerta that if he recognizes a single one of Pancho Villa's demands and permits him to become a part of the Obregon government, I will immediately and openly declare myself and my forces in rebellion and start a revolution.

"If America demands that my government make peace with Pancho Villa to obtain recognition and my government complies, then both the American government and the Mexican authorities can go to hell."

Villa Modifies Demands.

Mexico City, July 8.—Elias L. Torres of El Paso, who conferred on behalf of the provisional government with Francisco Villa, the rebel leader, with regard to an armistice, has announced that Villa has modified his peace terms and that conciliation is likely, says the Excelsior.

Hears of Armistice.

Washington, D. C., July 8.—The state department was advised officially today that Francisco Villa and the Mexican federal forces opposing him had signed an armistice, effective until July 15. The dispatch from the American consul at Chihuahua City said Villa had submitted a new proposition which, however, was not described.

COL. W. N. HASKELL, CHIEF OF ALLIES IN ARMENIA, TO QUIT

COL. W. N. HASKELL

CONSTANTINOPLE, July 8.—[By the Associated Press.]—Col. William N. Haskell, the American officer who has been high commissioner of the allies to Armenia since July, 1919, has resigned that position. His resignation will become effective when the British evacuate Batum, on the Black sea.

The British, who apparently are preparing to leave Batum before July 15, have blown up all the fortifications on the theory that Batum should be a free port and open town in Georgian territory.

The bolshevik embassy in Tiflis, consisting of forty-eight persons, provided with many expensive American automobiles of recent make, have requisitioned the best houses in Tiflis. The embassy has plenty of money and is actively engaging in propaganda work. The Georgians are trying to get the embassy reduced to four members.

A Tested Savings Plan

It is now one year since we first brought out and introduced to the Chicago public the "Merchants Loan Monthly Statement Savings Plan." During the twelve months this savings system has been in operation, it has been giving general satisfaction and has proved to be a sensible and practical way to save.

Under this plan, you do not have to rely upon your memory or depend on your determination in order to save regularly, for saving becomes an intimate part of your monthly business routine and you make your deposits from your home or your office at your own convenience. Our circular describing this savings system is sent to any address upon request.

Interest will be allowed from the first of the month on all savings deposits made on or before Tuesday, July 13th. For the special accommodation of our depositors, our Savings Department now remains open on Saturday evenings until 8:00 o'clock.

ALICE CLARK TELLS STORY OF TURK CAPTIVITY

Evanston Girl Helps Discipline Bandits.

(Continued from first page.)

Americans and two moslem girls, all remaining in our buildings, hid in a closed cellar for three days, eating old raisins.

Ordered to Go.

We knew the Turks would suspect us of conniving in the attack, and were not sure but that we would be killed outright, but we intended to attempt to explain the fact that we still were neutral before exposing ourselves directly to fire. We flew an unbleached truce flag, also depending on the moslem girls to tell the Turks we had nothing to do with the attack. After a day of ominous stillness the Turks returned, accused us of betraying them and gave us two hours to clear out.

We had to carry our personal effects, while the Turks looted the place, helping themselves to everything we had. An hour after the order that Sunday morning we began our weary walk up a three mile hill under the escort of the bandit whose life Miss Stiper had saved. As we climbed shots were fired uncomfortably close to us, the Turks yelling "Haida! Haida!" which means "Hurry!"

Burn American Buildings.

The American buildings were in flames. Running beside us up the hill were Turks wearing our clothes and carrying our bags of personal effects, but what they carried were for themselves and not for us.

The villagers along the road to Talas and Samsoun were compelled by the Nationalist soldiers to provide our horses with food. At one place the population was reluctant, so the escort burned a house.

The Turks and Armenians equally are to blame for the Cilicia fighting. The Turks intended to fight the French, not the Armenians. The Armenians, however, joined the French and accepted arms to fight the Turks, which started the war of retaliation. At the instigation of the French the Hadjin Armenians raised the French flag.

We acted as go-betweens, carrying from the Turks peace terms to the Armenians. The Turks promised no Armenians would be molested if the French flag was lowered and Armenians were disarmed as an assurance that Turk villages would not be raided. The Armenians, however, refused to trust the Turks—for which they, on the other hand, cannot be blamed.

GONE YEAR AND A HALF.

Miss Clark is the daughter of George M. Clark, 1217 Forest avenue, Evanston, who is anxiously awaiting her return to America after an absence of nearly a year and a half. She is a graduate of the University of Chicago and was one of the directors of the association house before she sailed for Armenia on Feb. 16, 1919, as a member of the near east relief committee to take charge of an orphanage housing 200 Armenian children at Hadjin. She has cabled her father she is coming home.

Muskegon, Mich., July 8.—[Special.]—The first competitive drill will be staged at Camp Roosevelt tomorrow and the companies were out practicing today. The winner will be given the honor of carrying the camp colors for two weeks.

Camp athletics got under full swing with five baseball games and many other events. The rifle range will be opened tomorrow. No complaints are heard regarding mess this year and the boys say it is much improved.

The camp hospital had its first patient today. He will be out tomorrow. The boys are looking forward to their first hike.

CAR SHORTAGE DELAYS CHICAGO ROAD REPAIRING

Washington, D. C., July 8.—[Special.]—Modification of the order confining open top cars to the transportation of coal was urged before the interstate commerce commission today by W. H. Duval of Chicago, appearing in behalf of the highway department of Cook county.

Pointing out that it was vitally essential that the Cook county highways be kept in condition for the transportation of milk and other food products to Chicago, Mr. Duval said the roads were deteriorating and that it was impossible to maintain them because of the inability to get materials, due to lack of cars.

COUNTRY HOME, STOCK FARM & SEASHORE

Combined in one estate of 500 acres, commanding one of the most beautiful and extensive views on the Maine Coast

Location. Laudholm Farms is at Wells, Me., about equidistant from Portsmouth, N. H., and Portland, Me. Two and one-half hours from Boston by Boston and Maine R. R., or three and one-half hours by motor over fine State road. Overnight from New York. Two through trains daily from New York to Portland, Me., stop at Wells Beach. At Kennebunkport, four miles east, there is good landing for yachts.

Land. Five hundred acres, between sixty and seventy of which are under cultivation. A faultless beach, one mile long and 500 feet wide, together with the Merriland and Webhannet Rivers, bound the estate on three sides. One of these rivers has a dam with ten-foot fall which can be used for power plant. Acres of beautiful woods through which run a number of roads and bridle paths.

Buildings. Old Colonial dwelling. Seven master bedrooms, four servants' rooms, three baths, and several lavatories. There are four cottages and a large beach house. Eight automobiles can be accommodated in two garages. The buildings are electrically lighted throughout. All the buildings are on high ground. Adequate barns, stables, dairy and poultry buildings. Farm equipment is modern and complete.

Livestock and Equipment. A herd of thirty pure-bred Guernseys, including two sires from famous herds, will be sold with, or independently of, the property. They are housed in a cow barn for thirty-five head, recently built according to best modern standards. The calf-and-bull barn will accommodate twenty animals.

A separate dairy, built after modern sanitary plans, is equipped with electrically driven separator and churns. Herdsman's office and wash rooms. Two large refrigerators.

The hennery consists of poultry houses for 1,800 hens, built according to latest agricultural college plans, with incubator cellar, and separate building for fattening and killing. Hot and cold water and large refrigerator.

The seven horses, of which three are saddle horses, are housed in a stable containing eight stalls and three box stalls.

There is great opportunity for both pleasure and profit in the further development of the estate.

To be sold outright on satisfactory terms. Renting or exchange will not be considered.

Further information will be furnished, or arrangements can be made to show the property by applying to your own broker or the owner,

S-W Porch and Deck Paint

is made to stand heel-pounding, dancing, dragging around of heavy porch furniture, etc. Is extremely tough and is not damaged by frequent cleaning or scrubbing. Stands all sorts of weather and the wide range of colors includes your favorite.

For the Canoe

Canoes must be protected by a tougher than ordinary enamel. They have to be water-proof and be able to withstand rough handling—dragging over the sand and pebbles along the shore, etc. S-W Canoe Enamel protects against this sort of wear. Water-proof, tough, durable and made in all the bright summery colors.

A Vacation Time Reminder

After every summer vacation we spend at the cottage we begin talking about what we're going to do the next year. How we will go up a couple of days before the family arrives and get everything fixed up—looking "ship-shape." Get the yacht varnished up, the canoe enameled, the floors, woodwork and furniture painted or varnished. A coat of white enamel on the cupboards and shelves will always make the kitchen brighter and more attractive.

Let this be a reminder! Think over what you'll need and buy it today. A newly painted cottage contributes a lot of cheer and comfort to anybody's vacation. Makes everything so fresh and clean looking.

S-W Family Paint

meets nearly all needs for interior painting, cupboards, shelves, ceilings, woodwork, etc. Easily applied, covers a large area and comes in all the popular colors. This is the best all-around household paint on the market.

For the Yacht

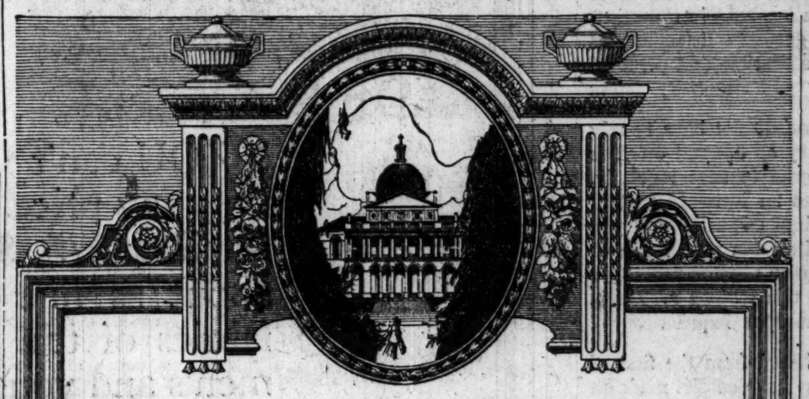

Blistering sun pouring down on the decks all day long is a pretty hard test for varnish. The varnish on your piano probably would not stand up under it. But S-W Rexpar is a special outside varnish. It's tough, elastic, thoroughly water-proof and is made for outside surfaces like yacht decks, front doors, etc.

Skilled Mechanics

Where the painting involves risk or is otherwise complicated a skilled painter with good paint is almost a guarantee.

"To Goon on Pilgrimages"

New England is treasure-trove to all lovers of American traditions. Plymouth is the Mecca which is bringing so many of them here this year. The four hundredth anniversary of the landing of our Pilgrim forefathers is an irresistible lure to all staunch-hearted Americans.

To those who, like the Canterbury pilgrims of old, are "longen to goon on pilgrimages," we wish to extend our heartiest greetings. We know that Boston will be one of the shrines of olden times which they will wish to visit. For Boston has so much to delight the visitor in both her old and her new beauties.

We hope that they will visit the different departments of our store while in Boston. We have been in business for one hundred and twenty years. Like the city in which we make our home, we have endeavored to live up to the best of the traditions of the past and to create traditions for the future which will also be of the best.

For the convenience of our customers and the comfort of our salespeople, our closing hour for the summer will be 5:00 o'clock, except on Saturdays, when we close at 1:00.

DOCS, DRUGGISTS, PROFITEER IN DRY LAW—LANDIS

Merle Inks' "Gastritis" Kicks Up Storm.

Chicago physicians and druggists who take advantage of the prohibition law to fatten their pocketbooks were denounced by Judge Landis yesterday after Merle Inks, charged with violation of the Mann act, had told of the case with which he had purchased a bottle of whisky.

"What this law is doing for certain physicians and druggists is obvious," said the judge. "They are in the game for the money. All they wish is for a man to go through the motions and they'll make out a prescription and fill it.

Warns Doctor of Trouble.

"But I wish to tell you," turning to Dr. H. M. Peterson, the physician who admitted prescribing for Inks without giving him a careful examination, "that you are headed for trouble. You had not the slightest excuse for giving that man a prescription."

He then ordered Assistant District Attorney James R. Glass to investigate the activities of Dr. Peterson and of H. M. Harris, 442 Cicero avenue, the druggist who filled the prescription.

Inks said he had resisted arrest because he had been drinking. He told where he had obtained the whisky and Harris and the doctor were soon in court.

"How many liquor prescriptions have you written for Dr. Peterson?" Harris was asked.

"About seventy-five in the last three months. I got twenty-four pints for $36.50."

"And you sell it for $3 a pint—a pretty good profit."

Inks Spills the Beans.

"What was the matter with Inks?" the judge asked Peterson.

"He was nervous and suffered from acute gastritis."

"Inks, what were you suffering from?"

"I was run down," answered the alleged accomplice of Irene McAuliff when she disappeared with the Frankfort Park postoffice receipts.

"Now, Dr. Peterson, tell me what objective symptoms of nervousness and gastritis did you observe."

"Practically none."

Then the judge exploded.

Mrs. Jane Dowie, widow of John Alexander Dowie, said yesterday that the principal reason for her coming to Zion City—which was founded by her husband—was to heal the sick. "I have had many instantaneous cures," she said. "Many progressive. I have healed quite a number in Los Angeles." She will attend the Independents' Feast of Tabernacles, and has announced her intention of uniting all factions of the independents—rivals of Wilbur Glenn Voliva, the present overseer.

Court Upholds Fines Imposed for Labor Meet

Pittsburgh, Pa., July 8.—Judge R. M. Kennedy, in court here today, upheld the conviction of six organizers of the American Federation of Labor for attempting to hold a street meeting in Duquesne, Pa., without a permit, last May, but reduced the fine of $100 imposed by the magistrate in each case to $25. An appeal, it was announced, would be taken to the United States Supreme court.

MEANS ON STAND TELLS OF AIDING SPIES OF KAISER

Used King $25,000 to Buy Rubber for Germans.

Gaston B. Means yesterday afternoon told of his dealings with German spies in this country prior to the entrance of the United States into the war. He was being cross examined in Judge Baldwin's court by attorneys for the Northern Trust company, which is fighting to have the alleged second will of James C. King declared a forgery.

"It was all "old stuff" to Means, who had been put through a series of similar questions two years ago.

"I was paid $100 a day by Capt. Boy-Ed and others," he said, after Attorney A. F. Reichmann had called his attention to a $25,000 canceled check drawn by King's widow, then Mrs. Maude A. Chance, in his favor in 1915. "I thus received $700 a week. Many times I received $1,000 a week, because I got a $300 bonus when I did some especially good work."

Asked what he did for the money, he replied he kept the Germans informed as to the amount and data of supplies shipped out of the United States to Great Britain.

He rehearsed the story of his dealings with Boy-Ed, Hoffman, and other members of the German Club in New York. He said they were looking for a market and he helped them find it. He also bought rubber for them. His connection with the then Mrs. Chance led to his taking her in on the scheme, and she gave him the $25,000 check with which to purchase the rubber.

He denied he had traded with the Germans after the United States entered the war.

Questioned concerning other financial dealings with Mrs. King, he said he could not answer without his papers. Attorney Robert Burkhalter, his counsel, told the court these papers were in the hands of the state's attorney.

Means will resume the stand this morning.

SWANN STUDIES ELWELL CHECKS PAID TO WOMEN

New York, July 8.—[Special.]—District Attorney Swann delved today into the payments which Joseph B. Elwell is alleged to have made to women.

Evidence that Elwell had been paying one woman $50 and another $400 a month is being investigated.

District Attorney Swann, who issued a typewritten statement on Wednesday that W. H. Pendleton's story in connection with the Elwell case had been contradicted by other witnesses, issued another statement today, indicating the contradictions were due to the mistakes of other witnesses. Pendleton was a business associate of Elwell's.

Elwell won $50,000 from a man in a crooked deal in one of his clubs and she knew about it, according to an affidavit which Mr. Swann says he has received from Mrs. Anna Kane in Ireland, Elwell's former housekeeper.

hame

Yes, it's a shame to keep on paying 2 for 25c and 15c for a good cigar when you can get *exactly the same tobacco*, from the same high grade mild Havana leaf, in a cigar at 8c.

SALOME does it. Short filler—made of the parts of the leaf that are left over after the long filler strips are used to make the high priced cigars. Then the new reinforced head is added to keep the scraps from getting into your mouth.

Here's the chance of a lifetime, Mr. 12½c Smoker. Cut the price of your cigars to 8c and still enjoy the same high grade Havana quality. Smoke the SALOME 8c straight. At all Good cigar & drug store cigar counters.

INTERCHURCH MOVEMENT TO BE KEPT IN ACTION

New Plans Provide More Economy.

New York, July 8.—[Special.]—The interchurch world movement will be continued, though on a greatly modified basis. One outstanding modification will be the spending of less money. This was decided by a unanimous vote this evening at a special meeting of the general committee of the interchurch and representatives of the thirty denominations who have been affiliated with it.

The report adopted was drafted by a subcommittee of which Bishop Thomas Nicholson is chairman. If the interchurch movement died, he said, the churches would show the same "reactionary tendencies" as the recent presidential conventions.

The session was held in the assembly hall of the foreign missions council of the United States and Canada, attended by 150 men and women from all parts of the country.

Baptists Will Give Aid.

To the surprise of many, both the Baptist and the Presbyterian denominations were represented, in spite of the fact that both had withdrawn from the interchurch, the Baptists after arranging to pay so much of the $2,500,000 as their leaders thought their share, for which they had underwritten the movement, and the Presbyterians after agreeing to pay the $1,000,000 which their executive commission undertook to raise for the movement.

The presiding officer was Fred B. Smith, vice chairman.

Austin Leader of Baptists.

The Baptist church was represented by Ernest L. Austin, director of public welfare in Philadelphia, who, a fortnight ago, in Buffalo, was elected president of the Northern Baptist convention, and also by H. R. Greaves, business manager of the board of promotion of the Northern Baptist convention, which has just raised $65,000,000.

The Presbyterian church was represented by two members of the executive commission. They were the Rev. Dr. Henry C. Swearingen, pastor of the House of Hope, St. Paul, Minn., and the Rev. Dr. George B. Stewart, president of Auburn Theological seminary, Auburn, N. Y.

SELF-INFLICTED WOUNDS FATAL.

Salvator Bascone, 47 years old, 837 South Morgan street, died yesterday of injuries received July 3 when, after shooting and probably fatally wounding Mrs. Margrete Mattio, he turned the revolver on himself.

Your Free Choice of Leathers and Styles—*and*

The earlier you come, the better your selection of models in your size at each price range.

Every pair regular Summer stock.
Every pair this season's styles.
Every pair guaranteed perfect.

Every pair backed by the Regal responsibility for service to you—exactly as if you paid the original price for them.

In other words, if they are not entirely satisfactory, you can exchange them or get your money back.

Remember

Not a pair of these Oxfords and Pumps was bought for this sale.

They are not "sale shoes"—or old stocks—or broken lots—or "odd" sizes—or "discontinued styles"—or anything else that means a compromise on your part when you wear them.

And again—remember

Such values at such prices are possible only because of the Regal policy of concentrating on the best styles and the finest leathers. Making and selling many pairs, with only a conservative profit on each pair.

We offer you these Regal values at special prices for quick buying.

They will save you even more of your shoe money than usual.

A Week's Cruise on 4 Great Lakes $72.50 Meals & Berth Included

Chicago to Duluth and Return
on the Big, New Cruising
Steel Steamship "North American"

Think of the pleasure on a warm, sultry day of leaving the din and dust of the city behind you and gliding out into the cool, refreshing waters of Lake Michigan for a week's cruise through four great lakes—a trip of over 2,000 miles of beautiful scenery, shore line, islands, rivers and bays—care-free, you will give yourself up to a spell of enjoyment — you will eat well and sleep well, and after a too quickly ending week you will return home thoroughly refreshed and invigorated. Take this wonderful trip

via Lake Michigan to Mackinac Island, via Beautiful St. Mary's River to the Locks at the "Soo;" via Lake Superior and Portage Canal to Houghton (Hancock) and Duluth. Returning via Lake Superior, Lake Huron and Georgian Bay (30,000 Islands) to Mackinac Island then via Lake Michigan to Chicago.

If you enjoy seeing places of interest, the numerous stops and short cruising distance from the shore, during the greater part of the trip, offer sights of wonder and beauty that are sure to please you. You can be quiet and excluded, if desired, or if you like a real good time there is the continual round of deck games, cards, etc., during the day, and dancing, musicales and other entertainments in the evening. If you want to go fishing or take a tramp in the woods, stop-over privileges at a number of points will enable you to do so.

For the children there are the open-air playgrounds and deck games, with attendant in charge to relieve the parents of care. Combined with all these pleasures, you will have conveniences and comforts on this magnificent steamer equal to those on the best Atlantic Liners. The dining service and food equal to that of the best hotels. All state-rooms and parlor rooms are outside rooms and have windows or ports to insure perfect ventilation. Have running water, call bells and electric light—beds have the finest mattresses and springs; extra long and extra large—bath and toilet in connection with parlor rooms and close by all state-rooms. Steamer equipped with wireless and every modern device for safety of passengers.

Canada's Change and Charm

Those who never before have visited Eastern Canada—Ottawa, Montreal, Quebec, the Maritime Provinces, the White Mountains and Seashore—have a rare treat in store. Everything is different—people, customs, architecture, scenery climate; in some places, even language.

Taken all in all, a Canadian trip is worth every cent it costs, which is reduced by the round-trip summer fares in effect over the Grand Trunk Railway, the tourist's double-track route. Canada gives

A Real Vacation

a mighty interesting, scenic and historical tour.

Enroute one can stop at Toronto and run up to the Canadian Highlands, Muskoka Lakes, Lake of Bays, Algonquin Park, etc.

The Grand Trunk is admirably prepared to handle this summer's business, having special train service, hotels, camps, golf courses, and lake and river cruises, including the famous descent of the St. Lawrence.

SANITARY BOARD SPEEDS TO SOLVE WATER DISPUTE

Speed in meeting the crisis in the affairs of the sanitary district as a result of Judge Landis' recent decision cutting down the amount of water which may be taken from Lake Michigan is the policy of the district trustees. Yesterday an ordinance was passed by which it is hoped objections of the government to a larger flow will be removed, millions of dollars will be saved to the taxpayers, and a more efficient system of sewage disposal will be created.

By the terms of the ordinance the sanitary district will construct weirs in the Niagara and St. Lawrence rivers to maintain the levels of the lakes. The cost will be in the neighborhood of $3,500,000. The ordinance is an answer to the Landis decision handed down a few weeks ago by which the district was enjoined from exceeding the withdrawal of 4,167 cubic feet per second fixed by the war department. More than 8,000 cubic feet are taken now.

When the contemplated works in the Niagara and St. Lawrence rivers are completed, according to E. J. Kelly, chief engineer of the district, they will prevent the lowering of the levels of the great lakes and thus remove all objections from navigation interests. It is the hope of the trustees that then congress will authorize a diversion of 10,000 cubic feet per second.

Trustee Wallace G. Clark, chairman of the engineering committee, presented the ordinance and spoke in behalf of its passage.

"If we are enjoined from taking more than 4,167 cubic feet per second from Lake Michigan," he said, "it will be necessary to expend in the construction of works to purify sewage artificially upwards of $150,000, and the cost of operating and maintaining such works will exceed $5,000,000 yearly."

Trustee Patrick J. Carr pointed out that even with a system of treatment plants such as described by Mr. Clark, the health of Chicago still would be imperiled. He said that with only the limited withdrawal of 4,167 cubic feet, in times of high water the Chicago river would flow into the lake and carry with it a vast amount of impurities that would pollute the drinking supply.

WESTERN KNIFE WIELDER IS HELD FOR SANITY TEST

John C. Todd, 35 years old, claiming to hail from North Platte, Neb., is slated to spend a week in the Psychopathic hospital as a result of a stabbing affray which he conducted in the loop yesterday.

JOHN C. TODD. [TRIBUNE Photo.]

Todd was arrested at West Randolph and North La Salle streets after he had threatened a chauffeur, stabbed a policeman and cut another man with a large pocketknife. He first said he was the owner of a 150 acre ranch near North Platte. Later he claimed he was a telegraph operator. A sanity report will be returned after a week's surveillance of Todd at the hospital.

Policeman Eugene Herbis, traffic officer, arrested Todd when he brandished a knife in an argument with a chauffeur. The westerner broke away from Herbis after slashing him on the arm.

LOUISIANA BALKS AT SUFFRAGE AS COX PLIES WHIP

Baton Rouge, La., July 8.—Efforts to suspend the rules of the house of representatives of the Louisiana legislature so as to act on the suffrage amendment before adjournment of the session tonight failed today, the motion being voted down, 52 to 46.

Help to suffrage had been urged by James M. Cox, nominee for president.

Clement Still Undecided.

Rutland, Vt., July 8.—Gov. Clement, returning to his home here today for the first time since his conference in Washington with Senator Harding regarding a special session of the Vermont legislature to make possible ratification of the woman suffrage amendment, said he was still undecided as to a special session.

FIRST—To release the sealed-in flavor, place unopened can in boiling water for ten minutes. The heat releases and intensifies the flavor.

NEXT—Open in the usual way, placing cloth around hot can to protect hand and strengthen grip.

THEN—Serve piping hot and you'll notice their wonderful sealed-in flavor and exceptional goodness.

That Elusive Natural Flavor

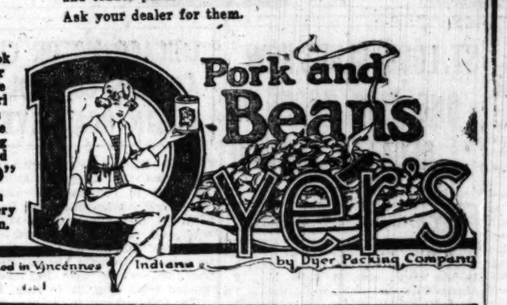

In ordinary cooking, much of the flavor is lost—goes into the air, carried away by the steam evaporation.

Dyer's Pork and Beans are finally cooked in the can—with all their goodness sealed in. You can realize what that means.

All the flavor is cooked into the beans. It can't escape. Delicious with tomato sauce and tender pork.

"Babe" Ruth never hit a ball harder on the nose

than the writer in The New Republic (a New York newspaper) did when he wrote the article, "How it happened." It refers to clothing merchants (not us) and the high prices of clothing. Especially one paragraph. It is very plain and outspoken. Read it.

"Their margin of profit enabled them to carve a thick slice from the body of prices without actually losing money."

☆ ☆ ☆ ☆

Is it right to charge a man $100 one week for a suit, and then a week later advertise it at $65—is it?

Anyhow, we don't do it.

Our prices do not change; they are sold at the very lowest price at the start, and stay low.

One merchant says, "Somebody has to stand the gaff to make present prices possible."

We wonder if **the man on the street** isn't getting wise to the fact that **he** has been standing **most** of the "gaff!"

And not many weeks ago they were telling you "prices for fall will be higher—it will cost us **more** to replace these goods than you pay for them"!!

Oh, boy! And then—

—you know how a couple of Eastern merchants—one in Buffalo, another in Philadelphia (old timers, too, and well established)—were indicted by the grand jury on evidence of 65% to 100% profit!

They bought suits at $40 and sold them for—$80!

Enough said about **others**: now here's a proposition from **us**—for **you**:

A hand tailored all-wool suit in the latest style with pure linen fronts, silk sewn, at **$25**

A **suit**, mind you, coat, vest and trousers, with over 3½ yds. of fine all-wool cloth in it, for **the price of a silk shirt in some high rent stores.**

We can give you that kind of value because we save money on **second and third floor rents; plain, neat fixtures; production in our own shops; cash payments from all; no floorwalkers; no plate glass.**

Just good clothes at $25, 30, 35, 45, saving you $10 to 20 on the same quality in any store in town. Try it.

ONE WORD MORE—Note that you're not urged to buy now because prices will go up **soon.** Don't buy now if you don't need 'em—we'll have plenty of all-wool beauties in September or November—at low prices—and **all** the value in the **clothes**, not in the **fixtures** and the **rent.**

Good hats, too, at saving prices—$3.50 4.50 5 and 6

CONTRACTS PUSH JACK-GEORGES GO INTO NEXT YEAR

New York, July 8.—[Special.]—The last lingering hope that Jack Dempsey, heavyweight champion of the world, might defend his title against Georges Carpentier before the end of the year, went up in a tiny puff of smoke this afternoon.

FRANCOIS DESCAMPS.

After more than an hour of earnest but futile discussion, the conclave of managers ended exactly where it began. The only definite fact which emerged from the verbal battle was that the championship bout will not be held during 1920 unless one of a dozen very unlikely occurrences take place.

Prior Contracts Bob Up.

The rock on which the plans of the managers and promoters split was that of contracts, the sanctity of which formed the basis of more than one speech during the meeting. First of the obstructions was the agreement between Francois Descamps, Carpentier's manager, and Charles B. Cochran, English promoter, which links the French fighter to Cochran until Jan. 1, 1921.

The second of the contracts to bar the path was that the ring battle between Carpentier and Battling Levinsky, the promoter of which is Jack Curley, manager of Carpentier's recent tour.

A Gathering of Notables.

Those present at the open meeting, in addition to newspaper men, moving picture photographers, and followers of both sides were Jack Kearns, Dempsey's manager; Georges Carpentier and his manager, Francois Descamps; Jack Curley, promoter of Carpentier's tour; Tex Rickard, who promoted the Willard-Dempsey bout, and William A. Brady, theatrical producer, who acted in the dual capacity of chairman of the meeting and representative of Charles B. Cochran.

The developments of the meeting were these:

Carpentier's next bout will be on Oct. 10 in this country with Battling Levinsky, light heavyweight champion.

Dempsey's next encounter will be with Bill Brennan, followed by bouts with several others of the heavyweight field, notably Fred Fulton, if the later wins his clash with Harry Wills in this city July 15.

Dempsey will not fight Carpentier in any other country than the United States, and he will sign no articles until after the Levinsky bout.

Jack Demures at Foreign Soil.

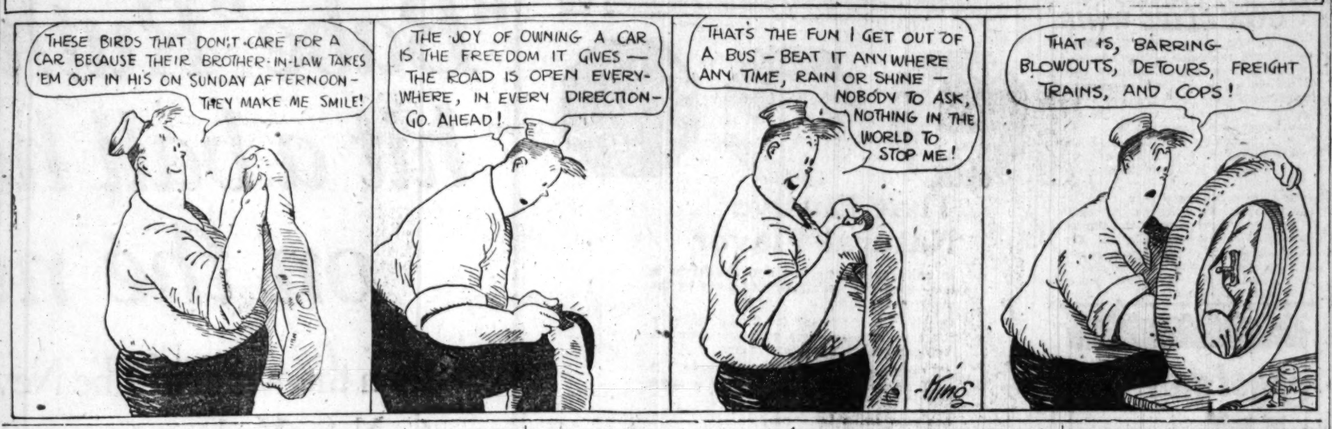

It was evident at the meeting that the Levinsky contract is the greatest stumbling block in the path of both Dempsey and Carpentier. William A. Brady, who represents Cochran in the United States, was told definitely by Kearns that Dempsey would never meet the Frenchman in an European ring, thus making Cochran's contract worth nothing.

Jack Kearns, who is promoting the Carpentier-Levinsky battle, rejected Kearns' suggestion that the bout be postponed and refused even to approach Dan Morgan, Levinsky's manager, with the suggestion. Kearns offered to pay both Curley and Morgan a substantial forfeit if they would postpone the bout, but to no avail.

Back to France Today.

Carpentier's plans call for departure on La Touraine tomorrow. He will remain abroad until Sept. 6, when he will take a steamer for this country to prepare for the clash with Levinsky. Following this he will again return to France, where he will stay until it is time to return to the United States again for the Dempsey bout, which cannot be held until some time in 1921.

CLAY COURT NET ENTRIES CLOSED

Entries for the tenth annual clay court tennis championship were closed last night, except for nominations in the malls which may be received from out of town players. The committee in charge will prepare drawings today for the first round of singles, which will be launched at the South Side Tennis club tomorrow afternoon.

Three prominent players whose nominations were received yesterday are: Ira H. Reindel of Detroit and J. B. Adoue Jr. and Evan Rees of Dallas, Texas. Reindel was Detroit city champion last season. Adoue and Rees will pair for doubles. Adoue twice formerly was on the winning southern states doubles teams.

One hundred and seventy-three singles entries and more than sixty in doubles were in the hands of the committee last night, making a record in both classes for the tourney.

Western Cyclists Go East for Final Olympic Trials

Six of the fastest bicycle road riders in the United States, who won in the western elimination bicycle trial of 108.74 miles from Milwaukee to Chicago, June 6, which entitles them to compete in the final olympic trial at Long Island Sunday, were sent east last night by Julian T. Fitzgerald.

Members of the team are Ernest Kockler, Carl Stockholm, Paul Van De Zande, Walter Witzke, William Teutchler, and Warren Cotterrell.

ARMY NINE WANTS GAMES.

The baseball team of the city motor transport office desires games with teams in Chicago or immediate vicinity for Saturday afternoons or Sunday. Communicate with Lieut. W. H. Howard, 2545 Lime street, Chicago, or telephone Yards 181.

BIRD NOTES.

SEEN and heard on a twelve mile auto drive in southern Michigan: A male bobolink in breeding plumage with his bill full of worms, perching on a fence post so close to the road that we could have flicked him with a buggy whip, only they do not have whips in motor cars, although in the early days of the auto a carriage maker turning out bodies delivered them with whip sockets; a kingbird furiously chasing a marsh hawk while the hawk's mate sailed serenely over a marsh on the other side of the road; a cowbird chasing a green heron, the latter making all sorts of unearthly noise; a pair of field sparrows dusting themselves in the road and leaving it very reluctantly; four mallards heading for Lake Michigan; a mother mudhen with three babies; a pewee and a phoebe both calling at the same time, giving a good demonstration of the calls that are so often confused by the young bird student, the phoebe's being short and businesslike, while the pewee's has a mournful tone; an immense flock of house sparrows, noisy and quarrelsome, like a gang of young city hoodlums out to show the country hicks a little city speed; an oriole hanging head down, looking for bugs on the under side of the leaves, and making a queer, chuckling sound; a pair of summer yellow birds flying up and down like catboats in a Lake Michigan sea; a male indigo bunting, singing much like a canary; a wood thrush singing just as we arrived home, the best treat of the day.

* *

While in Wisconsin last week we visited what is said to be the largest colony of bank swallows in the state. It is in a big sandpit a few miles from Oshkosh and we would estimate that there are 2,000 nests drilled into the sand banks.

The babies show not the slightest fear of humans and one of them obligingly rolled out of his nest so we could take his picture, after which we put him back again, although we are not sure whether or not we got him in the right place, but we guess it doesn't make much difference, as they all look alike anyway.

DAVIS CUP PLAY HALTED BY RAIN

Eastbourne, England, July 8.—Continuation of the present week's soaking rains halted the first match in the Davis cup tennis preliminary round between United States and France this afternoon, with W. M. Johnston, America, leading Andre H. Gobert, France, 4 to 3, in games. The match will be resumed tomorrow, providing the weather is satisfactory, when W. T. Tilden, America, also is scheduled for a singles contest against W. H. Laurentz, France.

The first sunshine in six days made play seem possible this afternoon, but after the contestants took the courts a westerly gale blew up and heavy rain drove all indoors.

VARDON AND RAY DEPART FOR U. S.

LONDON, July 8.—Harry Vardon and Edward Ray, British professional golfers, left London this morning to board the steamer Celtic at Liverpool for New York. With them was Jim Bardes, American professional, who finished fifth in the British open. Barnes said before departure that he would come to England again next year to try his fortune once more in the open event.

ST. LOUIS CLUBS ROW ONE, TWO, THREE IN REGATTA FEATURE

STANDING OF CLUBS

Grand Rapids Boat and Canoe club	4½
Western Rowing club, St. Louis	3
Central Rowing club, St. Louis	2
Lincoln Park Boat club	1½
St. Louis Rowing club	1

Pulling a twenty-eight stroke, which was increased to thirty-six in the last 100 yards, Western Rowing club of St. Louis yesterday won the three-quarter mile junior barge race, feature event of the opening of the annual central states regatta, held in the lake north of the municipal pier. Central Rowing club of the Mound City was second and St. Louis Rowing club third.

Coming from behind in the last twenty feet, Joseph Kortlander of the Grand Rapids Boat and Canoe club won the quarter mile dash for singles after the rough water had made it necessary to hold the event on the south side of the pier. The Michigan oarsman took the event from his teammate, Julius Petersen, and James B. Salem of the Lincoln Park Boat club by six feet. The judges were unable to agree on second and third places and finally agreed to call it a tie for second place between Petersen and Salem.

Lake Rough, Delays Start.

Rough condition of the lake caused a long delay in starting the program. The officials had hopes of the lake quieting down, but at 4 o'clock decided to hold the barge race. After this contest the sea became rougher, and it was decided to postpone the remaining junior events until 10 o'clock this morning.

The junior event will be followed by the senior contests, which will be featured by the eight oared, four oared, double and single shell races. The senior program is set for 2:30 o'clock.

Summary of Events.

Three quarters mile barge race, junior—Won by Western Rowing club, St. Louis [Abbettmejer, stroke; Bräuch, No. 5; Rickenberg, No. 4; Schmitt, No. 3; Ferber, No. 2; McCormick, bow; Miller, coxswain]; Central Rowing club, St. Louis, second; St. Louis Rowing club, third. Time, 4:16.

Quarter mile dash, singles, junior—Won by Joseph Kortlander, Grand Rapids; Salem, Lincoln Park, and Petersen, Grand Rapids, tied for second. Time, 1:24 1-5.

MONARCHS LOSE TO AMER. GIANTS

American Giants defeated Kansas City Monarchs, 6 to 1, at Schorling's park. Tom Williams allowed only five scattered hits. Grant hit a home run in the third inning, scoring Gans ahead of him. Score:

NORTHEASTERN GOLF DATES.

Officials of the Northeastern Golf association issued dates for their annual tournaments yesterday. The ladies' championship will be played at the Sheboygan Country club, Sheboygan, Wis., July 20-21-22, and the man's championship at the Lakeside Country club, Manitowoc, Wis., Aug. 12-13-14. M. A. Carroll is the secretary of the association.

CHICAGO MOTOR CLUB ASSUMES CONTROL OF ELGIN ROAD EVENT

THE Chicago Motor club supersedes the Chicago Automobile club in combination with the Elgin Automobile Road Race association, in conducting the 1920 road race and the contest board of the American Automobile association will be asked to transfer the sanction for the race, whose date has been advanced from Aug. 21 to Aug. 14.

The Chicago end of the race was released by the Chicago Automobile club voluntarily and the combination of the Chicago Motor club and the Elgin association was the result.

President Hayes will name a number of important committees to take up the work of boosting the event, which has been given championship award by the contest board of the A. A. A. The actual committee which will have charge of the race will consist of Charles M. Hayes, Charles R. Hall, and Owen O'Malley on behalf of the Chicago Motor club, and Fred W. Jencks, H. P. Branstetter, and Charles P. Root representing the Elgin association.

It was the Chicago Motor club that inaugurated the Elgin race and conducted it with the Elgin association for a number of years, so that the race now is in the hands of the original promoters.

INDIAN HILL TOPS IN PLAY FOR TITLE AND WATSON TROPHY

BY JOE DAVIS.

Indian Hill golfers topped the field in the second round of play for the north side team championship and the Hathaway Watson trophy at Exmoor.

The Indian Hill quintet scored a total of 92½ points, Miss Elizabeth Klotz leading with a card of 89. Mrs. Mason Phelps of Onwentsia, and Miss Corella Lukens of Edgewater tied at 93, and Miss Ernestine Pearce of Skokie had 95.

Other Team Totals.

The other team totals were: Onwentsia, 70½; Skokie, 68; Exmoor, 58½; Glen View, 48½; Evanston, 46½; Edgewater, 31; Westmoreland, 4½.

Indian Hill has a grand total of 172½, Onwentsia being second with 134 and Skokie third with 128½.

Scores for the Hathaway Watson trophy were: Indian Hill, 50¾; Onwentsia, 31½; Skokie, 29½; Exmoor, 24½; Glen View, 14.

Pros Play July 26.

The qualifying round for midwestern section of the Professional Golfers' association championship will be played on a Chicago course July 26. Play will be at thirty-six holes and there will be an entrance fee of $5. Eight players are eligible to qualify from the midwestern section. The final tournament will be staged at Flossmoor in August.

PRINCETON WINS DUAL TRACK MEET AGAINST OXFORD

LONDON, July 8.—Taking six firsts in ten events, Princeton university won the international dual track meet with Oxford at Queens' club this afternoon. The American team won six second places and five third, or by the American system of reckoning, 53 points to Oxford's 37.

D. B. LOURIE. [Turner Photo.]

A smart crowd of spectators, including the Duke of York, Admiral Baron and Lady Beatty, American Ambassador Davis, Viscount Bryce, and President Hibben of Princeton, was much inconvenienced when rain threatened to end the program half completed, but all gamely stuck out the meet, which was finished in sunshine.

Oxford scored all four firsts on the track, B. G. D. Rudd, who captained the combined Oxford-Cambridge team in the University of Pennsylvania relay games, winning the 440 and 880 yard races. Milligan won the mile, and Montague the three mile.

D. B. Lourie of Peru, Ill., a member of the Chicago Athletic association, shared individual honors with Rudd, winning two firsts for Princeton, in the running broad jump and 100 yard dash. The Americans were superior in the dash, hurdles, and all field events. Summaries:

100 yard dash—Won by Brown, Princeton; Rudd, Oxford, second; Clark, Princeton, third; Wood, Oxford, fourth. Time, :10.

880 yard run—Won by Rudd, Oxford; Murrey, Princeton, second; Kent-Hughes, Oxford, third. Time, 1:59 4-5.

Three mile run—Won by Montague, Oxford; Swede, Princeton, second; Broadbent, Oxford, third; McCulloch, Princeton, fourth. Time, 15:16.

One mile—Won by Milligan, Oxford; Montague, Oxford, second; McCulloch, Princeton, third; Swede, Princeton, fourth. Time, 4:31 1-5.

440 yard run—Won by Rudd, Oxford; Stevenson, Princeton, second; Adams, Princeton, third. Time, :50.

120 yard high hurdles—Won by Erdman, Princeton; Trowbridge, Princeton, second; Jeppe, Oxford, third. Time, :15 2-5.

High jump—Won by Thomson, Princeton; Sweet, Princeton, second; White, Oxford, third. Height, 5 feet 9¾ inches.

Shot put—Won by Halsey, Princeton; Cleveland, Princeton, second. Distance, 44 feet 5½ inches.

Hammer throw—Won by Spears, Princeton; Wood, Oxford, second. Distance, 137 feet 7¼ inches.

Broad jump—Won by Lourie, Princeton; Ford, Oxford, second; Thomson, Princeton, third; Ingrams, Oxford, fourth. Distance, 21 feet 6 inches.

That office boy was a good picker

IT WAS my busy day.
AND I told the boy,
I COULD not see,
ANY VISITORS,
AND HE popped back,
AND SAID there was,
A GENTLEMAN outside,
WHO WISHED to enquire,
AND I said "No"
BUT I guess the boy,
IS LIKE my wife,
AND DOESN'T know,
WHO'S BOSS.
FOR BACK he comes,
AND SAYS the man,
WANTS JUST a word,
AND I told the boy,
I COULD tell the man,
JUST WHERE to go,
IN JUST three words,
BUT THE boy came back,
AND SAID the man,
COULD SPOT me one,
HIS BUSINESS needed,
JUST TWO words,
AND I'M a sport,
AND CURIOUS too,
SO IN he came,
AND HANDED me,
SOME CIGARETTES to try,
AND SAID "They Satisfy,"
AND I will state,
HE SAID something.

"THEY SATISFY"—that says it. Never were finer tobaccos used in any cigarette and never were tobaccos more carefully and skillfully blended. Chesterfields give you all that any cigarette could give, plus a "satisfy" quality that is exclusively theirs. The blend can't be copied.

BY I. E. SANBORN.

Fresh from their series of scraps in Smokeburgh the Cubs fought the Giants off their feet in the opening game of the set yesterday and came out on the long end of an 8 to 5 score.

FRED TONEY.

Beginning with a bunch of teasing bunts of the kind Fred Toney loathes, the Bruins had McGraw's rhinocerosian hurler so fussed up inside of three rounds that he wanted to lick his catcher and audibly invited Snyder to remove his mask and protector. At the end of the seventh, Toney's hide had been punctured by fourteen safe swats, graduated all the way from a puny bunt to a yard home run, and McGraw mercifully removed the big fellow from the range of further humiliation.

Long Lead Helps Tyler.

By piling up five runs in three innings the Cubs gave George Tyler a comfortable battle in spite of the fact the Giants combed some of his benders for long drives, including one blow over the right field wall by Larry Doyle in the second spasm. Ty lasted the string out and was as good at the finish as at the start.

Twombly was the kid who started the humiliation of Toney and also the lad who lammed out the four bagger inside the lot. But everybody took a whack at the ponderous flingerhand to get at least one safety, while Herzog led all the rest with three hits, two of them doubles.

Cubs Start Bunting Tactics.

Following a blank for the Giants in the first, Twombly bunted to Kelly and beat Toney to first by a couple of steps, then stole second cleanly. Hollocher bunted, but Frisch got that one and threw him out. Terry combed a double to left, scoring Twombly, went to third on a passed ball, and was doubled at the plate trying to score on Robertson's pop fly to Burns.

Two gone in the second, King singled and Doyle rapped a liner over the fence good for two runs, but that lead did not last long. The Cubs came back with some more bunting and scored two in their half. Barber led with a slow bunt on which Toney could not cover first in time, went to third on Herzog's two bagger, and scored on Killefer's grounder to Bancroft, beating the throw to the plate. This play put Herzog on third and he scored after Young pinched Tyler's tall fly.

Pass Starts Two Runs.

A pass to Hollocher in the third was followed by Terry's sacrifice and a three base knock by Robertson, which scored one tally. Dave came home a minute later on Barber's loft to King.

The Giants cut down this lead by one run in he fourth on Frisch's triple and a single by King, but in the sixth the Cubs went still farther in front with three runs. Herzog led with a double, Kellefer singled, and Twombly scored both of them and himself on a blow which bounded all around the left field corner. The Giants scored a pair of useless runs in the eighth on a pass and two swats.

NOTES OF THE CUBS

New York again today.

Tyler lost a spike in the second inning and the game was held up while he was being reshod on the bench.

Herzog and Hollocher rang up batting averages of 1.000 apiece. Buck made three hits and a sacrifice in four chances and Holly drew three passes, and made a hit and a sacrifice in five times up.

After Toney had given Hollocher his first walk in the third inning the big pitcher and Snyder had a chewing match, during which the pitcher invited his catcher to take off his mask, but Snyder merely gave him a strained grin and Umpire Klem ordered them to "break."

NOTES OF THE SOX

Philadelphia, Pa., July 8.—[Special.]—Another battle between Sox and Macks tomorrow. Looks like another victory, for Williams is slated to hurl.

Nemo Leibold captured a vicious line drive in right center from the bat of Myatt, a husky young catcher from the Texas league, who is trying to get into the big league by way of Mack's team.

In the second inning Joe Jackson skidded along the left wall, brushing a blue coated copper aside and making a swell catch of Dyke's long drive, which was ticketed for about three sacks. The copper would have been justified in pinching Joe for robbery.

Hap Felsch figured on adding a home run or two to his total when he saw a left hander on the slab, but the young southpaw kept the ball on the outside edge of the plate. The best Hap got was a single to right field. It's just a nice poke for Hap in the left field bleachers here when he gets hold of one.

PHILS TAKE 1-0 PITCHERS' DUEL FROM PIRATES

Pittsburgh, Pa., July 8.—Pittsburgh defeated Philadelphia, 1 to 0. Adams and Meadows engaged in a pitchers' battle, the only run of the game being scored in the eighth inning on hits by Adams and Carey, Fletcher's error, and a sacrifice fly by McKechnie. Score:

BY JAMES CRUSINBERRY.

Philadelphia, Pa., July 8.—[Special.]—Without straining themselves in the least, the White Sox bumped off the Athletics in the first game of the series here, 8 to 5, and incidentally won their sixth straight victory. Only in the ninth inning were Mack's youngsters able to do anything with Eddie Cicotte's benders. Eddie started that round by passing two men and before he could get the side out there were two doubles and a single and another walk, all of which netted five tallies.

In spite of the rally the Sox displayed no concern, but the fans went into quite a spasm of delight. Previous to the coming of the Sox the Macks had won three straight games, a winning streak such as has hardly occurred in this city since 1914.

Hasty Comes Forth Late.

A couple of young huskies did the hurling for Mack, Roy Moore drilling some beautiful left handed curves at the Sox for eight innings and a part of the ninth, after which a giant named Hasty came forth and fired some right handed shots at the enemy.

Not until the seventh were the Sox able to solve Moore's delivery. In that round they knocked in three runs. In the ninth they knocked in a couple more with no one out when the giant Hasty was rushed out as if to save the ball game. Before he could get three men out the Sox walloped in three more runs.

John Collins a Slugger.

A couple of three baggers by Shano Collins, one in the seventh round and one in the last, did a large portion of the damage to the home team.

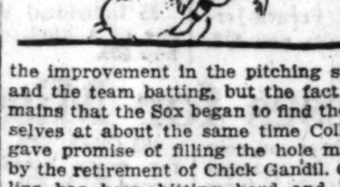

Joe Jackson gathered three singles, two of which were useful, and Risberg delivered a couple of punishing blows.

In the Wake of the News

JACK COLLINS.

JACK COLLINS at first base is the principal reason why the White Sox, with heads up, are out fighting for the lead in the American league pennant race instead of trailing in the second division as a disorganized team.

Possibly that is putting it a bit strongly for those fans who have noted

the improvement in the pitching staff and the team batting, but the fact remains that the Sox began to find themselves at about the same time Collins gave promise of filling the hole made by the retirement of Chick Gandil. Collins has been hitting hard and has fielded better than in previous essays at the initial bag.

Jack's renaissance is the more remarkable from the fact that this veteran, serving his eleventh season with the Sox, has tried to play first base before at times when the team needed a first sacker almost as badly as now and never looked good enough to retain the job permanently. Even from his regular outfield position, Collins has been shunted frequently in the last few years. His present opportunity followed an injury to Jourdan.

If Collins can maintain his present pace at first base, the Sox's pennant chances will be immeasurably improved, for in a close race marked weakness even in one position is fatal.

Before the Chicago fire and a few years after, the old Scammon school was located on the present site of Smyth's store in West Madison street. California has nothing on us when it comes to native sons and daughters. Right around old St. Patrick's church, the neighborhood was alive with them.

There was the Plamondon family, the Wilces, Chalmers, Grahams, Campbells, Lanes. Further east, the Magnus family of three boys and a girl, and going west a little way the Schillers, Nobles, Farwells, Downs, and Andrews. Charlie Andrews had the honor of introducing Edith Kingdon Gould to the public.

David Belasco's present wife was a pupil at the Scammon, a girl envied by all the other girls because of her rare beauty. Henry Vanzwoll was the principal and woe betide the luckless youngster who dared disobey or who was late for school.

TRUSTEES TAKE OVER 11 MILLION SILK CONCERN

Collapse of Jap Values Causes Trouble.

New York, July 8.—The Klots Throwing company, a silk importing and manufacturing concern with fifteen plants in New England and the middle Atlantic states and offices in Japan and China, today was placed in the hands of trustees to continue the business.

The collapse of silk values in Japan, cancellation of orders and subsequent difficulty in getting liquid capital after most of its profits had been put into plants brought about the present acute situation in the company's financial affairs, it was stated.

The three trustees appointed are Charles Cheney, William Skinner, and A. P. Williams, all of New York.

The house was said to have assets of $11,000,000 exclusive of plants, as against liabilities of only $8,000,000, but lack of sufficient assets in liquid form to meet immediate demands was given as the cause of appointing the trustees.

JAPAN DISLIKED BY WHOLE WORLD, LAWMAKER SAYS

TOKIO, July 7.—Delayed.—[By the Associated Press.]—Umeshiro Suzuki, member of parliament for Tokio, in an attack on the budget in the house of representatives today, declared Japan was disliked by the whole world and asked if the government had any definite policy to steer it through the present critical period.

Premier Hara, in reply, said he did not think that Japan was disliked by the world at present, but that, on the contrary, he was inclined to the opinion that Japan was fairly on the way to be regarded as a progressive nation and one of the five great powers.

There were undoubtedly many things which Japan, as a great nation, must be more watchful about, the premier added, but he wanted to denounce the attitude of the minority which considered it had the privilege of making indiscriminate attacks.

BOOST CHICAGO AT HOME FIRST, PLAN OF MAYOR

Publicity Campaign Moves Decided Upon.

Mayor Thompson's $250,000 boost Chicago campaign is to begin at home. At a meeting of the directors of the Boosters' Publicity club with Mayor Thompson and the club's advisory and advertising councils yesterday it was decided that, owing to the money scarcity and the prevailing high interest rates, it would be unwise to begin a nation wide campaign to bring industries to Chicago at present. Preparations for an intensive local campaign are to be made at once.

HARRY DE JOANNIS.

Plans Are Approved.

The following plans, submitted by the advertising council, were approved by the board of directors:

A series of boost Chicago lessons for school children to educate them in Chicago's greatness.

Establishment of a boost Chicago booth in the city hall lobby at which pamphlets on all Chicago's big industries and chief attractions will be available.

A bill board advertising campaign along railroads leading to Chicago.

Distribution of a guide to Chicago's attractions to all passengers on incoming trains.

A city-wide photographic contest, in which prizes will be awarded for the best pictures of Chicago points of interest.

Organization of a group of four minute boost Chicago speakers to address conventions and moving picture audiences.

Filming of a Chicago moving picture, with the scenes laid in Chicago parks and on Lake Michigan.

Establishment of a Chicago information service at the club's newly opened headquarters, 513 Mallers building.

Name Publicity Director.

Harry de Joannis will be in charge of the headquarters as director of publicity. W. C. Mack was named executive secretary of the club yesterday.

"Through the distribution of Chicago's message we expect to convince the traveler who fears he will be robbed or murdered between railroad stations that he should give Chicago a chance—spend a day with us," said Mayor Thompson.

"We believe that if the visitor stays one day he will stay two days next time and a week on his third visit."

Link Pays for Itself.

In discussing Chicago's advantages the mayor said that the $16,000,000 boulevard link is paying for itself "every six months" in time and gasoline saved.

"The link has increased the value of Michigan avenue property $5,000 a front foot," the mayor declared. "It has added 20 per cent to the traffic capacity of the street and when tunnels for pedestrians are completed beneath the street at Van Buren and Randolph streets the capacity will be boosted another 10 per cent."

Film Firms Win Victory Over New Fire Ordinance

Forty-six Chicago moving picture film companies won a victory yesterday against the new fire ordinance. An injunction temporarily restraining the city from enforcing the ordinance was granted by Judge Foell against the Superior Screen Service company, representing the other concerns. The film companies declared part of the ordinance requiring the remodeling to fireproof construction of buildings where films are stored would cost them millions and ask time to construct a fireproof building in which all the concerns may be housed.

Woman Sues Landlord, Claiming He Beat Her

While Mrs. Esther Bergman was getting ready to move from her apartment at 1027 South Hermitage avenue last Friday in compliance with the orders of her landlord, Abe B. Krieger, the latter knocked her down and kicked her and his son, Henry, tried to set fire to her clothing, according to her attorney, A. M. Goldman. Yesterday Goldman filed the praecipe in a $25,000 damage suit against the Kriegers.

Fail to Identify Woman Killed with Olaf Olson

The woman killed at Haskell, Ind., while riding with Olaf Olson, Chicago contractor, in his automobile, remains unidentified. Olson's brother, Nels, says he never saw the woman alive. Olaf's wife and child have been in Sweden for five years.

Highland Park Residents in Harding-Coolidge Club

Highland Park residents have formed the first north shore Harding-Coolidge club. Temporary headquarters offices have been obtained and a summer and a fall campaign program is being formulated. The first meeting will be announced soon.

High Wages Bring Phone Company 1,700 New Girls

The recent increase in the wages of telephone operators following the boost in telephone rates has permitted the company to hire between 1,700 and 1,800 girls, who are being trained to become operators.

Off the Wires

Three North Shore Telephone Girls Who Recently Have Hearkened to the Call of Romance.

Above—Miss Helen Rogan. Below, left to right—Mrs. Helen Wygal and Mrs. Irene Smith.

THREE more north shore telephone operators have succumbed to the wiles of Cupid. The latest victim is Miss Helen Elizabeth Rogan, night operator at Highland Park, whose parents yesterday announced her engagement to Charles A. Baker of 938 St. John's avenue, Highland Park. Their romance commenced when both started to school. The marriage will occur next year.

Miss Irene Booth, formerly of the Highland Park exchange, has returned to her duties at the Fort Sheridan switchboard as Mrs. Carl Smith. She met her husband during a heavy rainstorm two months ago. He was attached to the motor transport corps at the fort and volunteered to take her in an army automobile to the street car during the storm. They eloped and were married in Chicago recently.

Mrs. Laurence Wygal of the Fort Sheridan exchange was until recently Miss Helen Sodman. Her husband is a member of the post's military police company.

RICH STOKERS DRIVE TO SHIP IN LIMOUSINES

New York, July 8.—The "millionaire crew" which brought the Scandinavian American liner Frederick VIII here two weeks ago, returned in taxicabs and limousines to the Hoboken pier today, and went back to stokehole and forecastle to start back home with the vessel—the first to sail for Copenhagen in five months.

The crew, members of some of the oldest and wealthiest families in Denmark, enlisted for service during the Copenhagen harbor strike and although the walkout ended shortly before the Frederick VIII sailed for America, they stuck to their jobs.

They asserted they enjoyed their two weeks' vacation ashore, two going as far as San Francisco.

Aurora-Elgin Employes Accept New Wage Offer

Aurora, Ill., July 8.—[Special.]—Employés of the Aurora, Elgin and Chicago railroad today voted, 303 to 88, to accept the company's offer of a 27 per cent increase in wages to car men and less to men in the other branches. City and interurban trainmen get from $160 to $171 a month, while third rail trainmen will average about $200. Shopmen's pay will range from 45 cents an hour to 80 cents.

American Woolen Mills to Close; Make 14,000 Jobless

Lawrence, Mass., July 8.—[Special.]—The four local mills of the American Woolen company, employing approximately about 14,000 persons, will close this evening for an indefinite period because of business conditions and lack of orders.

MEADS A FIGURE IN 3 SHOOTINGS, TRUDE ASSERTS

Thinks Dartmouth Youth Has Mental Disorder.

La Grange, was the third shooting in The killing of Henry E. Maroney at Dartmouth college by Robert T. Meads, son of Attorney Albert H. Meads of which young Meads participated, according to Judge Daniel P. Trude.

Following the death of Maroney, Attorney Meads went to Dartmouth. On his return he said conditions he found there were "unbelievable" and demanded the resignation of President Ernest M. Hopkins. Mr. Meads charged nearly 100 students had been guilty of bootlegging liquor between Hanover, N. H., and Canada.

Judge Tells of Young Meads.

In a letter to THE TRIBUNE Judge Trude suggests that young Meads probably is suffering from dementia praecox.

"I am reliably informed that young Meads, while in the navy, was engaged in a shooting affray," writes the judge. "and that later, while at college, he shot another student, who exonerated him on his death bed. And now he is mixed up in this shooting affray.

"Alienists will now doubtless discover that young Meads is and has been suffering from a form of dementia praecox, and his first shooting affray should have given warning the other two might occur. A surprising thing is that the father, who has come in daily contact with the son, did not recognize his son's mental condition while the latter came under his daily observation."

Lauds College Head.

Judge Trude said any defense of President Hopkins is not necessary, as he is recognized as one of the ablest college presidents in the United States.

"It is my pleasure to have been a classmate of President Hopkins," he said. "He already has been offered the presidency of other institutions because of his fine record at Dartmouth. The charge that he could have prevented the transportation of liquor at Hanover is ridiculous. That is the duty of the police."

An answer to the charges made by Attorney Meads is expected today from President Hopkins. John C. Redington, president of the Dartmouth Alumni association of Chicago, has wired Mr. Hopkins for his statement of the facts in the case, to be published over his signature as an answer to Attorney Meads' accusations.

Mr. Redington, who visited Dartmouth last month, says accounts of the shooting that he has heard vary materially from the one given by Attorney Meads.

$25,000 WAGER ON HARDING AT ODDS OF 2½ TO 1

New York, July 8.—[Special.]—The first large bet that has been made in Wall street on the presidential election was recorded today, a wager of $25,000 to $10,000 being placed that Harding would win, a prominent stock exchange house taking the short end. This is on the basis of 2½ to 1, whereas the odds quoted by some of the betting commissioners are not better than 2 to 1.

James W. Ball & Co., while quoting 2 to 1 against Cox, reported there was little Cox money in sight, those who wish to wager on the Democratic nominee preferring to wait for longer odds.

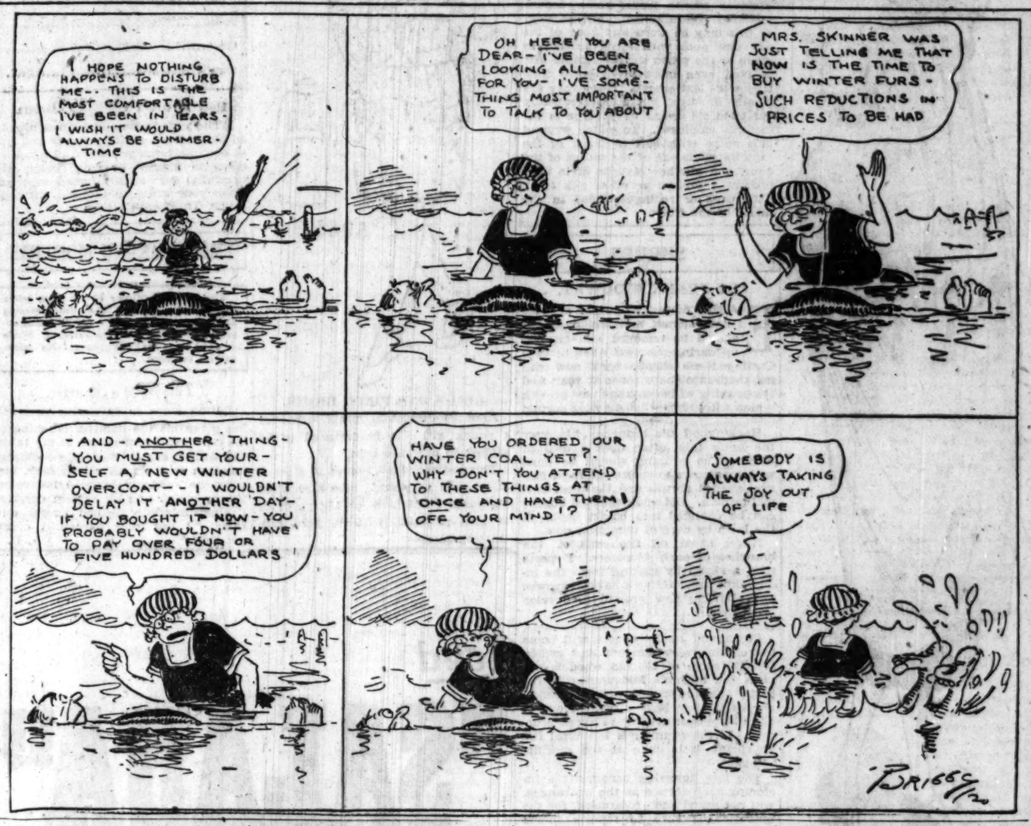

Fred Schumm placed $1,000 against $1,200 that Cox would carry Ohio and $900 to $1,000 that he would carry New York state. There was one bet of $500, at even money, that Cox would carry New Jersey and a wager of $500 to $700 was placed that Harding would carry New York, New Jersey, and Massachusetts.

Garrity's Table Shows Less Crime than in June, 1919

Crime retreated another step during June, according to Chief of Police Garrity's tabulation of 988 burglaries, robberies, larcenies, and other crimes during the period. The figures, compared with complaints during June, 1919, follow:

	Complaints.	Decrease.
Burglaries	395	18.29
Robberies	137	30.16
Larcenies	401	30.86
Others	55	30.00
Totals	988	27.29

SOMEBODY IS ALWAYS TAKING THE JOY OUT OF LIFE

JOHN D., 81, GOLFS, GIVES A BANQUET ON HIS BIRTHDAY

Wins Nine Hole Match on Links.

Lakewood, N. J., July 8.—[Special.]—John D. Rockefeller celebrated his eighty-first birthday here today. It is the first time in his life that he has been at his country estate on his natal day, and the occasion was marked by a banquet given to a few old friends and relatives. None of his children was present, but all offered their congratulations by telegrams and large floral remembrances.

To those who know Mr. Rockefeller intimately, the last few years have had little effect on the octogenarian. He celebrated the early part of the day with the usual round of golf.

At the finish of the nine hole course Mr. Rockefeller's step was as spry as when he left the first tee. Not only did he show abundant vitality in his game, particularly in his driving, but he proved 81 years does not always prove a deterrant to one's skill, as he was winner of the contest.

Mr. Rockefeller however, gallantly attributed his victory to his partner, Miss Martha Jamison, who motored over from Spring Lake for the game.

James R. Blake, Banker, Missing Week in New York

New York, July 8.—[Special.]—Relatives of James R. Blake, a member of the banking firm of Abbott, Hoppin & Co. of 120 Broadway, notified the police today that Mr. Blake had been missing since Friday, a week ago. Then he set out in a small dory along the mouth of Westchester creek in the Bronx in search of a mechanic to install a motor in the boat.

Gross Point Lighthouse Keeper 30 Years on Job

Capt. E. J. Moore, keeper of the Gross Point lighthouse in Evanston, completed his thirtieth year on the job yesterday. He said that only three ships have been wrecked in the vicinity since 1900.

Spanish Police Inspector Is Killed in Saber Duel

MADRID, July 8.—Police Inspector Turner of Barcelona was killed in a saber duel with Police Captain Toro yesterday, according to word from that city. The quarrel arose over a question of service in the police force.

BEG YOUR PARDON!

In THE TRIBUNE of July 6 a paragraph was carried which stated that Mrs. Anna Hess, wife of a jeweler at 2220 West Madison street, had committed suicide. Later a coroner's jury reached a verdict of accidental death.

$720,000 ESTATE OF E. P. RIPLEY LISTED IN COURT

The late E. P. Ripley, president of the Atchison, Topeka and Santa Fe railroad, left an estate valued at slightly more than $720,000, according to an inventory filed in Probate court yesterday. A widow's award of $24,000 was approved by Paul Corkell, assistant to the probate judge.

The personal property is valued at $600,000 and real estate interests in California at approximately $120,000.

The inventory disclosed that Mr. Ripley's interests were spread over practically every section of the United States. He owned memberships in the Riverside Golf club, the Santa Barbara [Cal.] Country club, LaCumbre Golf club, and the Chicago Golf club. His estate includes shares worth $100,000 in the Santa Fe railroad, $24,000 worth of shares in the Continental and Commercial National bank and $15,000 worth of shares in the Chicago Title and Trust company.

POLICE AID, HELD AS BURGLAR, IS FREED BY COURT

George H. Carleton, secretary to Acting Captain Thomas Duffy of the West Chicago avenue station, was discharged yesterday by Judge Joseph La Buy when arraigned on a charge of burglary.

Carleton was arrested as a suspicious character last month when the flivver squad of Irving Park station found him near a drug store which had been burglarized.

Testimony proving his good character convinced Judge La Buy of Carleton's innocence.

"Patrolman's Association" Faces Council Inquiry

Complaints to Ald. Adamowski that E. J. Dodd, who signs letters as "president of the Chicago Patrolman's association," has no authority to represent members of the police force, resulted yesterday in an order that an aldermanic subcommittee make an investigation of the "association" and its president.

WILSON'S MERCY TO DORSEY STIRS LANDIS' WRATH

Judge Assails Cut in Prison Sentence.

Judge Landis looked bronzed, happy, peaceful, after his vacation as he stepped to the bench yesterday, but—

JUDGE K. M. LANDIS

"What's this about James Dorsey, the millionaire cattle king, being released?" he asked an attorney. "Am I correctly informed that the sentence of Dorsey has been cut in two by the president?"

Receiving an answer in the affirmative, he turned to the defendants before him." I wish to make a statement to the bar," he said,

Reviews Dorsey's Story.

"This man Dorsey was indicted after he had sold an average of 12,000 cattle a year, making a profit of about $10 a head.

"He represented himself as a breeder of thoroughbred Holstein cattle, and guaranteed that every animal in his herd was tuberculin tested. Then he picked up all the sick cattle he could buy at cheap prices, doctored them up and sold them for healthy animals. He hired a veterinarian at about $75 a month to sign blank certificates, and flooded the country with cattle afflicted with tuberculosis.

"Finally he was tried for using the mails to defraud and sent up for eight years. By some oversight, I suppose, he finally was sent to the penitentiary.

Takes Slam at Wilson.

"Then the president paused in his great affairs and cut the sentence in two. I suppose Dorsey is due for a pardon now, but I wonder what frame of mind a man must be in to pardon a criminal like Dorsey."

The judge also expressed dissatisfaction over the release of Dr. A. L. Bunt, who was paroled last month after serving a part of his sentence for violating the Harrison anti-narcotic act.

"I don't see much use of staying on the bench," he said.

THE INQUIRING REPORTER

Every Day He Asks Five Persons, Picked at Random, a Question.

TODAY'S QUESTION.

(Asked of visitors to Chicago.)

What do you think of Chicago as a summer resort?

The Answers.

JAMES L. KINNIFER, Fort Wayne, Ind., salesman—I think Chicago is a fine summer resort. There is everything that goes with a resort, boating, fishing, swimming, sports, and you have all the comforts of home life as well.

E. L. MURPHY, Toledo, O., Elk—Chicago is an excellent summer resort, but I like some place where there is more "back to the soil" stuff. A city is too crowded for a real good time.

MISS JANET G. WILSON, Seattle, Wash., daughter of a delegate to the Elk convention—I don't like Chicago as a summer resort. It is too dirty, stuffy, hot, and there is too much noise. The beaches are too crowded and there are too many people always going where you want to go. I like the mountain countries better.

SAMUEL M. DUNKIN, Duluth, Minn., salesman—Chicago is the greatest summer resort I ever struck. You people who live here do not appreciate it like we do who come from some other town. You have all the requisite amusements and comfort besides.

ALBERT MANNERING, Atlanta, Ga., salesman—Chicago is just the right place for a summer resort. It is reasonably cool, there is all manner of conveniences, all kinds of sports, and lots of other things. The only thing I don't like is the dirt and the high prices of living at hotels and restaurants.

Lost Car of Cable Delays Street Lights Near Link

Somewhere between New York and Chicago there is a "lost" box car containing among other things 7,000 feet of high tension cable. That's why there are no street lights along Michigan avenue from the link bridge to Ohio street. The automobile thoroughfare is being lit by flood lights attached to buildings.

"The cable was shipped in April," said A. S. Schulman, the contractor, yesterday. "I have done my best to get track of the car. The wire is specially manufactured to carry 7,000 volts of electricity, and I cannot duplicate it here."

PERMANENT FARE MUST BE 12 CTS., 'L' LAWYER SAYS

Lines Will Quit if Not Given 10 Cents at Once.

BY OSCAR E. HEWITT.

Attorney Gilbert yesterday said the elevated roads will go into the hands of a receiver if they must continue at a 7½ cent fare. The roads are asking the public utilities commission for 10 cents as a temporary measure. That as a permanent fare will not be enough, in his opinion, and the roads will ask for more—probably 12 cents.

Mr. Gilbert was arguing before the commission for the temporary fare boost. Chester Cleveland and David H. Jackson, attorneys for the city, argued against the raise. The commission had anticipated all their constructive specific suggestions and decided them against the company and in favor of the car riders, rendering the city's arguments useless and unnecessary. The city contended some of the operating items are questionable.

Useless Debate.

"I want to say something about the company's $701,000 in its replacement reserve account because——" started Attorney Jackson.

"The commission will not consider that account in this application for a fare of 10 cents," interrupted Commissioner Shaw.

"I had intended to argue that at length," Cleveland said.

"We have decided that point already," retorted Commissioner Shaw.

"There is $125,000 to pay bonds of the Northwestern elevated," started Jackson again.

"That is not an operating charge and will not be considered," broke in Commissioner Wilkerson.

"This income tax charge of $50,000——" started Jackson once more.

"That's out," put in Wilkerson. "That's decided. We have passed on those questions in other cases."

Attacks Maintenance Account.

Jackson then started on the maintenance account, which amounts to upwards of $4,000,000, and is $350,000 above that spent in the average of a five year period ended in 1916. The city has had no investigation made by engineers, the accounting inquiry of it was admittedly incomplete, and the city attorney said the city cannot show that the sum is excessive. He argued it was too high because more was spent than in a previous period. The commissioners silently decided the city lawyer did not know anything of value about the item, and let him talk until he quit.

Chester Cleveland made an argument, partly from a legal premise and partly from public interest. It was not materially different from his usual speech in rate cases.

He contended the cost of operating an elevated road should not be any more than for a surface system, that the present service is inadequate, that a ride on the elevated is worth no more than on the surface, and that expert witnesses are unreliable. He asserted no fare increase should be given until adequate service is given.

Permanent Fare Hearing Soon.

Mr. Porter said a 10 cent fare will give a return of only 7½ per cent on $48,000,000, while the bonds outstanding against the road are $52,884,000, and that the lowest valuation which has been placed upon the property is $82,171,000.

Hearing in application for permanent fare will be started July 14.

Evanston Line Asks 7 Cents.

A petition asking a 7 cent fare was filed with the state public utilities commission yesterday by the Evanston Railway company. The present rate is 6 cents.

The statement cited that trainmen had asked for an increase from 65 cents to 80 cents an hour. It was also pointed out that the extra penny in the 6 cent fare in vogue since August, 1919, has been used to pay wage boosts.

F. H. McCulloch, general counsel for the company, said that if the 7 cent fare is granted the Evanston surface line, a raise should also be allowed the elevated to prevent unfair competition.

Rob Contractor's Widow of Jewels Valued at $15,675

In a secret compartment in a clothes closet of her home at 1218 Sherwin avenue Mrs. Charles W. Gindele, widow of a building contractor, kept diamonds and jewelry valued at $15,675. They were not insured.

On July 4 she went for a motor ride. She was away from home only a few hours. When she returned the valuables were gone. News of the robbery was suppressed by the Rogers Park police until yesterday.

Plenty of Sugar Here, Wholesalers Tell Clyne

After a complete survey, conducted at the request of District Attorney Clyne, a committee of wholesalers and jobbers reported to the district attorney's office yesterday that there is plenty of sugar in Chicago. "There is no shortage here," the committee says. "Any attempt of retailers to limit the supply to consumers is uncalled for, and housewives need not hesitate to plan for a big season of home canning."

Mayor's M. O. Plan Before Traction Commission Today

Both boosters and knockers of Mayor Thompson's plan to create a local transportation district to carry out his scheme for "people's ownership and operation" of the street car lines were invited yesterday by Chairman Ettelson to attend today's session of the mayor's traction commission in the Hotel Sherman.

Noble Sheep Man Saves— the Picture!

"HUMAN STUFF."
Produced by Universal,
Directed by Reeves Eason,
Presented at the Casino.

THE CAST:

James Pierce .....Harry Carey
His Father.....Rudolph Christians
"Bull" Elkins .....Charles Lemoyne
Lolo .....Fontaine LaRue
Lee Tyndall.....Mary Charleson

By Mae Tinée.

Given a picture of limp plot, with nothing convincingly real about it but the scenery, Harry B. Carey nevertheless manages to do what is known as "get away with it." He is a debonair, and nonchalant prince of the plains, with a nice smile and a pleasing gravity that play tag together.

MARY CHARLESON.

"Human Stuff" if judged as adult entertainment — isn't. It is just a picture scooped together from odds and ends in the producerial scrapbag. The only unusual thing about it is the fact that the hero is a sheep-man instead of a cattle man.

Before he was a sheep man, however, he was a failure as his father's son. Factory life didn't appeal to him. He'd always dreamed of the west, and owning a flock of "unwashed woolies." Dad in despair at last gives him his wish.

"I'll make good!" fervently promises this rather elderly son. He does. Single handed he puts his enemy cattlemen to flight, saves the girl, and all the rest of it. The picture ends with a tameness that's pathetic.

Since you cannot fail to like Mr. Carey, however, "Human Stuff" can hardly be classed as a failure.

SCREEN NOTE

The scenario for Elsie Ferguson's next picture is the work of Burns Mantle, THE TRIBUNE'S New York dramatic critic. The scenario is an adaptation of a novel by Mrs. Humphry Ward.

For the first time Bob saw his grandfather, who was 7 feet tall. I left them in the room together, and when I came back I saw grandfather reading the

paper, quite unaware of Bob standing on tiptoes on a chair behind him gazing at him interestedly. When I asked Bob for an explanation he whispered excitedly: "Sh! Don't make any noise. I'm getting a bird's-eye view of the rest of granddad." A. L.

Etta had been introduced to the wonders of a peach orchard, and coming excitedly into the house she presented mother with two luscious ones, remarking: "O, muvver, I've bringed you a couple of peaches that was just born!" F. J.

DORIS BLAKE'S ANSWERS

Frequent Change of Heart.

"Dear Miss Blake: Quite some time ago I kept company with a man of whom I thought a great deal. He entered the army and soon after our correspondence ceased. When he returned he wrote to me—but I did not answer for about four months. A week following a friend and I attended a dance and I happened to meet him. He wanted an explanation of my delay in answering his letter, which I would not give. However, with an idea to straighten matters I invited him to a house party—but he did not accept. Ever since this time I have felt sorry for what I did—because I dearly love him. F. E. D."

What contradictory hearts do beat in feminine anatomies? "Now you love him, now you don't." You will have to wait for fate to plan another meeting, I fear.

NEW YORK.—[Special Correspondence.]—The cape of good taupe is this effective summer wrap pictured today. The material is taupe satin and there appear between the emplecements of light green satin, jade green silk embroidery motifs from which depend tassels of the same tint. Such a wrap as this may be worn any hour of the day and goes with any vacation as much as the warm weather. Capes are, in fact, even more in evidence than they were last season. Often they are of silk duvetyn, but more frequently our good old friend navy serge is the material employed. To match wrap of blue serge with suit or frock of the same fabric is one of the modes of the hour, and another favorite style is to provide a foulard or other silk frock with cape or redingote lined in the fabric of the frock.

SHRUBS

BY FRANK RIDGWAY.

EARLY flowering shrubs, such as lilac, spiraea, and similar plants, should be trimmed and cleaned up during the next week or two. Cutting these shrubs back now will get them into shape for next year, and the pruning will encourage new growth which will produce blooms next spring.

Hacking off the branches wherever the knife falls often does a deal of harm. The pruning should be done with great care to insure the most natural shaped shrubs and the most normal growth. Old and neglected bushes can be changed into bright spots on the lawn by careful trimming now.

Never shear off the ends of the branches of early bloomers. Experts trim a shrub by cutting from the inside, thus maintaining a natural growth and allowing new growth to develop properly.

Fresh and husky shoots will come out on flowering almonds and golden bells if some of the old wood is cut from the bushes. Midsummer is the best time to prune early blooming shrubs if they have stretched out of their bounds or are not balanced properly. If the pruning is left until fall or spring it is done at the sacrifice of bloom.

The late flowering ornamentals, including such shrubs as the hydrangea, will not stand such treatment, for the operation is sure to remove flower bearing wood. Prune late bloomers in fall or spring.

No Sugar

Required in Jiffy-Jell Fruit Desserts

Sugar is scarce and high, yet now is the time for rich, fruity desserts.

The solution is Jiffy-Jell. Serve it alone with its real-fruit flavors, or mix in fresh fruit if you wish.

Jiffy-Jell comes ready-sweetened. It comes acidulated with lemon or grape acid. Simply add boiling water, as per directions, and let cool. Then you have a fruit dessert rich in real-fruit essence.

Jiffy-Jell flavors are not artificial. They are condensed fruit juices in liquid form, in bottles. There's a vial in each package.

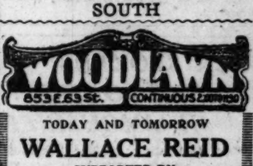

They are rich in fruit, for much ripe fruit-juice is condensed to flavor each dessert.

Mix in fresh fruit if you wish, but Jiffy-Jell itself has fruit essence in abundance.

To make salad jell, use lime-fruit flavor, tart and green.

Use mint for mint-jell to be served with meats.

These are delicious summer dainties, and the sugar is already there.

Woman's Club Asks Chicago to Help Rebuild France

The rehabilitation committee of the Chicago Woman's club, formed to assist the American Committee for Devastated France, is asking for subscriptions to the fund which is helping start those in the stricken parts of France to regain their homes and carry on their daily existence. Word comes continually of the work being done by the American committee, of which Myron T. Herrick is president and Miss Anne Morgan vice president.

In the absence of merchandise rolling stores have been established, whereby the inhabitants can purchase at cost household furniture and equipment, made in France. Sixty-five schools have been established, the benches having been made from ash or oak wood from the trenches.

To aid in the work along this line any contribution is acceptable to the committee. A domestic training class for fifteen girls may be maintained for one year for 10,000 francs, while 2,000 francs establishes a circulating library; 1,000 francs helps clean and till a field; 500 francs helps restore a home; 200 francs clothes a child.

Among the members of the committee are:

Mrs. J. Ogden Armour,	Gen. Charles G. Dawes,
Mrs. T. B. Blackstone,	William Burry,
Mme. Charles Bigot,	H. C. Chatfield-Taylor,
Mrs. Wm. J. Calhoun,	Richard T. Crane,

"City's So Black"

Elk Visitor in International Romance Objects to Chicago Smoke.

MRS. OTTO C. BOTZ.
[TRIBUNE Photo.]

"I like Chicago, only it is so black," observed Mrs. Otto C. Botz of St. Louis. Her accent was French.

Back in Paris, where Mr. Botz met her six years ago, she was Mlle. Renée Bichet. He wrote her notes, inclosed in letters to an older sister, but they never reached her. Finally he called a fervent request. In June, 1918, she was admitted to this country, through some deft wire pulling by a brother Elk, and they were married in St. Louis.

Two months later her cabled acceptance reached him.

ENGAGEMENTS

Great Lakes Play.

The 1920 play of the United States Naval Radio university will be staged tonight in the school's ball room at Great Lakes, and they will make a short tour on the road. The cast includes only one girl, Miss Renie Jeffreys, a yeomanette of the Radio school.

Miss Haley's Forces Appear Beaten in Teachers' Convention

Salt Lake City, Utah, July 8.—Several hundred Utah teachers tonight voted indorsing the delegate plan of reorganization for the National Educational association, and agreed to work for its adoption in the business meeting tomorrow. The scheme is the chief issue before the convention.

MARGARET HALEY.

Margaret Haley of Chicago, leader of those who oppose reorganization, attended the meeting, but did not speak. Only Utahans were permitted the floor.

J. Fred Anderson, president of the Utah Education association, who presided, announced he had expelled two stenographers who had begun taking a record of the meeting for some persons whom he did not name.

Hugh S. Magill, field secretary, declared that without reorganization it was possible for the teachers of the locality where the annual meeting was held to control that meeting. Utah, he said, could bulk large in tomorrow's business meeting or even control it.

H. S. DRIGGS.

Howard R. Driggs of Chicago, formerly of the University of Utah, made a strong appeal to the Utahans to use this control to adopt the new plan and make it impossible for any locality ever to pack a convention again." Mr. Driggs referred to the meeting last year at Milwaukee, Wis., which he said was controlled through the votes of teachers of that locality.

The Utah votes are almost certain to carry the business meeting for the reorganization plan.

The nominating committee has chosen F. M. Hunt of Oakland, Cal., for president and Cornelia S. Adair of Richmond, Va., for treasurer.

The report of the resolutions committee declares for early adoption of the Smith-Towner bill, which would create a department of education with an officer of the president's cabinet.

A strong declaration is made for "a minimum of four years carefully planned preparation following graduation from high school for teachers."

TRIBUNE COOK BOOK

BY JANE EDDINGTON.

Apple Pudding Pie.

There is no way of getting around it. Apple pie is a viand over which "we, the people," do make one of the most enthusiastic of yum yums. Undesirable dietetically, as I believe it to be, I think there are reasons why at present this pie should be tolerated. Apple will hold its own and be delicious when sweetened with other substances than granulated sugar. The thing to condemn is the poor apple pie at any and all times.

To get a good apple pie the cooking must be slow and prolonged. Old fashioned cooks used to tie a strip of new cloth around the rim so that this should not get overcooked during two hours in the oven. The middle is constantly over steam, so the necessity here is that the oven be not too slow, or it will not brown, but slow it must be. Those who have learned to cook with stones in a fireless cooker can do the work in it, a stone over at any rate.

Like a pie, and yet without a bottom crust, is the old fashioned pan dowdy. The following imitation of it may be made quite delicious. Cook one-half cup of granulated hominy in a cup of water in a double boiler for an hour. Make a thick batter of this by adding one egg or a part of an egg and enough milk—not enough to make thin. Peel and slice apples to fill a buttered baking or yellow pudding dish of sloping sides, put these in the dish in layers and cover with the hominy batter. Bake from two to three hours in a slow oven.

A cereal sirup now on the market sweetens apples thus prepared quite as well as sugar, but the big pie makers and ice cream makers seem to be monopolizing it.

A FRIEND IN NEED

BY SALLY JOY BROWN.

I want to be the medium through which the friend in deed and the friend in need may be brought together. It may be you have some discarded article which has not outgrown its usefulness that will make some less fortunate one happy, and you would gladly give it if you knew how to go about it. Write to me and I shall be only too happy to be of service to you. Please write on one side of the paper.

When information is wanted by mail a stamped, addressed envelope should accompany the request. Please do not send parcels to The Tribune, but write for the address of the applicant and send direct.

Cab for Three Babies.

"About three weeks ago the stork left us twin boys. I have five other children, the youngest 13 months old and not walking yet, so you see I have my hands full. If I could get a twin baby carriage, I could take the three babies out together—something that it is quite impossible to do now.

"Mrs. R. R."

Another call for the so necessary vehicle—and this time for one that must accommodate three babies. This, I imagine, is not an easy thing to obtain. I'll supply Mrs. R. R.'s address on request.

In Need of Clothes.

"I am the wife of an ex-soldier. He has only one arm. We have a baby 9 months old and have had an awfully hard time to meet expenses, as the baby has been sick. I am in great need of clothes. I wear size 36 in clothing and 4½ size shoe. Do you think you could help me? Mrs G. M."

Yes, I'll keep you in mind, and hope my good readers will do the same, for you deserve help and will get it soon.

Churches Losing Grip on People, Methodists Told

BY THE REV. F. L. GRATIOT.

"Materialism is the sin of the age," declared the Rev. George MacAdams, pastor of the McCabe Memorial church, in the opening sermon of the Desplaines campmeeting of the Methodist church yesterday. "Political conventions appeal to the people far more than the churches, which are showing a gradual decrease in attendance."

"The gospel is not presented by the preachers in the good old fashioned way. That is why it is not received by the people in the old way," said the Rev. L. L. Hammit, pastor of Barry Memorial church, in the afternoon address.

Last night the evangelistic motion picture, "The Streams of Life," was shown. It depicts the life of a country boy who was set in the midst of temptations of the city, but who triumphed over them by the aid of his religion. It is said that this "movie" has converted more people than any living preacher. The picture will be shown again tomorrow night.

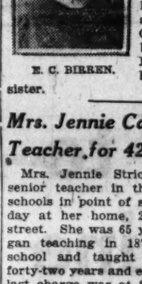

"The church grows in spite of rules and rulers," said Irving P. Johnson, bishop of the Episcopal church in Colorado, addressing the midwest conference at Racine. "Its leaders cannot be inspiring, as a rule. They have to be conservative because, like bankers, they are trustees. The organization of a centralized executive places the Episcopal church in this country on the right track for progress."

Bishop Johnson kept his hearers in constant laughter over his quaint similes. In the evening the bishop declared the much advertised interchurch world movement had practically failed because there was no common denominator to bind interests together, and that no amount of mathematicians and dollars would ever convert the world.

OBITUARY.

Death Takes Adjutant of American Legion Post

Edwin C. Birren, 2236 Osgood street, adjutant of Webster post of the American Legion, died Wednesday. He was 27 years old. Mr. Birren was a professor of electrical engineering at De Paul university. Off-the-Street Club Benefit Tomorrow

Charles A. Comiskey has donated White Sox park to the kids of the Off-the-Street club for their annual benefit tomorrow afternoon. Mr. Comiskey has made this donation for the last seventeen years. The object is to raise funds for the maintenance of the club for the year and to give 1,000 boys and girls enrolled in the club a day's outing.

This year the entire program will be turned over to the youngsters. The members have invited the children of other Chicago institutions to join them in this party.

Many individuals and firms are donating their cars and trucks to take the children to the park, and a lunch will be provided for each one. The Off-the-Street club speakers and athletes will be assisted by professionals who have donated their services.

The Off-the-Street club is the official charity of the advertising men of Chicago.

PRICES BREAK AS LONGS SELL CORN; CLOSE IS WEAK

BY CHARLES D. MICHAELS.

A renewal of liquidation and bear pressure carried corn and oats prices off to new low levels on the present downturn. Support was lacking and numerous stop loss orders were uncovered on the way down. Buying against bids was the main factor in checking the decline at the last. Closing trades were with net losses of 3⅞ @5½c on corn, 1½@2c on oats, 1⅝@2c on rye, and 5⅝c on barley.

At the inside figures near by deliveries ed corn showed 18@26½c under the high of June 21, while the December has dropped 13c from the outside price of June 26. The market was nearly demoralized early, due to stop loss order selling, very little trading being done in September at the opening above $1.51½. Houses with eastern connections took September heavily at times to cover shorts, and succeeded in making a good rally at one time, but the market turned very weak toward the last.

The July-September spread widened to 1½c at the last, and the cash gained slightly on the July, with sales of No. 2 yellow around 4c over the future. Crop reports were favorable, although warmer weather would be beneficial, as the crop needs to be forced along.

Cash Oats Buy July Oats.

Oats were weaker and lower with corn, but the persistent buying of July by a leading cash house advanced it at one time to the previous day's close. This buying has been going on for the last three days, and at the last the premium over September was 16⅝c, against 15⅞c Thursday.

Le Count's report said the crop would not only be larger than last year, but that the quality would be much better. Premiums in the sample market are strong.

Houses with seaboard connections were good buyers of rye, and the market showed stubborn resistance to selling pressure. The seaboard reported bid for September-October shipment at the highest price on the crop, and claimed 50,000 bu sold to Germany. Forty thousand bu were sold to go to store for delivery on July contracts at $2.22. No. 2 on track brought 2c over July.

Cash barley broke 39@7c. Demand was slow and futures were weak. Selling of the latter was attributed to liquidation by longs, who took in considerable grain on May contracts.

Provisions Close at Top.

Provision prices were lowest at the start and highest at the close, with net gains of 40@42½c on lard, 15@25c on ribs, and 62½c on pork.

A better tone prevailed and packers who have been the most bearish of late were reporting a better foreign demand,

DRY GOODS MARKETS.

NEW YORK, July 8.—Cotton goods were very quiet in today's market, mills beginning to curtail their output. Yarns, dress goods, and men's wear were dull. Silks were especially inactive, with one large concern in financial difficulties. Burlaps were steady.

WORLD'S GRAIN MARKET NEWS

The government crop report is due in Chicago today at 2:1½ o'clock, daylight saving time. It is expected to be bearish. Estimates on winter wheat are 510,000,000 to 520,000,000 bu, against 504,000,000 bu last month and 732,000,000 bu last year. Spring wheat, 276,000,000 to 298,000,000 bu, with a condition above 96, against 89.1 last month and 80.9 last year. Total crop last year, 209,000,000 bu, and all wheat estimated at 730,000,000 bu to 818,000,000 bu, against 781,000,000 bu last month and 941,000,000 bu harvested last year.

First official estimates on corn acreage and condition are to be given by the government report today. Private figures are 102,300,000 to 102,800,000, against 102,075,000 harvested last year. Estimated crop 2,752,000,000 to 2,890,000,000 bu, against 2,917,000,000 bu last year. Condition 83.7 to 87.5, compared with 86.7 last year and a ten year average of 83.8. Figures on oats are 1,325,000,000 to 1,380,000,000 bu, compared with 1,315,000,000 bu last month and 1,248,000,000 bu harvested last year.

Corn traders, in explaining the action of their market, said prices rallied 1½c three times yesterday after the breaks, and closed weak at well toward the lowest of the day. This made them regard the market as breaking right for a bear. It is the first time it has acted that way in months, and encouraged selling and at the same time checked buying.

The fact that July corn is on a delivery basis, with 50,000 bu delivered on July sales yesterday, makes many traders believe a bear market is on for the present. They look for rallies due to an oversold condition at times, but they are not expected to hold. Many conservative traders covered shorts around the inside prices, as they have had too many profits get away of late, and they proposed to take them while in sight. This, it was claimed, left the market weaker and in no condition to stand heavy selling.

September wheat at Baltimore sold at $2.83 early yesterday and was later quoted at $2.83¼ bid and $2.87 asked.

An Old Fashioned Security

$8,000,000 Utah-Idaho Sugar Co.
First Mortgage Serial 7% Gold Bonds

The business founded in 1891 has grown steadily until the company now owns and operates fifteen sugar factories in Utah, Idaho and Washington, each factory manufacturing and refining the best quality of granulated beet sugar. These plants have an aggregate cutting capacity of over 11,000 tons of beets per day. The company's production is equal to about 10% of the entire sugar output in the United States.

The total net assets of over $32,000,000 are applicable to this issue of $8,000,000 of bonds. Net profits after liberal charges for maintenance and depreciation and after all Federal taxes for the last four years averaged $3,123,943. The maximum interest requirement on this issue is $560,000.

We recommend this issue as a conservative purchase *for the careful investor.* The bonds are available in denominations of $500 to $1000, and in maturities ranging from 1921 to 1930 at prices to net 7¾%.

These bonds may be purchased on our Partial Payment Plan. Details on request.

UNCLE SAM ASKS 200 MILLION MORE TO MEET BILLS

The United States treasury again is in the money market for funds with which to finance the temporary needs of the government pending payment of income and profit tax installments during the last half of 1920. The treasury yesterday announced the offering of two new series of its certificates of indebtedness, the aggregate sought being $200,000,000.

The rate of interest to be paid on the current issues, which run for six and eight months, respectively, from July 15, is 5¾ per cent. This is the same as that paid on the last issue of certificates of six months' maturity, but is less than that paid on the recent issue running for a year, on which the rate was 6 per cent. The 6 per cent rate was the highest paid by the United States government on any of its obligations since the civil war.

The present certificates of eight months' maturity will be acceptable in payment of federal taxes and will have one interest coupon attached.

$1,000,000,000 Rail Boost?

The report of the interstate commerce commission on earnings of the railroads for the first quarter of 1920 was issued yesterday and was coupled with a circumstantial digest of the freight rate increase expected to be announced within a week or two. Net operating income of the roads was $58,787,000, compared with $36,216,000 for the corresponding period in 1919.

The report on the rate increases, circulated in Wall and La Salle streets, was to the effect that the railroads east of the Mississippi and north of the Ohio rivers would get a 30 per cent increase; the western roads 24 per cent increase, and the southern roads 31 per cent increase. The total would be slightly more than $1,000,000,000, which would allow only for present wage conditions.

As the story went, the new wage award would add $600,000,000 a year to railway expenses, and to meet this there would be an increase in passenger rates to cover half the amount, while the greater efficiency of labor under the new wage scale would be relied on to make good the balance.

Bank of England Gains.

The weekly statement of the Bank of England, whose proportion of reserve last week fell to the lowest point in fifty years, and the figures on Great Britain's foreign trade for June were viewed with interest. The bank statement showed marked improvement, the reserve rising from 8¼ to 12⅛ per cent. This was the result of a heavy reduction in borrowings, total loans declining $285,000,000. Gold holdings increased $14,278,000, but this was used almost wholly as collateral for note expansion of $13,430,000.

The June commerce figures made an indifferent showing. Total exports were $652,380,000, compared with $697,895,000 in May, while imports rose from $831,665,000 to $852,810,000. The balance due the outside world on the June showing was $170,430,000, compared with $133,770,000 for May. Although the unfavorable balance is comparatively small, there was some disappointment in the fact that there was not a positive improvement.

DUN'S REVIEW

The weekly review of the Chicago trade, published today by R. G. Dun & Co., will say:

"Retail business continues unusually active for this time of year, sales exceeding by a considerable margain those for the corresponding time in 1919. There is a brisk demand for seasonable articles and the movement of general merchandise is highly satisfactory.

"The volume of wholesale orders is good for July and signs of approaching activity are many. An exceptionally large number of country buyers is in the market, expectation of a substantial advance in freight rates exerting a stimulating influence on trade in many lines, not only in accelerating buying, but in firming prices. There have been some cancellations of orders for woolen materials and garments from the country, but the movement has not assumed large proportions. Dry goods prices generally are steady.

"Hardware orders are heavier than the dealers can supply. Transportation difficulties bear heavily on this branch of business. Manufacturing has made slight gains. A more liberal movement of grains and promising crop prospects have lowered the prices of important foodstuffs, but there is no noteworthy downward movement elsewhere.

"Money stringency is interfering with the distribution of automobiles and farm implements in some sections, dealers finding difficulty in financing purchases because the banks are closely loaned up. Collections generally are a little slower."

CHICAGO STOCK TRANSACTIONS

Chicago stocks were moderately active yesterday and prices continued on an upward trend. Libby-McNeill rights were freely traded in at firmer prices. The packing house issues were higher, with the exception of Swift International and Armour preferred, the latter declining 2 points due to disappointment from the fact that the new Armour financing offers no privileges to preferred stockholders. Stewart-Warner and Union Carbide were active and made fractional gains. Wahl adcanced 2 points and Montgomery Ward a point on reports of increased business. Wilson was off 4 points from the last previous sale, while Sears-Roebuck gained a point. There were a few sales of National Biscuit at 107 and of Calumet and Chicago Canal and Dock at 60.

THE FARWELL TRADE REVIEW.

The John V. Farwell company weekly review of trade says:

"The wholesale dry goods business for first week in July records the largest week we have ever had in the house. Collections are more than 50 per cent ahead of the corresponding week last year. Buyers are beginning to come in freely from western and southern states, starting their fall shipments early on account of the transportation situation.

"The attention of retailers is centering upon preparations for good fall and holiday business.

"White organdies and white satin bedspreads are in strong demand for immediate shipment. Reports from Ireland show a 20 per cent reduction in flax acreage, indicating firm prices on linens. Quotations from Yokohama on raw silk have further stabilized the silk market."

STOCKS ADVANCE ON BROADER LIST; MONEY IS EASIER

The New York Times.

New York, July 8.—[Special.]—A broader list of stocks was dealt in today and prices advanced all around. The action of certain industrial issues indicated a reawakening of so-called "pool" operations, which have been wont to spring up in the last year whenever the supply of call money made possible an increase of speculative activities.

Call loans were renewed at 7 per cent, and this quotation stood throughout the day, in contrast with a 9 per cent renewal rate on Tuesday and 8 per cent on Wednesday. It was evident in brokerage house comment that this apparent proof of easier money conditions was a real influence in the purchase of stocks.

Industrials Gain Again.

Industrial shares advanced 1@2 points or more, trading centering mainly in the petroleum issues and specialties. Rubber, steel, and automobile stocks, which had been especially buoyant the day before, were under pressure in the afternoon, reflecting a fair amount of realizing sales. The scale of business was slightly less than on Wednesday.

The gradual but persistent advance of prices since last Friday has changed Wall street's attitude toward the immediate future of business. Speculation has also gained impetus from study of the political situation. While the main body of stock market followers appears to be committed to Republican policies, the Democratic nominations have been received with approval, the reason being an impression that a "business" administration is assured.

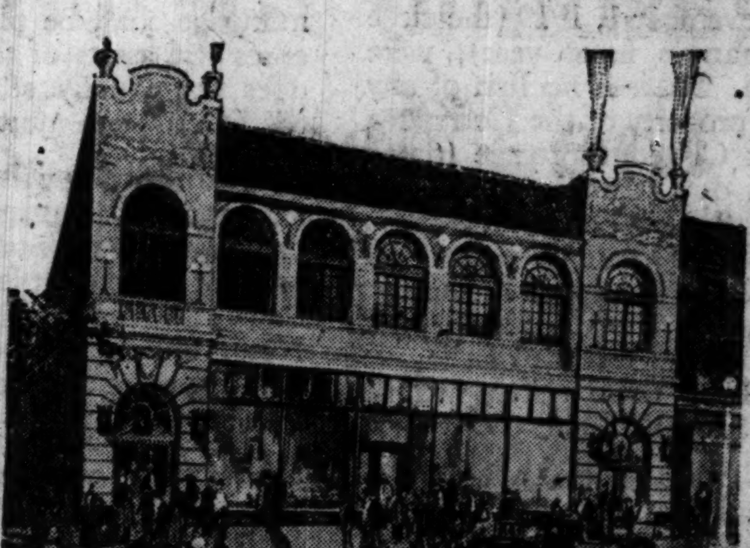

Silver Advances Sharply.

Silver prices again advanced rather sharply at London, with a resultant forward movement of the "foreign" silver quotation at New York. The price of 94½c per ounce here was 2⅛c higher than the day before. Today's quotation was 14½c above the price the day before the mint began to buy metal from American mines and refineries at $1 per ounce. China is buying more freely than a month ago. The far eastern exchanges moved upward, a natural product of the rise of silver.

In the foreign exchanges the same trend was seen as on Tuesday and Wednesday. Sterling gained three-eighths of a cent to 3.94⅝ for checks, while rates in France, Belgium, and Italy receded slightly. Holland rates were firm, as were Swiss quotations.

GIVE WHEAT PRICE OPINIONS.

Concensus of opinion amongst cash wheat handlers is that the opening price of December on July 15 will be around $2.50 to $2.65. Opinions are mixed as to the probable volume of trade. Some of the pit element believe it will be light for several months. The war tax on each 5,000 bu traded in will be around $2.75.

LOOP DEAL NETS $20,000 PROFIT IN 16 MONTHS

BY AL CHASE.

Some modest capitalist has cleaned up the pleasant little profit of $20,000 in sixteen months on the property at 237-39 West Madison street. In November, 1918, this unidentified person bought the 45x190 feet, improved with a five story building, for $230,000. Title was taken for him by the Northern Trust company. E. Orris Hart & Co. was broker.

Yesterday Mr. Hart sold the property for the Northern Trust company to Mrs. Jessie Spalding Landon, widow of Henry H. Walker, for $250,000. Thomas H. Willis of H. H. Walker & Co. represented the purchaser.

The sale was made subject to a first mortgage, which has been reduced to $35,000. In part payment the seller has taken from Mrs. Landon at a valuation of $35,000, fifteen bungalows in Oak Park, several store and flat buildings and some vacant, the balance of $30,000 being paid in cash.

Plans Improvements.

The property is 181 feet west of Wells street. The building is leased by the Steuben County Wine company, and is entirely subleased for short terms at an aggregate rental of $20,100 per annum. The board of review valued the property at $225,643, of which $25,000 is in the building. If the value of the improvements is disregarded, the purchase price named would be equivalent to $5,555 per front foot and about $29 per square foot.

It is understood that Mrs. Landon probably will improve the property with a high grade building when present leases expire in a few years.

North Side Deals.

The eighteen flat building at 744-52 Brompton avenue, lot 65x137, has been sold by Mardie R. Plotke to James G. Upton, through Plotke & Grosby, for an indicated $80,000, subject to $55,000.

Frank J. Christian, real estate operator, has bought from Carl H. Schweitzer the eighteen apartment building at 665 Barry avenue, lot 100x224, for an indicated $70,000.

FLOUR BUYERS CAUTIOUS

Flour buyers are going slow in taking supplies, as they fear that with liberal stocks of old wheat flours on hand, and good offerings of old wheat in the country, prices might weaken when new flours are offered in the volume expected soon. New 95 per cent Kansas patents are offered as low as $12.85 in car lots, and sold $12.50@13.50. Soft winters are $13.00@13.40 for old. Spring wheat flours are $13.00@13.75 for most brands, while Minneapolis mills are asking $14.25 for car lots of best patents, and supplying the retail trade at $15.00@15.15 per bbl. Rye flour is firmer at $11.20@12.25 per bbl in car lots, with trade only in a small way.

Bran is moving slower at $52.00@52.75 for spring, and $52.50@53.25 for winter. Standard middlings, $57.50@58.00, and red dog, $71.00@72.00 per ton.

Earnings 5.83 Times the Annual Interest

The stability of well-secured convertible short-term notes has long made this form of investment a favorite with conservative investors. The five-year secured 7½% gold notes described below occupy a very favorable position both as regards assets and earnings, the audited earnings for 1919 being equal to 5.83 times the annual interest on these notes.

With such earnings, the 8% yield made possible by present conditions is decidedly unusual; and the privilege of conversion into the preferred and common stock adds an opportunity for enhancement in the value of the principal as well.

A Complete Unit in an Essential Industry

Produces, transports, refines and markets petroleum products:

About 1900 producing wells.

2800 miles of pipe lines.

64 pumping stations.

Over 4000 tank cars.

10 modern refineries with total daily capacity of about 45,000 barrels.

10 casinghead gasoline plants.

400 distributing stations in 20 states.

About 6,000,000 barrels crude oil in storage.

Marine fleet of 50,000 tons in service.

1919 net earnings before interest and reserves $21,890,898.

Total similar net earnings for last 3 years $56,666,000.

Five-year Secured 7½% Convertible Gold Notes of the Sinclair Consolidated Oil Corporation

which has furnished us with the following information:

These $50,000,000 Secured Notes are the sole funded debt of the enterprise, excepting equipment notes and other items aggregating about $5,275,800, and against this there are total net assets of over $250,000,000, including the proceeds of the notes.

The consolidated net earnings over a series of years make a consistent and convincing record, the audited statements showing an amount available for interest, depletion, etc., equal to 5.83 times the annual interest on these notes for the year 1919, and averaging over 5 times such interest for the past three years.

The notes have the benefit of a sinking fund provision at the rate of $2,000,000 every six months for the purchase of the notes at or below 100 and interest.

A feature is the noteholder's privilege of converting each $1,000 note into $1,000 par value (ten shares) 8% Cumulative Sinking Fund Preferred Stock and 2½ shares Common Stock of the Company.

These secured notes may be purchased in denominations of $1,000, $500 and $100. Interest payable without deduction for the Federal Income Tax up to 2%.

Convertible on and after January 3, 1921, and prior to maturity or redemption date, par for par, into Armour and Company Class "A" Common Stock, to be presently authorized, which under present laws will be exempt from personal property taxes in the State of Illinois

Further information in regard to this issue is given in a letter of Mr. J. Ogden Armour, President of Armour and Company, from which we summarize as follows:

The proceeds as derived from the sale of this issue will be devoted to the reduction of current liabilities, thereby not increasing present indebtedness.

These notes will be the direct obligations of Armour and Company. Total assets as of November 1, 1919 (the close of the Company's fiscal year), were $490,809,643.34. There is no lien of any kind upon the property of the Company, except its First Closed Mortgage (dated June 1, 1909, due June 1, 1939) for $50,000,000, which is a lien upon approximately $57,500,000 out of a total of $147,811,885.52 Capital Assets. The net Current Assets of the Company, after giving effect to the proceeds of the sale of $60,000,000 of these notes, will be approximately $230,000,000.

During the four years ended November 1, 1919, the average annual earnings of the Company were $26,139,245 available for interest charges after Federal taxes. These figures do not include any earnings of South American subsidiaries which for the same period averaged approximately $6,003,500 per annum and which latter sum has been retained by the subsidiaries to finance their development and for this reason has not been taken on the books of Armour & Company. These combined earnings would total $32,142,745. The average annual interest charges (including interest on Bonds, but excluding interest on Debentures heretofore converted into Preferred Stock) have been approximately $7,540,000. During this period over $85,761,000 net earnings have been retained in the business, after paying cash dividends amounting to $8,993,000.

The Indenture under which these Notes are to be issued will provide, among other things, that no additional mortgage shall be placed on the properties and assets of the Company, which does not equally secure these notes by the lien of such mortgage.

The Indenture will furthermore contain a covenant that current assets of the Company shall be maintained in an aggregate amount equal to at least one and one-half times all current liabilities, including these Notes and any other issue of notes or debentures at any time outstanding.

The Company proposes to reclassify its capital stock and authorize $150,000,000 Class "A" Common Stock, of which $50,000,000 will be immediately issued, and $150,000,000 Class "B" Common Stock, all to be immediately issued. Of the unissued Class "A" Stock, $60,000,000 will be reserved to be available for exchange for the 7% Ten-Year Convertible Gold Notes. Class "A" Common Stock will have preference as to cash dividends up to 8% over Class "B" Common Stock, and after 8% has been paid on Class "B" Common Stock in any year, both classes of Common Stock will share alike in percentage of additional dividends paid during such year. Each share of Class "A" Common Stock shall be entitled to all the rights of any share of the Common Stock of the Company.

Conservative Investment Central Real Estate Security

A FUNDAMENTAL SECURITY

Central improved real estate, in prosperous cities of large size, has always been recognized as one of the most stable types of security for bonds and mortgages.

Many of the older and more conservative insurance companies, perhaps the most careful of all lenders, keep a large proportion of their capital funds in loans on property of this character.

A serial bond issue secured by a well located office building, rented to a large number of responsible tenants, has several very strong features.

The land is almost certain to increase in value, the many sources of income assure a steady rental return, and the loan itself is reduced as the maturing installments of principal are paid. Such an issue should satisfy the most conservative.

AS FOR EXAMPLE

Jackson-Quincy Building

CHICAGO, ILLINOIS

First Mortgage 6% Serial Bonds.

Dated December 1, 1919, maturing in annual series from December 1, 1921, to December 1, 1929. Denominations $1,000, $500 and $100. Borrower agrees to pay interest without deduction for Federal Income Tax not exceeding 4%.

Total Issue	$1,100,000
Value of Security	1,725,000

These bonds are secured by closed First Mortgage on land owned in FEE SIMPLE, in the business center of Chicago, having a south frontage of 50 feet on Jackson Boulevard and fronting north 50 feet on Quincy Street. The security also includes the new 15-story and basement steel, fireproof office building now being constructed thereon.

The land alone, in the heart of the financial district, is valued at $825,000, or 75% of the entire bond issue.

Another general upturn in live stock prices carried the best cattle to $17.00, as high as any day since June 25, when $17.25 was the top. Hogs reached $16.25, the highest since last Thursday. The best lambs made $16.10, the highest in more than a week.

Cattle values were largely 25c higher, most beef steers selling $1.00 above a week ago. Hogs closed fully 25c higher than Wednesday, with lambs mostly 50c up. The closing hog trade was the best of the day. Calves advanced $1.00.

Comparatively small receipts and large shipping orders were the principal strengthening factors, especially in the hog market. The day's average price of hogs at $14.90 was 25c above Wednesday and 50c higher than Tuesday. The average a week ago was $15.10, and a year ago $22.10.

Seven western markets received 25,000 cattle, 69,000 hogs, and 43,000 sheep, against 27,000 cattle, 76,000 hogs, and 38,000 sheep the previous Thursday, and 25,000 cattle, 90,000 hogs, and 33,000 sheep a year ago.

Receipts for today are estimated at 1,000 cattle, 25,000 hogs, and 5,000 sheep, against 6,182 cattle, 23,671 hogs, and 14,993 sheep at Chicago the corresponding Friday a year ago.

FINANCIAL NOTES

Bankers comprising the syndicate which yesterday made public offering of the $60,000,000 ten year 7 per cent notes of Armour & Co. report a volume of applications which indicates satisfactory distribution of the issue.

Stockholders of the S. S. Kresge company have authorized an increase in the capital stock from $12,000,000 to $22,000,000 by the addition of $10,000,000 common stock. They also authorized the issue of $3,000,000 worth of 7 per cent serial gold notes, which will be offered to stockholders of both common and preferred in proportion to their holdings of the stock at par, the notes to bear detachable stock warrants entitling the holder to purchase common stock of the company at $50 a share to the amount of two-thirds of their holdings of notes.

Directors of the Trumbull Steel company at Warren, O., have authorized a 25 per cent stock dividend, amounting to $3,500,000, and stockholders will meet on Aug. 14 to decide whether the common stock shall be reduced from $100 par to $25 par, thus issuing four shares of new stock for each share now held. The reduction will make stock more readily available to employes, officials pointed out. The total capitalization of the company, including preferred and common stock, will be $35,000,000 with the stock dividend.

The General Motors corporation and subsidiaries report for the quarter ended March 31 last: Net profit after all expenses, ordinary taxes, depreciation, etc., $28,081,166; balance after federal taxes and extraordinary expenses, $19,754,516; General Motors corporation proportion thereof, $19,603,405; balance after debenture and preferred dividends, $18,500,133; surplus after common dividends, $13,901,541. The balance available for the common stock was at the rate of $74,000,532 per annum, or $4.71 a share, which compares with actual earnings of $55,792,972 available for the common in the calendar year 1919.

The following securities have been admitted to trading on the New York stock exchange: Stewart-Warner Speedometer corporation, 60,000 shares of common stock without nominal or par value, and United Kingdom of Belgium external gold loan 6 per cent gold coupon notes to the amount of $6,400,000.

First Joint Stock Land Bank.

B. C., Burlington, Ia.—The First Joint Stock Land bank of Chicago has $1,200,000 of paid in capital and $184,565 of surplus and reserves. It has loaned a total of $18,493,875 on land appraised at $43,415,125. Of these loans $506,000 have been paid in full and installments amounting to $160,621 have been paid on those still outstanding. Bonds to the amount of $17,500,000 are outstanding. Because of the government's delay in having bonds printed the bank could do only a limited amount of business before October, 1918. Some months ago it practically ceased making loans pending the decision of the Supreme court on the validity of the land bank law.

Utah-Idaho Sugar.

C. P., Keokuk, Ia.—The Utah-Idaho Sugar company is issuing $8,000,000 of serial bonds due $500,000 annually till 1929 and the balance in 1930. The money is to pay for three new plants and to furnish the necessary increase to working capital. The company has paid dividends without interruption since it was formed in 1907 and has made liberal charges for depreciation. The bonds are secured by first mortgage on property appraised at more than two and one-half times the debt and the company contracts to keep net current assets at least equal to the bonds outstanding. The bonds are a well secured investment.

Trading Floor of the Chicago Board of Trade

The Greatest Grain Market in the World

"The Chicago Board of Trade is the most economical agency in the world for the distribution of foodstuffs."
Herbert C. Hoover, *Former United States Food Administrator*

MORE than 300,000,000 bushels of wheat and other grain are bought, sold and distributed each year in Chicago through the Board of Trade—the greatest grain market in the world. This represents "cash" grain business as distinguished from trading for future delivery.

The picture above shows the trading floor in action where food products of millions of dollars in value change hands upon "yes or no" yet that simple statement is as binding and valid as any contract ever written. In seventy years this market place has grown from a small western trading post to the largest grain exchange on earth.

When the shock of the war crumpled up the business machinery of other great exchanges throughout the world, the Chicago Board of Trade kept open. There were no failures and its members met every need during that crucial period. Chicago can well take pride in this record.

Chicago, the Wonder City—The commercial progress of Chicago is one of the marvels of the century. In common with other financial institutions, the growth of the Harris Trust and Savings Bank is largely dependent on the growth of Chicago. And the growth of Chicago rests on the faith and vision of its citizens. In a series of advertisements, of which this is the *Sixth*, we are trying to set forth a few of the achievements of this great city. Chicago will continue to contribute to the benefit of its citizens in proportion to their faith in its future.

An offering in blocks of three shares { *2 Shares Preferred* / *1 Share Common* } for $300

The Goodyear Tire & Rubber Company of Akron

In the fiscal year ending October 1, 1919, this company did a business of more than $168,000,000. Comparing the business done in the six months to May 1, 1920, it is found that this exceeded that of the preceding year for the same period by 59.3%.

The progressive increases this year are further shown as follows: May, 1920, sales exceeded those of April, 1920, by $2,469,844; and June, 1920, sales, as indicated by figures so far available, have been running ahead of May, 1920.

Percentages of individual increases in 1920 business as of May 1, over last year, are as follows: in passenger car casings, 79%; tubes, 107%; export, 115%; in mechanical rubber goods, due to rapidly advancing industrial and agricultural demand, 80%; in Goodyear Cord Truck Tires, 577%; Neolin Soles, 49%; production of rubber heels has increased 215%.

The wide scope of Goodyear's distribution is shown by the fact that this company has over 70,000 accounts, through which its various products pass to consumers.

In twelve years both the business and the assets of the Company have increased more than one hundred times; earnings on outstanding common stock, after preferred dividends, have averaged 54%.

During this period cash dividends of 12% have been paid annually on the common stock and stock dividends have been paid as follows: 1909, 100%; 1910, 100%; 1912, 100%; 1914, 20%; 1916, 100%; 1920, 150%.

We are offering the unsold portion of $20,000,000, 7% Cumulative Preferred and of $10,000,000 Common Stock in blocks of three shares (2 Preferred and 1 Common) at $300 per block.

NEWS OF THE CROPS

George M. Le Count, the Stein, Alstrin & Co. crop expert, has returned from a 1,500 mile trip through Iowa, Missouri, Illinois, and Indiana, and says: "Condition of oats is so spotted that it is very difficult to arrive at the true condition. In northern Iowa the crop is very promising, but in southern Iowa and northern Missouri shows the effect of the long drought in June, as the grain is short of straw, but well headed and filling well. Through south central Illinois crop is very spotted, but averages better than Missouri. Northern central Illinois spotted, but there is lots of splendid oats. Central Indiana crop is good. I think this year's crop will be larger than last year and quality very much better. Corn crop is in good condition, but is well worked, although two weeks late. The yield will be larger than last year if we do not get an early frost. Wheat will yield better than expected earlier in the season. I expect the total for the country will be around 550,000,000 bu."

"In a few isolated cases, evidence of black rust have appeared in southern Minnesota, but we believe that no damage has been done as yet," said the Van Dusen-Harrington company crop report. Weather has been against the development of rust the last few days. No cases of rust reported in the Dakotas, Montana, or northern Minnesota. With a continuance of present cool weather and moderate breezes to keep the grain moving, development of black rust may be held in check, but grain is of such rank growth that it is very susceptible to rust, and we will probably have some damage later on."

Crop reports to J. E. Bennett & Co. from Missouri show condition of corn is generally excellent, but oats promise to be somewhat below an average in Clay, Platte, Buchanan, Ray, Lafayette, and Jackson counties.

A late Minneapolis report to J. E. Bennett & Co. said black rust had developed at Elk Point, S. D., about the same time as it did last year.

building situation adjusts itself, vacant in a desirable location will go soaring.

This subdivision can't be beat for exclusiveness, and location. Values here will double and triple.

You can get your homesite here on easy terms and get an

INCOME

on every lot you purchase, as the property is under lease to a golf club the present time and all rents collected will be distributed among lot owners until May 1st, 1921, when the lease expires. Lowest rent on smallest lot amounts to $2.50 per month, or 15% net on your investment.

We will start building next year and if you pay like rent for your home. We only help a few. You owe it to yourself to investigate. Address F P Tribune.

ASTONISHING!

The most wonderful offer ever made whereby you can own your own home now.

No one knows the folly of renting better than you.

Had you purchased a place of your own a few years ago when you were thinking about it it would today be yours, and you would be living happier and in far more comfort than you are now. See me before it is too late and profit by past experience. $100 at the beginning and you can add to it as you are able. We will then make arrangements to build according to your own plans. Don't wait. Write today. Address D K 292, Tribune.

SOMETHING FOR NOTHING

The main point is that we will give you a beautiful new bungalow or two flat in the most attractive residence section of Chicago at a price and on terms that will sound like fairy tale after you have priced the other new homes. We will show you a saving that means a couple of thousand dollars you can keep in your pocket. A $70 deposit now is all you need. Get details before it is too late by mailing attached coupon now.

Colorado

FOR SALE—
Several desirable farms, from 20 to 160 acres, located on Redlands Mesa, Delta County, Colorado, improved and unimproved. Alfalfa yields as high as six tons, potatoes in 1919 made 619 sacks to acre, sold $4.50 per cwt. Wheat yields 25 to 60 bushels. Ten year crop average by State and Federal Board shows 10 year average yields nearly double that of the Midwest. Orchards are highly developed, some in this district winning world prizes. We offer land in alfalfa and orchard for very low first payment and low future payments. Climatic conditions healthful, sunshine predominates, and the territory is ideally located, near schools, railroad, and good roads. We believe an investigation will convince that this is one of the most productive territories in Colorado. Call and get the information we have, or write. REDLANDS MESA CO., INC., 109 N. Dearborn-st., Chicago.

FOR SALE—COME TO SUNNY COLORADO. I have my farm for sale on account of sickness, and it is priced for a quick sale. The New in Bathing Suits

In Variety Which Makes Choice Successful

The woman or girl selecting a bathing suit here is certain of having an attractive costume suitable to her needs. Whether she be an accomplished swimmer with thought mainly of comfort or the less venturesome bather who takes pleasure in being effectively appareled.

Light-Weight Mohair Suits for Women, $5.75

The woman who prefers a mohair bathing suit will choose this one for comfort, appearance and moderate pricing. In black with colored pipings. At right.

The Girls' Suit Sketched Left Center, $7.50

In colors that are certain to please. Bright blue with gold and navy blue with emerald green. Girls will find this an unusually comfortable suit for swimming.

The Bathing Suit of Fiber Silk, Priced at $27.50

The fiber silk is of that fine quality which holds its luster so beautifully. In black and white, black and gold, green and white. Sketched at the left.

The child's all-wool suit sketched, in a wide variety of bright, pretty colors, $4.50.

Fourth Floor, East.

Misses' New Tub Blouses

Simple in Style, Sheer and White, Cool and Crisp

The sort of blouse easily laundered, very smart, which is so definite and delightful a part of this summer's fashions for youth. And a real necessity for summer comfort.

Here, these blouses are so moderately priced that plenty is a simple matter.

A Blouse of Fine Dimity, Sketched at Left, $7.50

The soft rolling collar is a feature girls like in blouses of this type—a wide four-in-hand tie of soft ribbon looks well with a tailored suit or a sweater coat.

A Blouse of Sheer Batiste, Sketched at Center, $3.75

Rows and rows of the tiniest tucks—a square cut neck—a bit of fine embroidery beading—and buttons up the back. This is, indeed, an unusually girlish-looking blouse.

The Batiste Blouse, With Many Fine Tucks, Sketched at Right, $3.75.

Fourth Floor, North.

A Sale of Immediate Interest—

Women's Hats Reduced, $5

Hats for immediate wear in the best of this summer's modes. They are of the favored straws, often combined with silk, embroidered and flower trimmed. They may be chosen in street shades and light colors.

Women's Sports Hats Reduced—Now Are $3

Smart sailors, rolling brim hats and soft crush hats. In light colors, such as rose, gold or blue, as well as navy blue and black. Also a wide variety of banded hats in fine straws. All are excellent values.

Children's Banded Hats Reduced—Are $3

Tailored hats, banded and sashed with wide soft ribbon. Sailors, toques and mushrooms. In dark colors, the brighter shades and a few all-white.

Fifth Floor, South.

Certain Smart T

Are Most Moderately Priced—

Skirts, carefully tailored, of excellent materials. With clever details which mean distinction, no matter how simple the style—these are the skirts that one may choose at these moderate prices.

Surf Satin Tub Skirts, Beautifully Embroidered, $8.50

This cotton fabric, so attractive, has won instant favor for its luster, which is not affected by tubbing. Note well the elaborate border of embroidery. Sketched at center.

Other Surf Satin Skirts, Excellently Tailored, $7.50

Tailored folds, deftly placed, and fine pearl buttons in rows call attention to the unusually careful workmanship and good cut of this skirt. Sketched at the left.

The Skirt at the Right, of Fine Cotton Gabardine, Is $8.50
